FITCHBURG HOUSING AUTHORITY Proposed Annual Plan for Fiscal Year 2026 For State-Aided Public Housing

The Annual Plan is a document compiled by housing authority staff in advance of each new fiscal year. The plan serves as both a tool for the Local Housing Authority (LHA) to reflect upon the prior fiscal year, and as an opportunity to develop a clear and transparent plan that builds on successes, identifies needs, and corrects any issues that have arisen in prior years. Additionally, the Annual Plan is an important tool for tenants, who may use the document to better understand the operations and needs of their housing authority, advocate for changes to policies and procedures, access data about the housing authority, and participate in their housing authority's governance.

In addition to the physical document, the Annual Plan is also a process of public engagement. Throughout the Annual Plan process, the LHA executive director or their designee will be expected to review the Plan with any Local Tenant Organizations (LTO's) and Resident Advisory Board (RAB) before the LHA presents the plan to the LHA Board of Commissioners; make a draft available for review to all residents and the general public; post on the website and make a copy available to each LTO at least 30 business days before the public hearing; hold a hearing on the document; and collect, integrate, and report back on substantive comments. Additionally, the Board will read, offer recommendations, and approve the Annual Plan in advance of its submission to EOHLC.

The law that mandates the Annual Plan is <u>An Act Relative to Local Housing Authorities</u>, <u>Massachusetts</u> <u>General Laws</u>, <u>Chapter 121B Section 28A</u>. The regulation that expands upon Section 28A is 760 CMR 4.16. The regulations that address Local Tenant Organization (LTO) and resident participation in the Annual Plan are 760 CMR 6.09 (3)(h) and 760 CMR 6.09(4)(a)(4).

The FITCHBURG HOUSING AUTHORITY's Annual Plan for their 2026 fiscal year includes the following components:

- 1. Overview and Certification
- 2. Capital Improvement Plan (CIP)
- 3. Maintenance and Repair Plan
- 4. Operating Budget
- 5. Narrative responses to Performance Management Review (PMR) findings
- 6. Policies
- 7. Waivers
- 8. Glossary
- 9. Other Elements, which may include:
 - a. Approval documents and any Public Comments
 - b. Tenant Satisfaction Survey
 - c. Performant Management Review report
 - d. Other documents added by LHA

State-Aided Public Housing Developments

The following table identifies the state-aided public housing units with developments of more than 8 units listed separately. Units in developments of 8 or fewer units are aggregated as noted. Units that the LHA provides to assist clients of the Department of Mental Health (DMH), the Department of Developmental Services (DDS), or other agencies are also aggregated separately.

			Num	Year	Dwelling
Dev No	Type	Development Name	Bldgs	Built	Units
667-05	Elderly	CJ DURKIN APTS	1	1980	122
667-03	Elderly	WALLACE TOWER	1	1973	130
200-01	Family	GREEN ACRES VILLAGE	45	1949	160
705-02	Family	CANTON VALLEY	8	1957	48
667-02	Elderly	DANIEL HEIGHTS	9	1962	56
	Family	Family units in smaller developments	7		8
	Other	Other Special Occupancy units	2		16
Total			73		540

Massachusetts Rental Voucher Program (MRVP)

The Massachusetts Rental Voucher Program (MRVP) is a state-funded program that provides rental subsidies to low-income families and individuals. In most cases, a "mobile" voucher is issued to the household, which is valid for any market-rate housing unit that meets the standards of the state sanitary code and program rent limitations. In some cases, vouchers are "project-based" into a specific housing development; such vouchers remain at the development if the tenant decides to move out.

FITCHBURG HOUSING AUTHORITY manages 41 MRVP vouchers.

Federally Assisted Developments

FITCHBURG HOUSING AUTHORITY also manages Federally-assisted public housing developments and/or federal rental subsidy vouchers serving 272 households.

Plan History

The following required actions have taken place on the dates indicated.

REQU	REMENT	DATE COMPLETED
A.	Advertise the public hearing on the LHA website.	8/29/2025
В.	Advertise the public hearing in public postings.	8/29/2025
C.	Notify all LTOs or RAB (if there is one) of the hearing and provide access to the Proposed Annual Plan.	8/29/2025
D.	Post draft AP for tenant and public viewing.	8/29/2025
E.	Hold quarterly meeting with LTO or RAB to review the draft AP. (Must occur before the LHA Board reviews the Annual Plan.)	9/30/2025
F.	Annual Plan Hearing. Hosted by the LHA Board, with a quorum of members present. (For Boston, the Administrator will host the hearing.)	10/15/2025
G.	Executive Director presents the Annual Plan to the Board.	10/15/2025
Н.	Board votes to approve the AP. (For Boston Housing Authority, the Administrator approves and submits the AP.)	10/15/2025

Certification

CERTIFICATION OF LHA USER AUTHORIZATION FOR EOHLC CAPITAL SOFTWARE AND HOUSING APPLICATIONS

I, Douglas Bushman, Executive Directorof the FITCHBURG HOUSING AUTHORITY, certify on behalf of the Housing Authority that I have conducted an annual review of all FITCHBURG HOUSING AUTHORITY users of EOHLC Capital Software applications and Housing Applications and that all current LHA users are authorized to use the systems and have the appropriate level of user access based on their job responsibility. I approve all system access and access levels for all FITCHBURG HOUSING AUTHORITY users.

This certification applies to the following applications:

- Capital Planning System (CPS)
- Consolidated Information Management System (CIMS)
- Cap Hub
- EOHLC Housing Management Systems
- CHAMP

CERTIFICATION FOR SUBMISSION OF THE ANNUAL PLAN

I, Douglas Bushman, Executive Director of the FITCHBURG HOUSING AUTHORITY, certify on behalf of the Housing Authority that: a) the above actions all took place on the dates listed above; b) all facts and information contained in this Annual Plan are true, correct and complete to the best of my knowledge and belief and c) that the Annual Plan was prepared in accordance with and meets the requirements of the regulations at 760 CMR 4.16 and 6.09.

The Board and Executive Director further certify that LHA operations and all LHA Board-adopted policies are in accordance with M.G.L. c. 121B and all Massachusetts state-aided public housing regulations, including, but not limited to 760 CMR 4.00; 5.00; 6.00; 8.00; and 11:00, as well as adhere to Department-promulgated guidance.

Date of certification: 10/24/2025

The Executive Office of Housing and Livable Communities (EOHLC) completed its review of this Annual Plan (AP) on . Review comments have been inserted into the plan.

Capital Improvement Plan

EOHLC Description of CIPs:

The Capital Improvement Plan (CIP) is a five year plan which identifies capital projects, provides a planning scope, schedule and budget for each capital project and identifies options for financing and implementing the plan. The CIP identifies anticipated spending for each Department of Housing and Community Development (EOHLC) fiscal year (July 1 to June 30) based on the project schedules.

Local Housing Authorities (LHAs) receive yearly awards from EOHLC (Formula Funding Awards) which they target to their most urgent capital needs in their CIP. They may also receive special awards from EOHLC for specific projects which meet specific criteria. Special awards may be given for certain emergency, regulation compliance, energy and water conservation, and other projects. The first three years of the CIP are based on actual awards made to the LHA, while years four and five are based on estimated planning amounts, not actual awards.

LHAs may sometimes secure other sources of funding and assistance that you will note in their CIP, such as: Community Preservation Act (CPA) funding, Community Development Block Grant (CDBG) funding, Local Affordable Housing Trust Funds (AHTF), HOME grants, income from leasing a cell tower on their property, savings from net meter credit contracts with solar developers, utility rebates and contracted work from utility providers, and Sheriff's Department work crews. However, not all of these funding sources are available every year, or in all communities.

The CIP includes the following parts:

- A table of available funding sources and amounts
- A list of planned capital projects showing spending per fiscal year
- A table showing special awards and other funding for targeted projects, if any, which supplements Formula Funding awarded to the LHA

A 'narrative' with a variety of additional information.

Capital Improvement Plan (CIP)

Aggregate Funding Available for Projects in the First Three Years of the CIP:

Category of Funds	Allocation	Planned	Description
		Spending	
Balance of Formula	\$441,634.69		Total of all FF awards minus prior FF
Funding (FF)			spending
LHA Emergency Reserve	\$66,245.20		Amount to reserve for emergencies
Net FF Funds (First 3 Years of the CIP)	\$375,389.49		Funds to plan & amount actually planned in the first 3 years of the CIP
ADA Set-aside	\$34,088.48	\$26,390.71	Accessibility projects
DMH Set-aside	\$51,629.06	\$44,085.26	Dept. of Mental Health facility
DDS Set-aside	\$0.00	\$0.00	Dept. of Developmental Services facility
Unrestricted Formula	\$289,671.95	\$7,321,057.01	Funds awarded by DHCD to be used on
Funding (FF)		, , , , , , , , , ,	projects selected by the LHA and
			approved by DHCD.
Special DHCD Funding	\$45,417,248.67	\$45,337,448.67	Targeted awards from DHCD
Community Development	\$0.00	\$0.00	Federal funds awarded by a city
Block Grant (CDBG) Funds			or town for specific projects.
Community Preservation Act (CPA) Funds	\$0.00	\$0.00	Community Preservation Act funds awarded by a city of town for specific projects.
Operating Reserve(OR) Funds	\$0.00	\$0.00	Funds from the LHA's operating budget.
Other Funds	\$19,259,655.66	\$19,259,655.66	Funds other than those in the above categories. See explanation below.
Total funds and planned spending	\$65,052,293.81	\$71,988,637.31	Total of all anticipated funding available for planned projects and the total of planned spending.

Capital Improvement Plan (CIP)

CIP Definitions:

ADA Set-aside is funding allocated within the Formula Funding (FF) for use on projects that improve accessibility for people with disabilities. 10% of FF awards are designated for this purpose.

Available State Bond Funding is the amount of State Bond Funding available to the LHA for the first three years of the CIP. It is calculated by totaling all of FF and Special Awards granted to the LHA through the end of the third year of the plan and subtracting the amount of these funds spent prior to July 1 of the first year of the plan.

Amount spent prior to the plan is the total amount of Formula Funding (FF) and Special Awards spent prior to July 1 of the first year of the plan.

Capital project is a project that adds significant value to an asset or replaces building systems or components. Project cost must be greater than \$1000.

CDBG stands for Community Development Block Grant, a potential source of project funds.

CPA stands for Community Preservation Act, a potential source of project funds.

CapHub Project Number is the number given to projects entered into DHCD's project management system known as CapHub.

DMH Set-aside is funding allocated within the Formula Funding (FF) for use on facilities leased to the Department of Mental Health (DMH) program vendors, if any exist at this LHA.

DDS Set-aside is funding allocated within the Formula Funding (FF) for use on facilities leased to the Department of Developmental Services (DDS) program vendors, if any exist at this LHA.

Formula Funding (FF) is an allocation of state bond funds to each LHA according to the condition (needs) of its portfolio in comparison to the entire state-aided public housing portfolio.

Operating Reserve is an account, funded from the LHA operating budget, primarily used for unexpected operating costs, including certain extraordinary maintenance or capital projects.

Other Funds could include other funding by the city or town or from other sources.

Special Awards are DHCD awards targeted to specific projects. Award programs include funds for emergencies beyond what an LHA can fund, for complying with regulatory requirements, for projects that will save water or energy use, and various other programs the department may run from time to time.

Total Cost is the sum of investigation, design, administration, permitting, and construction costs for a project

Unrestricted Formula Funding (FF) is money awarded to the LHA by DHCD under the Formula Funding program other than amounts set aside (restricted) for accessibility improvements or for facilities operated by DMH or DDS.

Capital Improvement Plan (CIP) Narrative

Including Requests to DHCD & Supporting Statements

1. Request for increased spending flexibility.

DHCD designates a spending target (cap share) and an allowable spending range for each year of the CIP. A Housing Authority may request to shift the cap shares of the first three years in order to increase scheduling flexibility. A CIP utilizing this flexibility is called an Alternate CIP. The total spending over three years and over five years must continue to meet the limits set by DHCD. DHCD will approve an Alternate CIP only with acceptable justification and only if funding is available.

Fitchburg Housing Authority has not submitted an Alternate CIP.

2. Request for additional funding.

A Housing Authority may request additional funding from DHCD for projects that qualify as emergencies, required legal compliance upgrades, or sustainability improvements.

Fitchburg Housing Authority has not requested additional funding.

3. Overall goals of the Housing Authority's CIP

4. Changes from the Housing Authority's previous CIP

Every new CIP differs from the previous CIP because projects have been completed and a new year has been added with new projects. These changes and other significant changes to the content of the CIP are highlighted below:

5. Requirements of previous CIP approval

There were no special conditions attached to the approval of our previous CIP.

6. Quarterly capital reports

Our most recent quarterly capital report (form 80 and 90) was submitted on .

7. Capital Planning System (CPS) updates

Fitchburg Housing Authority has not completed CPS updates. Our plan going forward is as follows:

8. Project priorities

We have included projects which are not high priority (Priority 1 or 2) with the following justification:

9. High priority deficiencies

We have included all of our high priority (CPS priority 1 and 2) projects in our CIP.

10. Accessibility

We are not aware of any accessibility deficiencies in our portfolio.

11. Special needs development

Fitchburg Housing Authority does not have a special needs (167 or 689 programs) development.

12. Energy and water consumption

Our 12 most recent monthly energy reports are for months 10/2023 to 9/2024.

The following table lists the DHCD thresholds for Per Unit Monthly (PUM) expense for electricity, natural gas, oil, and water use and the developments at the Housing Authority that have expenses in excess of the thresholds, if any.

	Electric PUM > Threshold	Gas PUM > Threshold	Oil PUM > Threshold	Water PUM > Threshold
Threshold PUM:	\$100	\$80	\$50	\$60
	667-02	705-1E		705-1B
	667-03			200-01
	705-1F			705-1H
	667-05			705-1E
	705-1A			705-1K
				705-1C

Annual Plan Capital Improvement Plan

Draft Plan for Public Posting

13. Energy or water saving initiatives

Fitchburg Housing Authority is not currently pursuing any energy or water-saving audits or grants that could affect CIP project scope, costs or timing of projects.

14. Vacancy rate

Our unadjusted vacancy rate reported to DHCD is as follows. (The unadjusted vacancy rate captured in these figures is the percentage of ALL housing units that are vacant, including both offline units being used for other purposes and units with DHCD vacancy waivers.)

19.5% c. 667 (DHCD Goal 2%)

7.5% c. 200 (DHCD Goal 2%)

7.1% c. 705 (DHCD Goal 2%)

Maintenance and Repair Plan

Maintenance Objective

The goal of good property maintenance at a public housing authority is to serve the residents by assuring that the homes in which they live are decent, safe, and sanitary.

About This Maintenance and Repair Plan

This Maintenance & Repair Plan consists of several subsections describing maintenance systems followed by charts showing typical preventive maintenance, routine maintenance, and unit inspection tasks and schedules. These subsections are:

- a. **Classification and Prioritization of Maintenance Tasks** Defines and prioritizes types of work to be accomplished by maintenance staff and vendors. Explains how the housing authority is expected to respond to work orders (tasks or requests) based on the work order classification.
- b. **Emergency Response System** Defines what constitutes an emergency and how to notify staff of an emergency.
- c. **Normal Maintenance Response System** How to contact the maintenance staff for a nonemergency request.
- d. **Work Order Management** Description of the housing authority's system for managing work orders (tasks and requests).
- e. **Maintenance Plan Narrative & Policy Statement** Self-assessment, basic information, and goals for the coming year, along with a description of the housing authority's maintenance program.
- f. **Preventive Maintenance Schedule** A listing and schedule of tasks designed to keep systems and equipment operating properly, to extend the life these systems and equipment, and to avoid unexpected breakdowns.
- g. **Routine Maintenance Schedule** A listing and schedule of ordinary maintenance tasks such as mopping, mowing, raking, and trash collection required to keep the facilities in good condition.
- h. **Unit Inspections** Scheduling of annual unit inspections.

Classification and Prioritization of Maintenance Tasks

Maintenance items are tracked as "work orders" and are classified in the following categories. They are prioritized in the order listed. The following classifications and prioritization are required by the Department of Housing and Community Development (EOHLC).

- I. **Emergencies** Emergencies are only those conditions which are **immediately threatening** to the life or safety of our residents, staff, or structures.
 - Goal: initiated with 24 to 48 hours.
- II. Vacancy Refurbishment Work necessary to make empty units ready for new tenants.
 - After emergencies, the refurbishment of vacancies for immediate re-occupancy has the highest priority for staff assignments. **Everyday a unit is vacant is a day of lost rent.**
 - Goal: vacancy work orders are completed within 30 calendar days or if not completed within that timeframe, LHA has a waiver.
- III. **Preventive Maintenance** Work which must be done to **preserve and extend the useful life** of various elements of your physical property and avoid emergency situations.
 - A thorough Preventive Maintenance Program and Schedule that deals with all elements of the physical property is provided later in the document.
 - The Preventive Maintenance Program is reviewed and updated annually and as new systems and facilities are installed.
- IV. Programmed Maintenance Work which is important and is completed to the greatest extent possible within time and budget constraints. Programmed maintenance is grouped and scheduled to make its completion as efficient as possible. Sources of programmed maintenance include:
 - Routine Work includes those tasks that need to be done on a regular basis to keep our physical property in good shape. (Mopping, Mowing, Raking, Trash, etc.)
 - Inspections are the other source of programmed maintenance.
 - ♦ Inspections are visual and operational examinations of parts of our property to determine their condition.
 - ♦ All dwelling units, buildings and sites must be inspected at least annually.
 - Goal: Inspection-generated work orders are completed within 30 calendar days from the date of inspection, OR if cannot be completed within 30 calendar days, are added to the Deferred Maintenance Plan or the Capital Improvement Plan in the case of qualifying capital repairs (unless health/safety issue).
- V. **Requested Maintenance** Work which is requested by residents or others, does not fall into any category above, and should be accomplished as time and funds are available.
 - Requests from residents or others for maintenance work which does not fall into one of the other categories has the lowest priority for staff assignment.
 - Goal: Requested work orders are completed in 14 calendar days from the date of tenant request or
 if not completed within that timeframe (and not a health or safety issue), the task is added and
 completed in a timely manner as a part of the Deferred Maintenance Plan and/or CIP.

Emergency Request System

For emergency requests call the numbers listed here. Qualifying emergency work requests are listed below.

METHOD	CONTACT INFO.	TIMES
Call Answering Service	978-342-5222	24/7
Call LHA at Phone Number		8:00 am to 3:00 pm, Monday through Friday
Other		

See attached Preventative Maintenance Plan for more details.

List of Emergencies - Emergencies are those conditions which are immediately threatening to the life or safety of our residents, staff, or structures. The following is a list of typical conditions that warrant an emergency response. If there is an emergency condition whether or not enumerated on this list please notify the office or answering service at the numbers listed above. If you have any questions regarding this list or other matters that may constitute an emergency, please contact the FITCHBURG HOUSING AUTHORITY main office.

QUALIFYING EMERGENCY WORK REQUESTS
Fires of any kind (Call 911)
Gas leaks/ Gas odor (Call 911)
No electric power in unit
Electrical hazards, sparking outlets
Broken water pipes, flood
No water/ unsafe water
Sewer or toilet blockage
Roof leak
Lock outs
Door or window lock failure
No heat
No hot water
Snow or ice hazard condition
Dangerous structural defects
Inoperable smoke/CO detectors, beeping or chirping
Elevator stoppage or entrapment

Normal Maintenance Request Process

FITCHBURG HOUSING

Make normal (non-emergency) maintenance requests using the following methods:

Work Order Management

- A. EOHLC review of this housing authority's operations shows that the authority uses the following system for tracking work orders: PHA Web
- B. We do track deferred maintenance tasks in our work order system.
- C. Our work order process includes the following steps:

Step	Description	Checked steps are used by LHA
1	Maintenance Request taken/submitted per the standard procedures listed above for the Emergency Request System and the Normal Maintenance Request Process.	V
2	Maintenance Requests logged into the work system	V
3	Work Orders generated	V
4	Work Orders assigned	V
5	Work Orders tracked	\checkmark
6	Work Orders completed/closed out	V
7	Maintenance Reports or Lists generated	\checkmark

D. Additional comments by the LHA regarding work order management:

Maintenance Plan Narrative

FITCHBURG HOUSING

Following are FITCHBURG HOUSING AUTHORITY's answers to questions posed by EOHLC.

A. Narrative Question #1: How would you assess your Maintenance Operations based on feedback you've received from staff, tenants, EOHLC's Performance Management Review (PMR) & Agreed Upon Procedures (AUP), and any other sources?

The FHA has a LTO which administration and maintenance staff meet with on a monthly basis. The responses received regarding our maintenance operations are that they are polite and responsive to the tenants needs. There is little negative feedback regarding response times or the quality of the work.

B. Narrative Question #2: What changes have you made to maintenance operations in the past year?

The FHA is in the process of reorganizing the maintenance operations from its current geographical operational setting to one centered on tasks and duties. Example currently the maintenance operations are divided between family and elderly properties. Going forward we are creating the following three divisions: Vacancies; Preventive and General Work Orders. The maintenance division will also be led by a non-union maintenance supervisor who will be working side by side with the maintenance workers to increase productivity.

C. Narrative Question #3: What are your maintenance goals for this coming year?

To complete the reorganization of the maintenance division and reduce the number of vacancies and outstanding work orders.

D. Maintenance Budget Summary

The budget numbers shown below are for the consolidated budget only. They do not include values from supplemental budgets, if any.

	Total Regular Maintenance	Extraordinary Maintenance
	Budget	Budget
Last Fiscal Year Budget	\$1,006,762.00	\$325,500.00
Last Fiscal Year Actual Spending	\$1,108,730.00	\$37,965.00
Current Fiscal Year Budget	\$1,265,248.00	\$75,800.00

E. Unit Turnover Summary

# Turnovers Last Fiscal Year	75
Average time from date vacated to make unit "Maintenance Ready"	11 days
Average time from date vacated to lease up of unit	80 days

F. Anything else to say regarding the Maintenance Plan Narrative?

Attachments

These items have been prepared by the FITCHBURG HOUSING AUTHORITY and appear on the following pages:

<u>Preventive Maintenance Schedule</u> - a table of preventive maintenance items showing specific tasks, who is responsible (staff or vendor), and the month(s) they are scheduled

<u>Deferred Maintenance Schedule</u> - a table of maintenance items which have been deferred due to lack of resources.

FITCHBURG HOUSING AUTHORITY

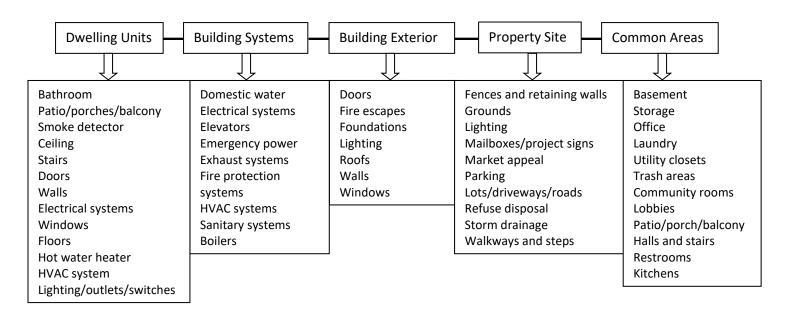

PREVENTIVE & PROGRAMMED MAINTENANCE PLAN

(PPMP)

1. General Information

This is the Preventive and Programmed Maintenance Plan and schedule for the Fitchburg Housing Authority's five (5) state-aided public housing developments and eleven (11) scattered site homes. Please note that inventory, annual inspections and the work order policies and procedures are covered in separate administrative policies and should be cross referenced with the Preventive and Programmed Maintenance Plan and schedule. However, when maintenance personnel are undertaking their preventive and programmed maintenance duties, if they discover maintenance problems, a work order should be immediately generated and the maintenance issue should be resolved according to the proper procedures. This administrative procedure only covers scheduled preventive and programmed maintenance issues.¹

Uniform Physical Condition Standard Basic Inspection Items

¹ This is an administrative procedure that can be changed per the directive of the FHA Executive Director; Preventive and Programmed Maintenance Plan Issued July 2020. The FHA Maintenance Union Local 248 also has a Union Agreement with the FHA which should be read in conjunction with this PPMP.

The FHA provides state-aided public housing management and maintenance for the following five (5) project-based apartment complexes and eleven (11) single family homes:

C.J. DURKIN APARTMENTS	50 Day Street
FHA Administrative Offices	
125 Units – 1 Building	7 Floors
WALLACE TOWER	54 Wallace Avenue
FHA Satellite Office	
130 Units – 1 Building	14 Floors
DANIELS HEIGHTS	351 Daniels Street
	5 – 40 Daniels Heights
56 Units – 10 Building	
CANTON VALLEY TERRACE	1 – 41 Valley Street
	379 – 441 Canton Street
48 Units – 10 Buildings	
GREEN ACRES VILLAGE	1 – 103 Leyte Road
FHA Satellite Office	5 – 141 Normandy Road
	34 – 53 Wanoosnoc Road
160 Units – 47 Buildings	873 – 919 Water Street
SCATTERED SITE	76 Mechanic Street
SINGLE FAMILY HOMES FITCHBURG	7 Sheridan Street
11 Buildings	70 Maryland Street
	66 Almount Road
	114 Arlington Street
	238 Ashburnham Street
	174 Milk Street
	52 Exeter Street
	28 Taft Street
	24 Forest Street
	110-112 Overland Street

In addition to the above state housing units, the FHA also maintains two (2) State 689 housing programs at 76 Mechanic Street and 240 Ashburnham Street. The FHA maintains Lease agreements with providers in these group homes and those Lease agreements should be referenced in conjunction with this PPMP. The provider agencies also provide auxiliary maintenance assistance from their internal staff.

The primary responsibility of the FHA Maintenance Department is to reoccupy vacancies as quickly as possible and to maintain all properties in safe and sanitary condition per the Lease agreement and State Sanitary and housing codes. A well-developed PPMP will help to ensure that these goals are consistently met while reducing overall maintenance costs.

2. Maintenance Department

It is the FHA's goal is to ensure that on-site staff can effectively perform routine, emergency, preventive and programmed maintenance and responsibilities. All maintenance staff report to a Maintenance Foreman. Duties of the maintenance staff are also spelled out in their job description. Their duties include, but are not limited to, the following:

- 1. Perform general cleaning chores of community, common areas, and office spaces
- 2. Mow lawns, trim trees/shrubs, maintain appearance of all FHA properties
- 3. Assist in building maintenance and repair
- 4. Clean common areas and remove trash
- 5. Maintain the grounds for all FHA properties
- 6. Snow removal
- 7. Ensure the lease terms regarding maintenance of the 689 program group homes are in compliance
- 8. Clean and maintain floors at all FHA properties

The FHA provides tools and equipment to the Maintenance Department as needed. Maintenance personnel are responsible for proper care and upkeep of all FHA owned tools. Any maintenance staff who use their own tools do so at their own risk and the FHA is not responsible for any personal tools that are lost, stolen, or damaged when used at work.

During the performance of regular maintenance duties, maintenance staff members should be alert to repairs that should be made (Examples: malfunctioning washing machine, a broken light, etc.) and report them to their Maintenance Foreman for action. The Maintenance Foreman should then ask their Program Director to prepare a work order.

The Maintenance Foremen have responsibility for the oversight of operations and maintenance of the physical and mechanical aspects of the properties. The Maintenance Foremen's duties are spelled out in detail in their job description, an example of these duties are:

- 1. Provide supervision to the maintenance staff
- 2. Develop a preventive and programmed maintenance schedule for housing units and grounds
- 3. Perform maintenance and repairs on all FHA properties
- 4. Ensure that off-shift hours are covered by on-call maintenance staff person
- 5. Provide for ongoing training and familiarization of systems to other maintenance staff

The Maintenance Foremen report directly to the Deputy Director but are expected to closely work with the Program Directors on a regular basis to coordinate unit turnover, regular maintenance, and other issues.

Components of a Maintenance System

The FHA maintenance system shall include certain components:

- A. Prioritization of work
- B. Comprehensive work procedures
- C. Performance standards and goals
- D. Work order system
- E. Skills, updates, and training programs
- F. Long-range planning

By developing a maintenance system that has these components in place, the FHA will have the tools it needs to control the performance of maintenance work.

3. Goals & Objectives

The management of the physical plant is a crucial part of the overall management process. A well thought out and executed PPMP will same time and money. The appearance and condition of the buildings and grounds are essential to resident satisfaction, efficient use of operating funds, and community acceptance of public housing. All maintenance performed shall conform to or exceed the State Sanitary and Building Codes. Maintenance of the physical buildings is an ongoing process, therefore preventative and programmed maintenance should be used to keep operations running efficiently. The following are the three (3) primary standards for which maintenance can follow PPMP.

I. Preventive Maintenance

Scheduled inspections, service, and repair of various components to maximize the level of services at a property and reduce equipment breakdowns and service interruptions.

II. Programmed Maintenance

Work which is important and should be completed to the greatest extent possible within time and budget constraint.

III. Deferred Maintenance

Work orders created that upon commencement of the work it is discovered that more extensive maintenance/repairs are needed which may require specialized equipment, materials, and/or outside contractors to complete are deferred by management until they can be completed.

The Maintenance Foreman is responsible and accountable for the satisfactory performance of maintenance functions and should be aware of all maintenance work on the properties, as well as the overall conditions and property operation.

Preventive Maintenance

Preventive maintenance is performed on a regularly scheduled basis to keep the level of services at the properties high and reduce equipment breakdowns and service interruptions. It requires that the maintenance staff and office make regular inspections for the repair and replacement of items before problems occur.

A. Manufactured Components

Whenever new equipment, facilities or fixtures are installed, manufacturers' information packets will be consulted regarding service. These recommendations will be immediately scheduled as a part of the FHA Preventive and Programmed Maintenance Plan to keep the component functioning efficiently.

B. Industry Standards

In the case of standard material and even some equipment and fixtures, industry standards will apply to effective maintenance. Examples might include the frequency of waxing linoleum tile, changing an air filter, etc.

C. Technical Consultants

In some cases, a consultant may be needed to design the best preventive maintenance strategy for FHA components.

The FHA shall have a schedule for performance of these PPMP tasks. This will include lists of tasks that need to be performed annually, seasonally, quarterly, monthly, weekly, and daily. These lists will be updated whenever new components are installed or new procedures are decided upon. From these lists, a weekly schedule can be assembled and converted into a daily set of work orders using the FHA's work order system.

All maintenance staff will rotate preventive maintenance tasks. This will give all maintenance staff an opportunity to become familiar with all equipment.

Preventive maintenance will be concentrated on one day of the week or one week of the month. This will prevent preventive maintenance work from being rescheduled when it is necessarily "bumped" for a higher priority work order.

Preventive Maintenance Components

The FHA is responsible for coordinating and completing a wide-variety of inspections and preventative maintenance tasks for various components at each property. These inspections occur throughout the year with some of the tasks conducted by outside contractors, such as the elevator inspections, while other tasks can be completed by maintenance staff. The tasks below are for the all FHA properties and not for specific units.

Preventive tasks that are to be completed in this schedule are entered into PHA-Web even if the task is to be completed by a contractor. Maintenance Foremen are responsible for ensuring these tasks are completed as scheduled. When a contractor completes a preventive task, the Maintenance Foreman who is responsible for oversight must close out the work order and put any necessary comments in the description box. Whenever a work order must be generated as a result of these tasks, the Maintenance Foremen will be responsible for creating the work order and assigning it to maintenance staff.

The PPMP addresses the following areas:

1. Building exterior

Entrances

Landscaping

Grounds

Buildings (appearance and evidence of structural cracks)

Exterior paint

Driveways/parking lots

Gutters and downspouts

Roofs (evidence of wear and leaks)

Windows and door (frames and hardware)

Lighting (fixtures, bulbs, switches, and timers)

Storm drain systems, catch basins, piping

Roof/ventilation fans

2. Building interior and units

Office

Entrance/lobby and mailboxes

Appliances (range, refrigerator)

Floors, walls, and ceilings

Doors, closets, and cabinets

Lighting and electrical outlets

Sinks, showers, bathtubs, and toilets

Laundry room

Community room

3. Major equipment

Heating, ventilating, and air conditions

Fuel storage and transfer

Devices for sensing the outside temperature

Pipes and valves

Controls that regulate the flow of heat

Radiators

Security systems

Sprinkler and smoke detector systems

Plumbing

Boilers

4. Elevator check (full monthly/annual inspection and testing contracted out)

Cab

Controls

Mechanical room

Lighting and smooth operation

5. Electrical

Wiring

Control panels

Fixtures

6. Solid waste disposal

Chute

Compactor

Water system

7. Emergency systems

Smoke and heat detecting devices

Emergency lighting

Extinguishers and hoses

8. Security system

Alarm devices

Locks and door buzzers

Regular inspections and servicing are planned for each of the areas listed above. Unlike custodial work, which is performed on the same day each week and therefore scheduled on a monthly basis, preventive maintenance is scheduled over the whole year.

It is the policy of the FHA to provide a safe and sanitary environment for all its residents. To that extent the Maintenance Department shall notify the Program Directors of any scheduled and unscheduled pest extermination for all properties. All vacated units will be exterminated as needed during the make-ready process.

Programmed Maintenance

This work is performed after higher priority emergency, vacancy, and preventive maintenance tasks. Programmed maintenance are tasks that can be grouped and scheduled in such a way as to make their completion very efficient. Programmed maintenance comes from two primary sources:

A. Routine Work

These are not emergencies nor related to vacancies. They cannot be called preventive maintenance because they are not undertaken for the purpose of preserving equipment. Examples: picking up litter, cleaning tools, shoveling snow and plowing, raking, etc.

B. Grouping

This is appropriate for tasks that require particular tools, equipment, materials, and personnel. Other work can be grouped according to seasonal or timing considerations. In general, work should be grouped and assigned in a matter that assures that repairs will be performed within two (2) weeks.

Deferred Maintenance

When routine work orders uncover larger issues that require more extensive maintenance and/or outside contractors to repair, work orders will be deferred by management until work can be completed. Deferred work orders are determined at regular maintenance meetings after discussion with staff and are deferred in the work order system by management. Management is responsible for the deferred work order schedule and may direct maintenance staff to procure specialized items, equipment, and/or outside contractors to correct certain maintenance issues.

4. Elevators, Fire Alarms, and Fire Equipment

Certification for elevators, fire alarms, and other fire equipment require annual tests that must be performed by outside contractors. If the State and/or City require additional testing, then those standards must be complied with. Therefore scheduling of said tests must be coordinated through the Maintenance Department in order to ensure scheduled tests coincide with their due inspection date. However, the Maintenance Staff must still regularly check elevators, fire alarms, and fire equipment for any breaks, malfunctions, or other issues which may require immediate attention or calling in of outside certified contractors.

5. PPMP Scheduling

The scheduling method for maintenance tasks is the FHA work order system which is hosted through PHA-Web. Preventive priority work orders are pre-programed into the system by management. Each month, the scheduled preventive work orders will populate into the system with assigned work order numbers. As preventive tasks are completed, the work orders are closed out.

6. Detailed Maintenance Records, Forms, and Warranties

A maintenance repair/work ledger must be kept and maintained for maintenance work performed on all apartment units, buildings, grounds, and equipment. This is done through PHA-Web when work orders are completed. When necessary, maintenance staff should document in the description box any information that may help to explain or note issues that arise during a work order. Individual tasks listed in work orders should always have labor attached by the maintenance staff who completed such task. Multiple employees' labor may be added to one or more tasks on the work order. Any additional tasks completed by maintenance staff should also be added to an existing work order if that work was completed at the same time as the existing work order.

All manufactured products that have warranties must be maintained at both the maintenance department and central office. Each form contained within this PPMP must be filled out and a copy must be provided to the Deputy Director when required. Please note that all logs, records, and reporting forms are public records that can only be disposed of with the approval of management in accordance with all applicable laws and regulations of the Commonwealth of Massachusetts.

7. Monthly Property Inspections

Every month there will be an inspection of one (1) of the five (5) state-aided public housing developments on a rotating basis. These are not unit inspections which are conducted on an annual basis as mandated by DHCD and other government regulations; these inspections are more concerned with outside unit conditions such as common areas, basements, boiler rooms, grounds and laundry rooms. Each month one (1) of the state-aided public housing complexes will have this inspection.²

² The two (2) 689 homes that the FHA Leases have auxiliary maintenance and is not schedule for monthly inspection.

The inspections schedule is as follows:

<u>Development</u>	Sample Month
Green Acres –	January
Canton Valley –	February
Daniel Heights –	March
Wallace Tower –	April
CJ Durkin –	May

Any work orders that are generated during these inspections will be considered inspection generated work orders and should be completed within thirty (30) days, excluding emergency work orders. Work orders will be generated and assigned to the Maintenance Foreman of the development who will be responsible for ensuring the work is completed.

8. Review of Collected Data and Planning

At the beginning of each work week the Deputy Director and Maintenance Foremen and if applicable the Program Directors will meet to review the status of the PPMP and its compliance and future PPMP maintenance tasks. This meeting can also be used to discuss work order reports and budget issues.

Preventive & Programmed Maintenance Plan Schedule

Daily Duties:

- 1. Walk FHA properties and ensure grounds and landscaping are acceptable, free of dirt or trash, and gives the general appearance of neatness
- 2. Check windows and lights for breaks/cracks that need replacement
- 3. Check stairs, hallways, common areas, laundry and community rooms and ensure they are clean and that the lights work
- 4. Check for health/safety code violations or possible hazards
- 5. Check exterior painted surfaces for cracking, chipping, or peeling of paint
- 6. Inspect exterior lighting
- 7. Mop and scrub floors in restrooms, laundry rooms, and common rooms as needed
- 8. Ensure walls, baseboards, and other surfaces are free of slashing and marks and presents an overall appearance of cleanliness
- 9. Dust/vacuum and wet mop all tile floors as needed, there shall be no dirt, dust, or streaks
- 10. Check trash chute for blockage at Wallace Tower and CJ Durkin
- 11. Check boilers for temperature readings and circulators
- 12. Do tenant requests and non-routine repairs
- 13. Check on/off emergency pull chord switch for all buildings
- 14. Check common/community room furniture for wear and tear
- 15. Check community room American flag for wear and tear

Weekly Duties:

- 1. Service tractors/lawnmowers
- 2. Gas up trucks and containers
- 3. Clean main entrances
- 4. Mop floors in trash rooms
- 5. Mow lawns for all FHA properties, seed and fertilize as needed
- 6. Keep beddings clear of weeds, papers, or leaves and trim shrubs as needed; *shrubs are not to cover window sills*
- 7. Clean boiler rooms as needed
- 8. Clear dumpster areas of all debris after removal of trash
- 9. Test emergency backup lights
- 10. Spot clean walls and wipe down light fixtures
- 11. Clean drier vents of lint and rubbish
- 12. Clean floors, sinks, toilets, and trash receptacles in restrooms with disinfectant
- 13. All door handles, locks, and hinges shall be cleaned and treated, washed and/or painted if needed

Monthly Duties:

- 1. Inspect grounds for all FHA properties
- 2. Vacuum common halls
- 3. Check and adjust clocks as needed
- 4. Organize and reorder stock and supplies
- 5. Clean and sanitize maintenance areas
- 6. Clear debris on basement stairs/floors
- 7. Run/test emergency generators
- 8. Ensure all drains/catch basins are clear or leaves/rocks or other debris
- 9. Wash windows in common areas
- 10. Check washers and driers for any repairs

Quarterly Duties:

- 1. Fire alarm/smoke and heat detector inspections at all FHA properties
- 2. Check roof tops and attics
- 3. Clean, disinfect, and spray down trash chute and compactor/compactor room
- 4. Mop stairwells and clean/inspect handrails for repairs
- 5. Check and test all sump pumps
- 6. Update tenant names on buzzer panel
- 7. Clear gutters or debris/obstruction
- 8. Lubricate blowers, fans, motors, and circulators
- 9. Inspect condition of parking lots and repair as needed
- 10. Change oil on vehicles after 3,000 miles or 6 months
- 11. Clean carpets at all FHA properties
- 12. Clean vinyl at all FHA properties three (3) times a year

Annual Duties:

- 1. Check light lenses
- 2. Check, grease, and change belts on roof fans
- 3. Inspect fire extinguishers and hoses
- 4. Check washing machine hoses
- 5. Inventory tools, equipment, refrigerators, and stoves in stock January 1 of each year
- 6. Clean, repaint, or replace ceiling tiles in common areas as needed
- 7. Change oil and all other PM on slow blowers, lawn mowers, and highway sanders
- 8. Change air filters on rooftop air handler
- 9. Inspect apartments and change batteries in CO detectors (done during annual inspections)
- 10. Fire extinguisher inspections and tagging
- 11. Elevator inspection and sticker

- 12. Truck inspections and tagging
- 13. Emergency generator inspection and refuel storage tanks
- 14. Inspect/grease bearings and check fan belts on exhaust fans
- 15. Change heating filter in common room on Pleasant Street
- 16. Shampoo carpets and strip wax floors common areas at *all* properties

Seasonal Duties:

Winter

- 1. Turn on heat September 15th or as required each season
- 2. Shovel, snow blow, and snowplow all parking lots, roadways, walkways, ramps, stairs
- 3. Sand and salt walking areas and parking lots
- 4. Get sand, ice, and fuel
- 5. Remove hanging ice from roofs and buildings
- 6. Keep storm drains clear
- 7. Routinely pick up fallen tree limbs
- 8. Check areas for melt and freeze up that need to be re-sanded

Spring

- 1. Pick up trash, leaves, tree branches, and other debris left on all FHA properties
- 2. Sweep up and remove sand from roads and walkways
- 3. Repair and add loam to grounds that have been disturbed by plows or heavy equipment
- 4. Mulch and reseed where needed and prune trees and shrubs
- 5. Turn off heat May 15th or as required each season

Summer

- 1. Keep flowers watered and prune/cut trees and shrubs as needed
- 2. Cut lawns and remove weeds/overgrowth
- 3. Repaint areas outside as needed
- 4. Deodorize and clean outside trash and dumpster areas
- 5. Pressure wash mold from all FHA properties
- 6. Install/maintain fencing
- 7. Outside light repair/replacement

Fall

- 1. Cut lawns and rake grass and leaves at all FHA properties as needed
- 2. Lay new mulch as needed/remove old mulch or other debris
- 3. Install storm windows and begin weatherization and winter preparation

I have read the Preventive and Programmed Maintenance Plan and fully understand the duties outlined. Regular preventive maintenance will be carried out according to the above-mentioned schedule. I understand that these duties are crucial for smooth operation of the maintenance department and for optimal service to the tenants.

Deputy Director	Date
Maintenance Forman	Date
Maintenance Staff	Date
Other Staff	Date

FITCHBURG HOUSING AUTHORITY

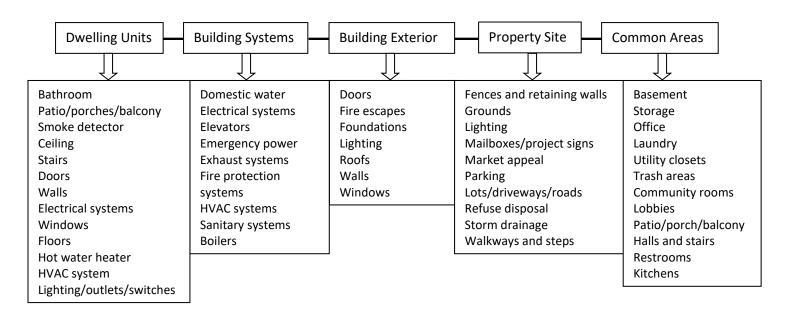

PREVENTIVE & PROGRAMMED MAINTENANCE PLAN

(PPMP)

1. General Information

This is the Preventive and Programmed Maintenance Plan and schedule for the Fitchburg Housing Authority's five (5) state-aided public housing developments and eleven (11) scattered site homes. Please note that inventory, annual inspections and the work order policies and procedures are covered in separate administrative policies and should be cross referenced with the Preventive and Programmed Maintenance Plan and schedule. However, when maintenance personnel are undertaking their preventive and programmed maintenance duties, if they discover maintenance problems, a work order should be immediately generated and the maintenance issue should be resolved according to the proper procedures. This administrative procedure only covers scheduled preventive and programmed maintenance issues.¹

Uniform Physical Condition Standard Basic Inspection Items

¹ This is an administrative procedure that can be changed per the directive of the FHA Executive Director; Preventive and Programmed Maintenance Plan Issued July 2020. The FHA Maintenance Union Local 248 also has a Union Agreement with the FHA which should be read in conjunction with this PPMP.

The FHA provides state-aided public housing management and maintenance for the following five (5) project-based apartment complexes and eleven (11) single family homes:

C.J. DURKIN APARTMENTS	50 Day Street
FHA Administrative Offices	
125 Units – 1 Building	7 Floors
WALLACE TOWER	54 Wallace Avenue
FHA Satellite Office	
130 Units – 1 Building	14 Floors
DANIELS HEIGHTS	351 Daniels Street
	5 – 40 Daniels Heights
56 Units – 10 Building	
CANTON VALLEY TERRACE	1 – 41 Valley Street
	379 – 441 Canton Street
48 Units – 10 Buildings	
GREEN ACRES VILLAGE	1 – 103 Leyte Road
FHA Satellite Office	5 – 141 Normandy Road
	34 – 53 Wanoosnoc Road
160 Units – 47 Buildings	873 – 919 Water Street
SCATTERED SITE	76 Mechanic Street
SINGLE FAMILY HOMES FITCHBURG	7 Sheridan Street
11 Buildings	70 Maryland Street
	66 Almount Road
	114 Arlington Street
	238 Ashburnham Street
	174 Milk Street
	52 Exeter Street
	28 Taft Street
	24 Forest Street
	110-112 Overland Street

In addition to the above state housing units, the FHA also maintains two (2) State 689 housing programs at 76 Mechanic Street and 240 Ashburnham Street. The FHA maintains Lease agreements with providers in these group homes and those Lease agreements should be referenced in conjunction with this PPMP. The provider agencies also provide auxiliary maintenance assistance from their internal staff.

The primary responsibility of the FHA Maintenance Department is to reoccupy vacancies as quickly as possible and to maintain all properties in safe and sanitary condition per the Lease agreement and State Sanitary and housing codes. A well-developed PPMP will help to ensure that these goals are consistently met while reducing overall maintenance costs.

2. Maintenance Department

It is the FHA's goal is to ensure that on-site staff can effectively perform routine, emergency, preventive and programmed maintenance and responsibilities. All maintenance staff report to a Maintenance Foreman. Duties of the maintenance staff are also spelled out in their job description. Their duties include, but are not limited to, the following:

- 1. Perform general cleaning chores of community, common areas, and office spaces
- 2. Mow lawns, trim trees/shrubs, maintain appearance of all FHA properties
- 3. Assist in building maintenance and repair
- 4. Clean common areas and remove trash
- 5. Maintain the grounds for all FHA properties
- 6. Snow removal
- 7. Ensure the lease terms regarding maintenance of the 689 program group homes are in compliance
- 8. Clean and maintain floors at all FHA properties

The FHA provides tools and equipment to the Maintenance Department as needed. Maintenance personnel are responsible for proper care and upkeep of all FHA owned tools. Any maintenance staff who use their own tools do so at their own risk and the FHA is not responsible for any personal tools that are lost, stolen, or damaged when used at work.

During the performance of regular maintenance duties, maintenance staff members should be alert to repairs that should be made (Examples: malfunctioning washing machine, a broken light, etc.) and report them to their Maintenance Foreman for action. The Maintenance Foreman should then ask their Program Director to prepare a work order.

The Maintenance Foremen have responsibility for the oversight of operations and maintenance of the physical and mechanical aspects of the properties. The Maintenance Foremen's duties are spelled out in detail in their job description, an example of these duties are:

- 1. Provide supervision to the maintenance staff
- 2. Develop a preventive and programmed maintenance schedule for housing units and grounds
- 3. Perform maintenance and repairs on all FHA properties
- 4. Ensure that off-shift hours are covered by on-call maintenance staff person
- 5. Provide for ongoing training and familiarization of systems to other maintenance staff

The Maintenance Foremen report directly to the Deputy Director but are expected to closely work with the Program Directors on a regular basis to coordinate unit turnover, regular maintenance, and other issues.

Components of a Maintenance System

The FHA maintenance system shall include certain components:

- A. Prioritization of work
- B. Comprehensive work procedures
- C. Performance standards and goals
- D. Work order system
- E. Skills, updates, and training programs
- F. Long-range planning

By developing a maintenance system that has these components in place, the FHA will have the tools it needs to control the performance of maintenance work.

3. Goals & Objectives

The management of the physical plant is a crucial part of the overall management process. A well thought out and executed PPMP will same time and money. The appearance and condition of the buildings and grounds are essential to resident satisfaction, efficient use of operating funds, and community acceptance of public housing. All maintenance performed shall conform to or exceed the State Sanitary and Building Codes. Maintenance of the physical buildings is an ongoing process, therefore preventative and programmed maintenance should be used to keep operations running efficiently. The following are the three (3) primary standards for which maintenance can follow PPMP.

I. Preventive Maintenance

Scheduled inspections, service, and repair of various components to maximize the level of services at a property and reduce equipment breakdowns and service interruptions.

II. Programmed Maintenance

Work which is important and should be completed to the greatest extent possible within time and budget constraint.

III. Deferred Maintenance

Work orders created that upon commencement of the work it is discovered that more extensive maintenance/repairs are needed which may require specialized equipment, materials, and/or outside contractors to complete are deferred by management until they can be completed.

The Maintenance Foreman is responsible and accountable for the satisfactory performance of maintenance functions and should be aware of all maintenance work on the properties, as well as the overall conditions and property operation.

Preventive Maintenance

Preventive maintenance is performed on a regularly scheduled basis to keep the level of services at the properties high and reduce equipment breakdowns and service interruptions. It requires that the maintenance staff and office make regular inspections for the repair and replacement of items before problems occur.

A. Manufactured Components

Whenever new equipment, facilities or fixtures are installed, manufacturers' information packets will be consulted regarding service. These recommendations will be immediately scheduled as a part of the FHA Preventive and Programmed Maintenance Plan to keep the component functioning efficiently.

B. Industry Standards

In the case of standard material and even some equipment and fixtures, industry standards will apply to effective maintenance. Examples might include the frequency of waxing linoleum tile, changing an air filter, etc.

C. Technical Consultants

In some cases, a consultant may be needed to design the best preventive maintenance strategy for FHA components.

The FHA shall have a schedule for performance of these PPMP tasks. This will include lists of tasks that need to be performed annually, seasonally, quarterly, monthly, weekly, and daily. These lists will be updated whenever new components are installed or new procedures are decided upon. From these lists, a weekly schedule can be assembled and converted into a daily set of work orders using the FHA's work order system.

All maintenance staff will rotate preventive maintenance tasks. This will give all maintenance staff an opportunity to become familiar with all equipment.

Preventive maintenance will be concentrated on one day of the week or one week of the month. This will prevent preventive maintenance work from being rescheduled when it is necessarily "bumped" for a higher priority work order.

Preventive Maintenance Components

The FHA is responsible for coordinating and completing a wide-variety of inspections and preventative maintenance tasks for various components at each property. These inspections occur throughout the year with some of the tasks conducted by outside contractors, such as the elevator inspections, while other tasks can be completed by maintenance staff. The tasks below are for the all FHA properties and not for specific units.

#	Service Type	Responsible Party	Schedule Date

Preventive tasks that are to be completed in this schedule are entered into PHA-Web even if the task is to be completed by a contractor. Maintenance Foremen are responsible for ensuring these tasks are completed as scheduled. When a contractor completes a preventive task, the Maintenance Foreman who is responsible for oversight must close out the work order and put any necessary comments in the description box. Whenever a work order must be generated as a result of these tasks, the Maintenance Foremen will be responsible for creating the work order and assigning it to maintenance staff.

The PPMP addresses the following areas:

1. Building exterior

Entrances

Landscaping

Grounds

Buildings (appearance and evidence of structural cracks)

Exterior paint

Driveways/parking lots

Gutters and downspouts

Roofs (evidence of wear and leaks)

Windows and door (frames and hardware)

Lighting (fixtures, bulbs, switches, and timers)

Storm drain systems, catch basins, piping

Roof/ventilation fans

2. Building interior and units

Office

Entrance/lobby and mailboxes

Appliances (range, refrigerator)

Floors, walls, and ceilings

Doors, closets, and cabinets

Lighting and electrical outlets

Sinks, showers, bathtubs, and toilets

Laundry room

Community room

3. Major equipment

Heating, ventilating, and air conditions

Fuel storage and transfer

Devices for sensing the outside temperature

Pipes and valves

Controls that regulate the flow of heat

Radiators

Security systems

Sprinkler and smoke detector systems

Plumbing

Boilers

4. Elevator check (full monthly/annual inspection and testing contracted out)

Cab

Controls

Mechanical room

Lighting and smooth operation

5. Electrical

Wiring

Control panels

Fixtures

6. Solid waste disposal

Chute

Compactor

Water system

7. Emergency systems

Smoke and heat detecting devices

Emergency lighting

Extinguishers and hoses

8. Security system

Alarm devices

Locks and door buzzers

Regular inspections and servicing are planned for each of the areas listed above. Unlike custodial work, which is performed on the same day each week and therefore scheduled on a monthly basis, preventive maintenance is scheduled over the whole year.

It is the policy of the FHA to provide a safe and sanitary environment for all its residents. To that extent the Maintenance Department shall notify the Program Directors of any scheduled and unscheduled pest extermination for all properties. All vacated units will be exterminated as needed during the make-ready process.

Programmed Maintenance

This work is performed after higher priority emergency, vacancy, and preventive maintenance tasks. Programmed maintenance are tasks that can be grouped and scheduled in such a way as to make their completion very efficient. Programmed maintenance comes from two primary sources:

A. Routine Work

These are not emergencies nor related to vacancies. They cannot be called preventive maintenance because they are not undertaken for the purpose of preserving equipment. Examples: picking up litter, cleaning tools, shoveling snow and plowing, raking, etc.

B. Grouping

This is appropriate for tasks that require particular tools, equipment, materials, and personnel. Other work can be grouped according to seasonal or timing considerations. In general, work should be grouped and assigned in a matter that assures that repairs will be performed within two (2) weeks.

Deferred Maintenance

When routine work orders uncover larger issues that require more extensive maintenance and/or outside contractors to repair, work orders will be deferred by management until work can be completed. Deferred work orders are determined at regular maintenance meetings after discussion with staff and are deferred in the work order system by management. Management is responsible for the deferred work order schedule and may direct maintenance staff to procure specialized items, equipment, and/or outside contractors to correct certain maintenance issues.

4. Elevators, Fire Alarms, and Fire Equipment

Certification for elevators, fire alarms, and other fire equipment require annual tests that must be performed by outside contractors. If the State and/or City require additional testing, then those standards must be complied with. Therefore scheduling of said tests must be coordinated through the Maintenance Department in order to ensure scheduled tests coincide with their due inspection date. However, the Maintenance Staff must still regularly check elevators, fire alarms, and fire equipment for any breaks, malfunctions, or other issues which may require immediate attention or calling in of outside certified contractors.

5. PPMP Scheduling

The scheduling method for maintenance tasks is the FHA work order system which is hosted through PHA-Web. Preventive priority work orders are pre-programed into the system by management. Each month, the scheduled preventive work orders will populate into the system with assigned work order numbers. As preventive tasks are completed, the work orders are closed out.

6. Detailed Maintenance Records, Forms, and Warranties

A maintenance repair/work ledger must be kept and maintained for maintenance work performed on all apartment units, buildings, grounds, and equipment. This is done through PHA-Web when work orders are completed. When necessary, maintenance staff should document in the description box any information that may help to explain or note issues that arise during a work order. Individual tasks listed in work orders should always have labor attached by the maintenance staff who completed such task. Multiple employees' labor may be added to one or more tasks on the work order. Any additional tasks completed by maintenance staff should also be added to an existing work order if that work was completed at the same time as the existing work order.

All manufactured products that have warranties must be maintained at both the maintenance department and central office. Each form contained within this PPMP must be filled out and a copy must be provided to the Deputy Director when required. Please note that all logs, records, and reporting forms are public records that can only be disposed of with the approval of management in accordance with all applicable laws and regulations of the Commonwealth of Massachusetts.

7. Monthly Property Inspections

Every month there will be an inspection of one (1) of the five (5) state-aided public housing developments on a rotating basis. These are not unit inspections which are conducted on an annual basis as mandated by DHCD and other government regulations; these inspections are more concerned with outside unit conditions such as common areas, basements, boiler rooms, grounds and laundry rooms. Each month one (1) of the state-aided public housing complexes will have this inspection.²

² The two (2) 689 homes that the FHA Leases have auxiliary maintenance and is not schedule for monthly inspection.

The inspections schedule is as follows:

<u>Development</u>	Sample Month
Green Acres –	January
Canton Valley –	February
Daniel Heights –	March
Wallace Tower –	April
CJ Durkin –	May

Any work orders that are generated during these inspections will be considered inspection generated work orders and should be completed within thirty (30) days, excluding emergency work orders. Work orders will be generated and assigned to the Maintenance Foreman of the development who will be responsible for ensuring the work is completed.

8. Review of Collected Data and Planning

At the beginning of each work week the Deputy Director and Maintenance Foremen and if applicable the Program Directors will meet to review the status of the PPMP and its compliance and future PPMP maintenance tasks. This meeting can also be used to discuss work order reports and budget issues.

Preventive & Programmed Maintenance Plan Schedule

Daily Duties:

- 1. Walk FHA properties and ensure grounds and landscaping are acceptable, free of dirt or trash, and gives the general appearance of neatness
- 2. Check windows and lights for breaks/cracks that need replacement
- 3. Check stairs, hallways, common areas, laundry and community rooms and ensure they are clean and that the lights work
- 4. Check for health/safety code violations or possible hazards
- 5. Check exterior painted surfaces for cracking, chipping, or peeling of paint
- 6. Inspect exterior lighting
- 7. Mop and scrub floors in restrooms, laundry rooms, and common rooms as needed
- 8. Ensure walls, baseboards, and other surfaces are free of slashing and marks and presents an overall appearance of cleanliness
- 9. Dust/vacuum and wet mop all tile floors as needed, there shall be no dirt, dust, or streaks
- 10. Check trash chute for blockage at Wallace Tower and CJ Durkin
- 11. Check boilers for temperature readings and circulators
- 12. Do tenant requests and non-routine repairs
- 13. Check on/off emergency pull chord switch for all buildings
- 14. Check common/community room furniture for wear and tear
- 15. Check community room American flag for wear and tear

Weekly Duties:

- 1. Service tractors/lawnmowers
- 2. Gas up trucks and containers
- 3. Clean main entrances
- 4. Mop floors in trash rooms
- 5. Mow lawns for all FHA properties, seed and fertilize as needed
- 6. Keep beddings clear of weeds, papers, or leaves and trim shrubs as needed; *shrubs are not to cover window sills*
- 7. Clean boiler rooms as needed
- 8. Clear dumpster areas of all debris after removal of trash
- 9. Test emergency backup lights
- 10. Spot clean walls and wipe down light fixtures
- 11. Clean drier vents of lint and rubbish
- 12. Clean floors, sinks, toilets, and trash receptacles in restrooms with disinfectant
- 13. All door handles, locks, and hinges shall be cleaned and treated, washed and/or painted if needed

Monthly Duties:

- 1. Inspect grounds for all FHA properties
- 2. Vacuum common halls
- 3. Check and adjust clocks as needed
- 4. Organize and reorder stock and supplies
- 5. Clean and sanitize maintenance areas
- 6. Clear debris on basement stairs/floors
- 7. Run/test emergency generators
- 8. Ensure all drains/catch basins are clear or leaves/rocks or other debris
- 9. Wash windows in common areas
- 10. Check washers and driers for any repairs

Quarterly Duties:

- 1. Fire alarm/smoke and heat detector inspections at all FHA properties
- 2. Check roof tops and attics
- 3. Clean, disinfect, and spray down trash chute and compactor/compactor room
- 4. Mop stairwells and clean/inspect handrails for repairs
- 5. Check and test all sump pumps
- 6. Update tenant names on buzzer panel
- 7. Clear gutters or debris/obstruction
- 8. Lubricate blowers, fans, motors, and circulators
- 9. Inspect condition of parking lots and repair as needed
- 10. Change oil on vehicles after 3,000 miles or 6 months
- 11. Clean carpets at all FHA properties
- 12. Clean vinyl at all FHA properties three (3) times a year

Annual Duties:

- 1. Check light lenses
- 2. Check, grease, and change belts on roof fans
- 3. Inspect fire extinguishers and hoses
- 4. Check washing machine hoses
- 5. Inventory tools, equipment, refrigerators, and stoves in stock January 1 of each year
- 6. Clean, repaint, or replace ceiling tiles in common areas as needed
- 7. Change oil and all other PM on slow blowers, lawn mowers, and highway sanders
- 8. Change air filters on rooftop air handler
- 9. Inspect apartments and change batteries in CO detectors (done during annual inspections)
- 10. Fire extinguisher inspections and tagging
- 11. Elevator inspection and sticker

- 12. Truck inspections and tagging
- 13. Emergency generator inspection and refuel storage tanks
- 14. Inspect/grease bearings and check fan belts on exhaust fans
- 15. Change heating filter in common room on Pleasant Street
- 16. Shampoo carpets and strip wax floors common areas at *all* properties

Seasonal Duties:

Winter

- 1. Turn on heat September 15th or as required each season
- 2. Shovel, snow blow, and snowplow all parking lots, roadways, walkways, ramps, stairs
- 3. Sand and salt walking areas and parking lots
- 4. Get sand, ice, and fuel
- 5. Remove hanging ice from roofs and buildings
- 6. Keep storm drains clear
- 7. Routinely pick up fallen tree limbs
- 8. Check areas for melt and freeze up that need to be re-sanded

Spring

- 1. Pick up trash, leaves, tree branches, and other debris left on all FHA properties
- 2. Sweep up and remove sand from roads and walkways
- 3. Repair and add loam to grounds that have been disturbed by plows or heavy equipment
- 4. Mulch and reseed where needed and prune trees and shrubs
- 5. Turn off heat May 15th or as required each season

Summer

- 1. Keep flowers watered and prune/cut trees and shrubs as needed
- 2. Cut lawns and remove weeds/overgrowth
- 3. Repaint areas outside as needed
- 4. Deodorize and clean outside trash and dumpster areas
- 5. Pressure wash mold from all FHA properties
- 6. Install/maintain fencing
- 7. Outside light repair/replacement

Fall

- 1. Cut lawns and rake grass and leaves at all FHA properties as needed
- 2. Lay new mulch as needed/remove old mulch or other debris
- 3. Install storm windows and begin weatherization and winter preparation

I have read the Preventive and Programmed Maintenance Plan and fully understand the duties outlined. Regular preventive maintenance will be carried out according to the above-mentioned schedule. I understand that these duties are crucial for smooth operation of the maintenance department and for optimal service to the tenants.

Other Staff	Date

Annual Operating Budget

The tables on the following pages show the approved budget and actual income and spending per budget account (row) for the fiscal year ending 12/31/2025. It also shows the approved budget for the current year (2026) if there is one, and the percent change from last year's spending to this year's approved budget. The final column shows the current approved amount for each account divided by the number of housing units and by 12 months to show the amount per unit per month (PUM). The chart does not show a draft budget for the coming fiscal year as that will typically be developed in the final month of the fiscal year.

The budget format and accounts are mandated by the Executive Office of Housing and Livable Communities (EOHLC). For a better understanding of the accounts and discussion of special situations see the notes following the budget tables and the "Definitions of Accounts" at the end of this section.

The LHA maintains a consolidated budget (400-1) for all state-aided 667 (Elderly), 200 (family), and 705 (scattered site family) developments owned by the LHA. It does not maintain separate budgets for each development.

Operating Reserve

The LHA's operating reserve is the amount of funds that an LHA sets aside to sustain itself during lean years, or to remedy urgent health and safety concern or address deferred maintenance items. In addition, while EOHLC approves a fixed non-utility operating budget level for every LHA (called the Allowable Non-Utility Expense Level, or ANUEL), LHAs can propose a budget that exceeds that level, with the additional cost to be funded from the Operating Reserve, as long as the reserve will still remain above the minimum threshold set by EOHLC.

EOHLC defines a full (100%) Operating Reserve (OR) amount to be equal to one-half of the previous year's operating expenses and requires LHAs to maintain a minimum OR of 35% of this amount to cover any unplanned but urgent needs that may arise during the year and that can't be funded by the operating budget. If the reserve is between 20% and 35% of the full level, the LHA must obtain prior written approval from EOHLC to spend reserve funds, unless the expense is to resolve a health and safety issue. If the reserve is below the 20% level, the LHA can only spend OR funds on health and safety issues. In both cases, the LHA should address the health and safety issue immediately but must retroactively inform EOHLC and obtain its approval.

The FITCHBURG HOUSING AUTHORITY operating reserve at the end of fiscal year 2025 was \$0.00, which is 0.00% of the full reserve amount defined above.

Explanation of Budget Accounts

The following explains how each of the line items is to be prepared.

<u>3110</u>: Shelter Rent: The shelter rent projection should be based on the current rent roll plus anticipated changes expected from annual rent re-determinations or as a result of regulatory amendments.

3111: Shelter Rent – Tenants - Fraud/Retroactive: This account should be used for the reporting of total rent receipts from residents due to unreported income. These are often called fraud or retroactive balances. In cases where deficit LHAs discover, pursue cases, and have entered into a written fraud/retroactive repayment agreement with a present or former tenant who did not report income, the LHA will be allowed to retain two-thirds of the funds recovered. One third of the total dollar amount recovered should be included in the LHA's quarterly or year-end Operating Statement as Shelter Rent, account #3111, and two-thirds of this total dollar amount should be included in Other Revenue-Retained, account #3691.

<u>3115: Shelter Rent - Section 8</u>: This account applies only to those developments receiving support through the federal government's Housing and Urban Development (HUD) Section 8 New Construction and/or Substantial Rehab Programs.

<u>3190: Non-Dwelling Rental:</u> This account should be credited with the rents, other than tenants rents reported in line 3110 and 3115, including charges for utilities and equipment, billed to lessees of non-dwelling facilities as well as apartments rented for non-dwelling purposes, such as social service programs.

<u>3400: Administrative Fee- MRVP/AHVP</u>: This account should be credited with Administrative Fees to be received for the MRVP/AHVP Program. The MRVP/AHVP administrative fee is \$50.00 per unit per month, as of July 1, 2020.

<u>3610</u>: Interest on Investments – Unrestricted: This account should be credited with interest earned on unrestricted administrative fund investments.

<u>3611:</u> Interest on Investments – Restricted: This account should be credited with interest earned on restricted administrative fund investments. For example, an LHA may receive a grant whose use is restricted to a specific purpose, and the interest income earned on that grant may also be restricted to the same purpose.

<u>3690: Other Operating Revenues</u>: This account should be credited with income from the operation of the project that cannot be otherwise classified. Income credits to this account include, but are not limited to, penalties for delinquent payments, rental of equipment, charges for use of community space, charges to other projects or programs for the use of central office management and maintenance space, commissions and profits from vending machines, including washing machines, and certain charges to residents for additional services, materials, and/or repairs of damage caused by neglect or abuse in accordance with the Department's regulations on lease provisions..

<u>3691: Other Revenue – Retained</u>: This account should be credited with certain miscellaneous revenue to be <u>retained</u> by the LHA, and which is not used to reduce the amount of operating subsidy the LHA is due. The most common examples for this account is receipts for the rental of roof antennas to cell phone providers and net meter credits earned on electricity bills from Net Meter Power Purchase Agreements (PPA's). Generally, surplus LHAs may retain 100% of these savings and deficit LHAs may retain 25% of the savings, with the 75% balance used to offset its need for operating subsidy. However, for the period 7/1/16 through 6/30/20, all deficit LHAs may keep 100% of the net meter credit savings, while they can keep 50% effective 7/1/2020.

<u>3692: Other Revenue - Operating Reserves:</u> This account should be credited with funds that LHAs plan to utilize from their operating reserve accounts in excess of the Allowable Non-Utility Expense Level (ANUEL). To be approvable, LHA must maintain the EOHLC prescribed operating reserve minimum level after deducting the amount budgeted. The only exception to this is when the expenses are for health and safety issues.

3693: Other Revenue – Net Meter: This account should normally be credited with 75% of the total net meter credit savings realized by a deficit LHA, while surplus LHAs with net meter credit savings would enter \$0 here. Savings are calculated as the value of the net meter credits appearing on the LHA's electric bills (or, in some cases, paid in cash to the LHA by their utility company), minus the cost of the payments made to the solar power developer under their Power Purchase Agreement (PPA). Deficit LHAs normally may retain 25% of the savings. That amount should be included as Other Revenue – Retained on line #3691. However, please note that for the period 7/1/16 through 6/30/20 all LHAs may retain 100% of their total net meter credit savings, and should report those savings as Other Revenue – Retained on line #3691. LHAs can keep 50% of savings effective 7/1/2020.

<u>3801: Operating Subsidy – EOHLC (400-1):</u> This account represents all state-funded operating subsidy to be received and or to be earned for the fiscal year. At the end of each fiscal year, this account will be adjusted in the operating statement to equal the actual subsidy earned by the LHA.

3802: Operating Subsidy – MRVP/AHVP Landlords:

The credit balance in this account represents the anticipated total receipts from EOHLC during the fiscal year for housing assistance payments to landlords. At the end of each fiscal year this account will be adjusted to equal the actual subsidy earned.

<u>3920: Gain/Loss from Sale or Disposition of Property (Capitalized or Non-Capitalized):</u> The debit or credit balance of this account represents the following items: a) Cash proceeds from the sale of property that was either: 1) non-capitalized; or 2) capitalized and has been fully depreciated, and b) Realized gain or loss from the sale or disposition of capitalized properly that has not been fully depreciated.

<u>4110</u>: Administrative Salaries: This account should be charged with the gross salaries of LHA personnel engaged in administrative duties and in the supervision, planning, and direction of maintenance activities and operating services during the operations period. It should include the salaries of the executive director, assistant executive director, accountants, accounting clerks, clerks, secretaries, project managers, management aides, purchasing agents, engineers, draftsmen, maintenance superintendents, and all other employees assigned to administrative duties.

<u>4120:</u> Compensated Absences: The debit balance in this account represents the actual cost incurred during the fiscal year for vacation, paid holidays, vested sick leave and earned compensatory time. This account includes both the direct compensated absences cost and associated employer payroll expenses (employment taxes, pension cost, etc.).

<u>4130:</u> Legal Expense: This account should be charged with retainers and fees paid to attorneys for legal services relating to the operation of the projects.

4140: Compensation to Authority Members: A local authority may compensate its members for performance of their duties and such other services as they may render to the authority in connection with its Chapter 200 development(s). Compensation for any other program is not authorized. Because of this, LHAs must base such compensation only on the actual rent receipts for these developments plus a prorated share of other operating receipts of funds on a per unit basis. The precise amount that members may be compensated is defined by statute to a maximum of \$40 per member per day, and \$50 for the chairperson per day. The total of all compensation to all board members is not to exceed two percent (2%) of actual gross income of Chapter 200 developments in any given year, consistent with the approved budget amount. In no case shall the payment of compensation exceed \$12,500 annually for the chairperson, or \$10,000 for any member other than the chairperson. Please note the statute requires the member to perform housing authority business in order to receive compensation.

<u>4150: Travel and Related Expense:</u> Legitimate travel expenses incurred by board members and staff in the discharge of their duties for any **state-aided program** are reimbursable from this account, as consistent with Department policy.

<u>4170:</u> Contractual Accounting Services: Fees for accounting services that are provided routinely and are contracted for on an annual basis. Only accounting services performed on a contractual basis (fee accountant) should be included in this item. Full or part-time LHA accounting staff that provides routine accounting services should be included in Account 4110, Administrative Salaries.

<u>4171: Audit Costs:</u> This account includes the state program's prorated share of audit fees paid to an Independent Public Accountant (IPA). The procurement of an IPA is necessary to satisfy the Federal Government's audit requirements. Costs for these services should be shared with all state and federal programs of LHA. **Audit costs are to be absorbed within the ANUEL.** The new Agreed Upon procedures (AUP) audit costs for state-assisted public housing programs should also be included in this account.

<u>4180: Penalties and Interest:</u> Any expenses incurred from penalties, fees, and interest paid on delinquent accounts shall be included in this line item.

<u>4190</u>: Administrative Other: This account is provided for recording the cost of administrative items for which no specific amount is prescribed in this 4100 group of accounts. It includes, but is not limited to, the cost of such items as: reports and accounting forms; stationery and other office supplies; postage; telephone services; messenger service; rental of office space; advertising for bids; publications; membership dues; collection agency & court costs, training costs; management fees, and fiscal agent fees.

4191: Tenant Organization: LTO Funding by the LHA. Upon request the LHA shall fund all LTOs in a city or town at the annual rate of \$6.00 per state-aided public housing unit occupied or available for occupancy by residents represented by such LTO(s) or an annual total of \$500.00 prorated among all such LTO(s), whichever is more. For more information on the creation and funding of LTOs see 760 CMR 6.09.

Authorities which operate computer learning centers, which are funded by the state consolidated budget or by other sources (which are typically recorded in line #3691 as "Other Revenue Retained", should budget the cost of the centers on this line.

<u>4310: Water:</u> This account should be charged with the cost of water and sewer charges purchased for all purposes.

4320: Electricity: This account should be charged with the total cost of electricity purchased for all purposes. Many LHAs have entered into Net Meter Credit Power Purchase Agreements (PPA's). In these deals, an LHA executes a contract with a solar power developer who constructs and owns an off- site solar electricity- generating site. In exchange for contracting to purchase a percentage of the solar power produced, the LHA receives a credit on its utility electric bill for each KWH purchased or in some cases receives a direct cash payment from their utility company. Please ensure that the amount charged to this account is the total cost of electricity BEFORE any reductions due to the receipt of net meter credits.

<u>4330: Gas:</u> This account should be charged with the cost of gas (natural, artificial, or liquefied) purchased for all purposes.

<u>4340</u>: Fuel: This account should be charged with the cost of coal, fuel oil, steam purchased, and any other fuels (except electricity and gas) used in connection with Local Housing Authority operation of plants for the heating of space or water supplied to tenants as a part of rent.

<u>4360: Net Meter Utility Debit/Energy Conservation:</u> This account is to be charged with costs incurred for energy conservation measures.

4390: Other Utilities: This account should be charged with the cost of utilities which are not provided for in accounts 4310 through 4360. In addition, for all quarterly or year-end operating statements 9/30/20 or later, and all budgets 6/30/21 or later, please use this line to record the total net meter credits earned as reported in Line 4392, MINUS the Solar Operator Costs reported in Line 4391, with the result expressed as a positive number. For example, if you reported -\$20,000 in Net Meter Utility Credits in Line 4392 and \$15,000 in Solar Operator Costs in Line 4391, you would subtract the \$15,000 reported on Line 4391 from the -\$20,000 reported on Line 4392, and post the remainder of \$5,000 on Line 4360, as a positive number. This number essentially represents the "net" savings the LHA earned from its net meter credit contract.

4391: Solar Operator Costs: Many LHAs have entered into Net Meter Credit Power Purchase Agreements (PPA's). In these deals, an LHA executes a contract with a solar power developer who constructs and owns an off-site solar electricity-generating site. The LHA makes regular (usually monthly) payments to the developer for its contracted share of the solar electricity produced by the site. Those payments should be entered in this account.

4392: Net Meter Utility Credit (Negative Amount): As noted in account #4391 above, many LHAs have executed Net Meter Credit Power Purchase Agreements (PPA's). In exchange for contracting to purchase a percentage of the solar power produced, the LHA receives a credit on its utility electric bill for each KWH purchased from the developer, which reduces the balance on its electric bill, or, in some cases, the credits are paid in cash to the LHA by the utility company. The total gross amount of the net meter credits that appear on the LHA's utility bills should be carried in this account and entered as a negative number. In cases where credits are paid in cash to the Host LHA, the net balance after paying out the amounts due the participating housing authorities, should also be carried in this account and entered as a negative number.

<u>4410: Maintenance Labor:</u> This account should be charged with the gross salaries and wages, or applicable portions thereof, for LHA personnel engaged in the routine maintenance of the project.

<u>4420: Materials & Supplies</u>: This account should be charged with the cost of materials, supplies, and expendable equipment used in connection with the routine maintenance of the project. This includes the operation and maintenance of automotive and other movable equipment, and the cost of materials, supplies, and expendable equipment used in connection with operating services such as janitorial services, elevator services, extermination of rodents and household pests, and rubbish and garbage collection.

<u>4430: Contract Costs:</u> This account should be charged with contract costs (i.e. the cost of services for labor, materials, and supplies furnished by a firm or by persons other than Local Authority employees) incurred in connection with the routine maintenance of the project, including the maintenance of automotive and other movable equipment. This account should also be charged with contract costs incurred in connection with such operating services as janitorial services, fire alarm and elevator service, extermination of rodents and household pests, rubbish and garbage collection, snow removal, landscape services, oil burner maintenance, etc.

<u>4510: Insurance:</u> Includes the total amount of premiums charged all forms of insurance. Fire and extended coverage, crime, and general liability are handled by EOHLC on a statewide basis. All other necessary insurance policies include: Workers' Compensation, boiler, vehicle liability and owner, etc.

4520: Payments in Lieu of Taxes:

This account should be charged with all payments in lieu of taxes accruing to a municipality or other local taxing body.

<u>4540: Employee Benefits</u>: This account should be charged with local housing authority contributions to employee benefit plans such as pension, retirement, and health and welfare plans. It should also be charged with administrative expenses paid to the State or other public agencies in connection with a retirement plan, if such payment is required by State Law, and with Trustee's fees paid in connection with a private retirement plan, if such payment is required under the retirement plan contract.

Employee benefits are based upon a given percentage of the total payroll; therefore, the total amount approved in this account will be based on the approved budgeted salaries representing the state's fair share.

4541: Employee Benefits - GASB 45: This line covers "Other Post-Employment Benefits" (OPEB). Of the total benefits offered by employers to attract and retain qualified employees, some benefits, including salaries and active-employee healthcare are taken while the employees are in active service, whereas other benefits, including post-employment healthcare and other OPEB are taken after the employees' services have ended. Nevertheless, both types of benefits constitute compensation for employee services. In accordance with required accounting practices, this amount is not projected in the budget (and is therefore blank) but the estimated future costs of this item is carried in the operating statement.

<u>4542</u>: Pension Expense – GASB 68: The primary objective of GASB 68 Statement is to improve accounting and financial reporting for pension costs. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. As with account 4541 above, in accordance with required accounting practices, this amount is not projected in the budget (and is therefore blank) but the estimated future costs of this item is carried in the operating statement.

<u>4570:</u> Collection Loss: The balance in this account represents the estimated expense to cover unexpected losses for tenant rents. Note: Do not include losses from fraud/retroactive balances here. Report them in Account 4571 – Collection Loss – Fraud/Retroactive.

<u>4571: Collection Loss – Fraud/Retroactive:</u> The balance in this account represents the estimated expense to cover unexpected losses for tenant rents due to unreported income, i.e. fraud/retroactive balances.

<u>4580</u>: Interest Expense: The debit balance in this account represents the interest expense paid and accrued on loans and notes payable. This debt can be from operating borrowings or capital borrowings.

<u>4590: Other General Expense:</u> This account represents the cost of all items of general expenses for which no specific account is prescribed in the general group of accounts.

<u>4610</u>: Extraordinary Maintenance – Non-Capitalized: This account should be debited with all *costs* (labor, materials and supplies, expendable equipment (such as many tools or routine repair parts), and contract work) of repairs, replacements (but not replacements of non-expendable equipment), and rehabilitation of such a substantial nature that the work is clearly not a part of the routine maintenance and operating program. The items charged to this account should not increase the useful life or value of the asset being repaired. These items are not capitalized and are not added as an increase to fixed assets at the time of completion. Nor are these items depreciated. An example of this would be scheduled repainting of apartments.

<u>4611: Equipment Purchases – Non-Capitalized:</u> This account should be debited with the costs of equipment that does not meet the LHA's criteria for capitalization. Because these items are being expended when paid, they should not be categorized as a fixed asset and therefore will not be depreciated. These items include stoves, refrigerators, small tools, most computers and software, etc.

The budget is a planning tool and as our portfolio ages it is essential that LHAs evaluate their properties annually and plan for extraordinary maintenance. To that end EOHLC very strongly recommends that for all 400-1 operating budgets, depending on the age of the portfolio and condition, LHAs spend between \$100 and \$500 a year per unit in Extraordinary Maintenance, Equipment Purchases, Replacement of Equipment, and Betterments & Additions to ensure that the aging public housing stock is preserved.

<u>4715: Housing Assistance Payments:</u> This account should be debited with all housing assistance payments paid to landlords for the MRVP program on a monthly basis.

<u>4801: Depreciation Expense:</u> This account should be debited with annual fixed asset depreciation expenses as determined by the LHA's capitalization policy.

<u>7520:</u> Replacement of Equipment – Capitalized: This account should be debited with the acquisition cost (only the net cash amount) of non-expendable equipment purchased as a replacement of equipment of substantially the same kind. These items, such as vehicles, computers, or furniture, meet the LHA's criteria for capitalization and will also be added to fixed assets and therefore depreciated over the useful life.

<u>7540: Betterments & Additions – Capitalized:</u> This account should be debited with the acquisition cost (only the net cash amount) of non-expendable equipment and major non-routine repairs that are classified as a betterment or addition. These items meet the LHA's criteria for capitalization and will also be added to fixed assets and therefore depreciated over the useful life of the asset. Examples are: major roof replacement, structural repairs such as siding, or major paving work.

In accordance with GAAP accounting, inventory purchases (Replacement of Equipment and Betterments & Additions) are distinguished between capitalized and non-capitalized items. Any inventory or equipment purchase greater than \$5,000 is required by EOHLC to be capitalized, inventoried and depreciated. Any inventory or equipment purchase costing \$1,000 to \$4,999 should be inventoried by LHA staff for control purposes only but is not subject to capitalization or depreciation, it is, however, required to be expensed when the items are paid for. An LHA's inventory listing should include both capitalized and non-capitalized items of \$1,000 and more, as well as all refrigerators and stoves of any value. All items that appear on the inventory listing should be tagged with a unique identification number, and all refrigerators and stoves (regardless of value) should be tagged. LHAs may adopt a capitalization policy that capitalizes inventory purchases at a lesser amount than the \$5,000 requirement (i.e. \$1,000 - \$4,999); however, no capitalization policy can have an amount higher than \$5,000. Any inventory or equipment purchases costing \$0 to \$999 are to be expensed when paid for.

Narrative Responses to the Performance Management Review (PMR) Findings

The Performance Management Review conducted by the Department of Housing and Community Development (EOHLC) for the LHA fiscal year resulted in the following ratings. Criteria which received a 'Corrective Action' rating show both a reason for the rating and a response by the LHA. The reason indicates the LHA's understanding of why they received the rating, while the responses describe their goals and the means by which they will meet or improve upon the performance-based assessment standards established by EOHLC in the PMR. When the PMR rating is 'Operational Guidance', the LHA may have responded, but was not required to.

Category: Management

Criterion: Occupancy Rate - the percentage of units that are occupied on monthly report.

Rating: No Findings

Criterion: Tenant Accounts Receivable (TAR) - the percentage of uncollected rent and related charges owed by tenants to the local housing authority (LHA), out of the total amount of rent and related costs charged to tenants.

Rating: Corrective Action

Reason: The FHA received Operational Guidance and Corrective Action due to the family housing developments carrying large balances. This has historically been an issue that has been made more difficult to address after the COVID pandemic. Several tenants in family housing have large balances and although the FHA has served eviction notices, we have not been able to successfully receive payment or quickly move out the tenants in question. RAFT assistance program has also delayed cases and in some instances where RAFT was received, tenants have later ended up getting a new 14 Day Notice for non-payment. Although the FHA has had several evictions due to non-payment of rent, those cases took several months to conclude and rent balances continue to add up each month that is unpaid.

Response: This year the FHA has rolled out online payments through PHA-Web's tenant portal. Tenants are now able to make their rent payments in multiple different ways removing excuses as to why tenants could not previously pay. The FHA Board adopted a new rent collection policy that is more aggressive in the time frame in which 14 Day Notices are served. While this may lead to increased legal costs, we anticipate that the total TAR outstanding balance will decrease to an acceptable level after some of the worst offenders have been evicted.

Criterion: Certifications and Reporting Submissions - timely submission of statements and certifications

Rating: No Findings

Criterion: Completion of mandatory online board member training

Rating: No Findings

Criterion: Annual Plan Submitted - Annual Plan (AP) submitted on time

Rating: No Findings

Criterion: Staff completed relevant certifications or trainings

Rating: No Findings

Category: Financial

Criterion: Adjusted Net Income - a measure of overspending or underspending.

Rating: No Findings

Criterion: Current Operating Reserve as a percentage of total maximum reserve level.

Rating: No Findings

Category: Capital Spending

Criterion: Timely spending of capital funds awarded under the Formula Funding program

Rating: No Findings

Category: CHAMP

Criterion: Paper applications are available, received and entered into CHAMP

Rating: No Findings

Criterion: Vacancies are recorded correctly and occupied using CHAMP

Rating: Operational Guidance

Criterion: Fair Housing Policies Uploaded

Rating: No Findings

Category: Facility Management - Inspection Standards and Practices

Criterion: 100% of units inspected during FYE under review

Rating: Corrective Action

Reason: Two of the selected units vacated in 2023 and have remained vacant for all of 2024 due to planned construction that is currently being designed by an architect. Since these units were vacant in all of 2024, an annual inspection was not conducted. While the FHA did show that staff had been in those units over the course of 2024 with documented work orders, there was no inspection report that could be provided. Since those two units were not inspected, we received Corrective Action in this category.

Response: The FHA has partnered with the Fitchburg Board of Health to inspect units. A schedule of all FHA units has been created for 2025 and all units, regardless of vacant status, will be inspected going

forward. Vacant unit inspections will not be used to create new work orders since items will be addressed during vacancy turnover.

Criterion: Unit inspection reports create, track, and report work orders for inspection repairs, and inspection WOs completed within 30 days or add to DM / CIP

Rating: Corrective Action

Reason: One unit that was inspected in December 2024 noted that exterior stairs needed repair and the work order for this inspection was not created until April of 2025. The reason it was missed was due to a new process in creating work orders tied to the inspection report led to the creation of this work order being overlooked. Since this work order was not created timely and properly deferred, we received Corrective Action in this category. However, maintenance was aware of the work which was deferred until the Spring and has since been completed by a contractor.

Response: The new inspection process will ensure that all work orders are generated directly from the inspection report. Each week staff review the completed inspections and generate work orders and send tenant letters based on various failures identified. This will ensure that all inspection generated work orders are created the same week of the completed inspections.

Criterion: Unit inspection reports accurately reflect necessary repairs

Rating: Corrective Action

Reason: The FHA recent went through staff turnover and some details were missed in inspection reports.

Response: FHA staff will be conducting inspections in addition to the Board of Health and all staff who conduct inspections will receive formal training.

Category: Facility Management - Vacancy Turnover Standards and Practices

Criterion: Work orders created for every vacancy and completed within 30 days (or waiver requested)

Rating: No Findings

Criterion: Vacancy turnover work orders accurately reflect necessary repairs

Rating: No Findings

Category: Facility Management - Preventive Maintenance Standards and Practices

Criterion: LHA Preventive Maintenance Plan accurately reflects all necessary work to maximize life of LHA components

Rating: No Findings

Category: Facility Management - Work Order Types and Systems

Criterion: All emergency work orders are created, tracked, reported and completed within 48 hours

Rating: No Findings

Criterion: All requested work orders are created, tracked, reported and completed within 14 days or added to DM/CIP

Rating: No Findings

Additional comments regarding the PMR:

Explanation of PMR Criteria Ratings

CRITERION	DESCRIPTION	
Management		
Occupancy Rate	The rating is calculated using the following formula: (Total Number of Occupied units on Monthly Report divided by (Total Number of Units Minus Units that Received a Waiver Minus Number of Units Vacant less than 30 days on Monthly Report)	
	"No Findings": Occupancy Rate is at or above 98%	
	Operational Guidance: Occupancy rate is at 95% up to 97.9%	
	Corrective Action: Adjusted occupancy rate is less than 95%	
Tenant Accounts Receivable (TAR)	This criterion calculates the percentage of uncollected rent and related charges owed by starting with the amount reported by the LHA, as uncollected balances for the TAR (Account 1122 from the Balance Sheet) minus Normal Repayment Agreements* divided by Shelter (Tenant) Rent (account 3110 from the Operating Statement) • "No Findings": At or below 2% • "Operational Guidance": More than 2%, but less than 5% • "Corrective Action": 5% or more	
Certifications and Reporting Submissions	Housing authorities are required to submit 4 quarterly vacancy certifications by end of the month following quarter end; 4 quarterly operating statements and 4 Tenant Accounts Receivable (TAR) reports within 60 days of quarter end. • "No Findings": At least 11 of the required 12 reports were submitted and at least 9 were submitted on time. • "Operational Guidance": Less than 11 of the required 12 reports were submitted and/or less than 9 were submitted on time.	
Board Member Training	Percentage of board members that have completed the mandatory online board member training. • "No Findings": 80% or more completed training	
	 "Operational Guidance": 60-79.9% completed training "Corrective Action": <60 % completed training 	
Staff Certifications and Training	Each LHA must have at least one staff member complete a relevant certification or training During the fiscal year. The number of required trainings varies by LHA size. • No Findings: LHAs completed the required number of trainings Corrective Action: LHAs have not completed any trainings	
Annual Plan (AP) Submitted	Housing authorities are required to submit an annual plan every year. • "No Findings" =Submitted on time • "Operational Guidance" =Up to 45 days late • "Corrective Action" =More than 45 days late	

CRITERION	DESCRIPTION		
СНАМР			
Paper applications	 Paper applications are available, received and entered into CHAMP No Findings: Paper applications are available; And paper applications are date and time stamped correctly; And 90% of new paper applications are entered into CHAMP within 15 calendar days of date/time stamp; And 2% or less of new paper applications are entered more than 30 days after date/time stamp Operational Guidance: Paper applications are available; And paper applications are date and time stamped and entered correctly; And 75% - 89% of new paper applications are entered into CHAMP within 15 calendar days; And 3% - 5% of new paper applications are entered more than 30 days after date/time stamp Corrective Action: Paper applications are not available; Or the LHA has failed to date and time stamp paper applications and/or failed to enter them correctly; Or Less than 75% of new paper applications are entered into CHAMP within 15 calendar days of date/time stamp; Or more than 5% of new paper applications are entered more than 30 days after date/time stamp 		
Vacancies occupied using CHAMP	 No Findings: All vacancies during the fiscal year are recorded in EOHLC's Housing Applications Vacancy System within 30 days; And the housed Applicant ID and Pull List ID match between EOHLC's Housing Applications Vacancy System and CHAMP for unit occupied during the fiscal year, excluding administrative transfers; And 25% or less of occupied units have data entry errors Operational Guidance: All vacancies during the fiscal year are recorded in EOHLC's Housing Applications Vacancy System, all vacancies are not recorded within 30 days; Or the Housed Applicant ID and Pull List ID match between EOHLC's Housing Applications Vacancy System and CHAMP for units occupied during the fiscal year, excluding administrative transfers; And greater than 25% of occupied units have data entry errors Corrective Action: All vacancies during the fiscal year are not recorded in EOHLC's Housing Applications Vacancy System; Or the Housed Applicant ID and Pull List ID do not match (or data is missing) between EOHLC's Housing Applications Vacancy System and CHAMP for units occupied during the fiscal year, excluding administrative transfers 		

CRITERION	DESCRIPTION		
Financial			
Adjusted Net Income	The Adjusted Net Income criterion calculation starts with an LHA's Net Income and subtracts Depreciation, GASB 45 (Retirement Costs), GASB 68 (Retirement Costs), Extraordinary Maintenance (maintenance expense outside of routine/ordinary expenses), and Equipment Purchases – Non Capitalized. This Adjusted Net Income amount is then divided by the Total Expenses of the LHA. If this Adjusted Net Income amount is positive, it means underspending and if it is negative it means overspending.		
	 Underspending Rating: "No Findings": 0 to 9.9% "Operational Guidance": 10 to 14.9% "Corrective Action": 15% or higher 		
	Overspending Rating:		
	• "No Findings" : 0 to -4.9%		
	"Operational Guidance": -5% to -9.9%		
	"Corrective Action": -10% or below		
Operating Reserves	Current Operating Reserve as a percentage of total maximum reserve level. Appropriate reserve level is buffer against any unforeseen events or expenditures.		
	 "No Findings":35%+ of maximum operating reserve "Operational Guidance": 20% to 34.9% of maximum operating reserve "Corrective Action": <20% of maximum operating reserve 		
Capital Planning			
Capital Spending	Under the Formula Funding Program (FF), authorities receive undesignated funds to spend on projects in their Capital Improvement Plan. They are rated on the percentage of available funds they have spent over a three-year period • "No Findings" = at least 80% • "Operational Guidance" = At least 50% • "Corrective Action" = Less than 50%		
Health & Safety			
Health & safety	EOHLC has observed conditions at the LHA's developments and reported health		
violations	and safety violations. The LHA has certified the number of corrected violations in each category.		

CRITERION	RITERION DESCRIPTION		
Facility Management – Inspection Standards and Practices			
100% Unit Inspections	All units inspected at LHA during FY under review		
	No Findings: 100% of units inspected		
	Corrective Action: Less than 100% of units inspected		
LHA Inspections	Unit inspection reports create, track, and report work orders for inspection repairs, and inspection WOs completed within 30 days or add to DM/CIP		
Reports/Work Orders	 No Findings: All inspection work orders/lease violations are created, tracked, and reported; And non-health and safety work orders for inspection repairs/lease violations are completed within 30 days or added to DM/CIP; And health and safety work orders for inspection repairs/lease violations are addressed within 48 hours Operational Guidance: All health and safety inspection work orders/lease violations are created, tracked, reported and completed within 48 hours; And LHA fail to create, track, or report no more than 1 or 2 (based on LHA size) non-EHS (exigent health and safety) deficiencies; Or LHA failed to complete any non-EHS work orders/lease violations appropriately Corrective Action: Any EHS work orders/lease violations not created, tracked, reported, or completed; Or 1 of the following: LHA failed to create, track or report a) More than 1 non-EHS deficiency (small LHA); b) More than 2 non-EHS deficiencies (Medium/Large) 		
Accuracy of LHA	Unit inspection reports accurately reflect necessary repairs		
Inspections	 No Findings: c.667 unit has less than 2 EHS deficiencies and c.200/705 unit has less than 3 EHS deficiencies 		
	 Operational Guidance: c.667 unit has 2 EHS deficiencies or c.200/705 has 3 EHS deficiencies 		
	• Corrective Action: c.667 has equal to or greater than 3 EHS deficiencies or c.200/705 unit has equal to or greater than 4 EHS deficiencies		
Facility Management – F	Preventative Maintenance Standards and Practices		
LHA Preventative	LHA preventative maintenance schedule accurately reflects all necessary work		
Maintenance Schedule	to maximize the life of LHA components		
Accuracy and	 No Findings: c.667 unit less than 2 EHS deficiencies and c.200/705 less than 3 EHS deficiencies 		
Implementation of Preventative Schedules	 Operational Guidance: c.667 2 EHS deficiencies or c.200/705 3 EHS deficiencies 		
	 Corrective Action: c.667 equal to or greater than 3 EHS deficiencies or c.200/705 equal to or greater than 4 EHS deficiencies 		

CRITERION	DESCRIPTION

Work Order Types and S			
Emergency Work Orders	 All emergency work orders are created, tracked, reported and completed within 48 hours No Findings: All emergency work orders under review are created, tracked, reported and completed within 48 hours Operational Guidance: All emergency work orders completed within 48 hours; Less than 100% but greater than or equal to 80% of work orders under review are correctly created, tracked and reported administratively Corrective Action: Not all emergency work orders are completed within 48 hours; Or less than 80% of work orders under review are correctly created, tracked and reported administratively 		
CRITERION	DESCRIPTION		
Requested Work Orders	 All requested work orders are created, tracked, reported and completed within 14 days or added to DM/CIP No Findings: All requested work orders under review are created, tracked, and reported; All work is complete within 14 days or added to DM/CIP Operational Guidance: All requested work orders completed within 14 days or added to DM/CIP; And less than 100% of work orders under review are correctly created, tracked and reported Corrective Action: Not all requested work orders are completed within 14 days or added to DM/CIP 		

Policies

The following policies are currently in force at the FITCHBURG HOUSING AUTHORITY:

Policy	Last Ratified by Board Vote	Notes
*Capitalization Policy	3/16/2016	
*Fair Housing Marketing Plan	11/15/2022	
*Grievance Policy	1/4/2017	
*Language Access Plan	11/15/2022	
*Personnel Policy	9/18/2015	
*Procurement Policy	9/21/1994	
*Reasonable Accommodations Policy	12/16/2015	
*Rent Collection Policy	6/12/2024	
Maintenance and Other Charges	10/27/2021	
Pet Policy	7/22/2015	
Smoking Policy	10/23/2019	

^{*} Starred policies are required by EOHLC. Policies without a "Latest Revision" date are not yet in force. The list of policies has been provided by the LHA and has not been verified by EOHLC.

Waivers

FITCHBURG HOUSING AUTHORITY has received the following waivers from EOHLC's regulations. This list does not include vacancy waivers, pet waivers, or any waivers that would release personally identifiable tenant or applicant data.

Description	Reason	Date Approved by EOHLC	Date Expired
-------------	--------	---------------------------	--------------

^{*}The list of waivers has been provided by the LHA and has not been verified by EOHLC.

Glossary

ADA: Americans with Disabilities Act. Often used as shorthand for accessibility related issues or improvements.

AHVP: Alternative Housing Voucher Program

Alternative Housing Voucher Program provides rental vouchers to disabled applicants who are not elderly and who have been determined eligible for Chapter 667 (elderly and disabled) housing.

Allowable Non-Utility Expense Level (ANUEL) is the amount of non-utility expense allowed for each local housing authority based upon the type(s) of housing programs administered.

ANUEL: Allowable Non-Utility Expense Level

AP: Annual Plan

Annual Plan: A document prepared by each Local Housing Authority, incorporating the Capital Improvement Plan (CIP), Maintenance and Repair Plan, Budget, responses to the Performance Management Review, and other elements.

Cap Share is the amount of Formula Funding spending approved by DHCD for each year.

Capital Funds: Funds provided by DHCD to an LHA for the modernization and preservation of state-aided public housing, including Formula Funds and Special Capital Funds.

Capital Needs Assessment, similar to the CIP, often used for developments in the Section 8 New Construction/Substantial Rehabilitation program. Such developments are generally not eligible for state capital funds and therefore do not participate in the CIP process. However, to track their ongoing capital needs and plan for construction projects to address those needs, they often conduct a CNA to determine when building systems will wear out and need to be replaced, and what replacement will cost, so they can plan the ensure that the necessary funding will be available

Capital Projects are projects that add significant value to an asset or replace building systems or components. Project cost must be greater than \$1000.

CIMS is a web-based software system used for creating CIP's and Annual Plans. For the CIP, the CIMS program allows the LHA to prioritize, select and schedule projects, assign funding sources and direct project spending to specific fiscal years to create a CIP that is consistent with the LHA's FF award amount and FF cap shares, plus any additional funding resources the LHA has identified. The LHA submits its CIP and DHCD conducts its review of the LHA's CIP in CIMS. For the Annual Plan CIMS imports data from other DHCD systems and combines that with data entered by the LHA.

CIP: A Capital Improvement Plan (CIP) is a five (5) year plan which identifies capital projects, provides a planning scope, schedule and budget for each capital project and identifies options for financing and implementing the plan. The contents of a CIP are limited to available resources. An approved CIP is required in order to receive Formula Funds.

CNA: Capital Needs Assessment

CPS is DHCD's transparent Web-based capital planning system that catalogues the condition of every building and site in the statewide public housing portfolio, providing LHAs with detailed technical information to make strategic long-term capital investments. It includes a Facility Condition Index (FCI) for every development that compares the value of expired components of a development relative to its replacement cost.

Deferred Maintenance is maintenance, upgrades, or repairs that are deferred to a future budget cycle or postponed for some other reason. Sometimes it is referred to as extraordinary maintenance.

Deficit housing authority: a housing authority whose income (mainly from rent) does not cover all its normal operating costs in its approved operating budget, and which therefore operates at a deficit and requires operating subsidy from DHCD.

DHCD: Massachusetts Department of Housing & Community Development

Extraordinary Maintenance: see the description for budget line 4610 in the Explanation of Budget Accounts in the Budget Section of this Annual Plan.

FF: Formula Funding

Formula Funding is state bond funding allocated to each LHA according to the condition (needs) of its portfolio in comparison to the entire state-aided public housing portfolio.

FYE: Fiscal Year End

HHA Administrative Fee is the fee paid to an HHA from the RCAT Program budget.

HHA: Host Housing Authority for the RCAT program.

Host Housing Authority (HHA). An LHA selected by the Department to employ and oversee an RCAT.

HUD: U.S. Department of Housing and Urban Development

LHA: Local Housing Authority

LTO: Local Tenants Organization

Management and Occupancy Report: This is an annual HUD review process that is used to evaluate the performance of developments in various HUD housing programs, including the Section 8 New Construction/Substantial Rehabilitation program, which some LHAs operate. It is similar to the state PMR process in that it evaluates LHA performance on variety of financial, housing quality, and other standards

Massachusetts Rental Voucher Program (MRVP) is a state-funded program that provides rental subsidies to low-income families and individuals.

MOR: Management and Occupancy Report

MRVP: Massachusetts Rental V DHCD's annual review of each housing authority's performance. It pulls together data on the authority's occupancy rates, tenant accounts receivables, accounts payable, budget variance, operating reserve, capital improvement plan submission, capital spending, annual inspections and work order and maintenance systems to identify and address areas of strength and areas for development. Its goal is to allow DHCD and the LHA to

take a deep dive into the data, lift up best practices, and work together towards improving operations oucher Program.

Performance Management Review (PMR):

PMR: Performance Management Review

RCAT: Regional Capital Assistance Team

Regional Capital Assistance Team: One of three organizations employed at HHAs designated by the Department to carry out the RCAT Program.

Sec.8 NC/SR (or S8NCSR): Section 8 New Construction and Substantial Rehabilitation

- Section 8 New Construction and Substantial Rehabilitation (Sec.8 NC/SR): This term refers to a federal HUD housing program operated at a small number of state public housing developments whose construction was funded by state grants, but whose ongoing operating costs are supported by project-based subsidies from HUD's federal Section 8 program, rather than from state public housing operating funds..
- **Special Awards**: In addition to allocations to each LHA, DHCD has created limited set aside funds to provide for extreme emergency or code compliance needs which are beyond the capacity of an LHA's current FF balance.
- **Surplus housing authority:** a housing authority whose income (mainly from rent) covers all its normal operating costs in its approved operating budget, and which therefore operates at a surplus and does not require operating subsidy from DHCD.

Fitchburg Housing Authority

Licensed Tenant Organization

October 15, 2025

Massachusetts Department of Housing & Community Development 100 Cambridge Street, Suite 300 Boston, MA 02114

RE: LTO Review and Approval of the ANNUAL & CIP (2026-2030)

To Whom it May Concern:

The Fitchburg Housing Authority Licensed Tenant Organization hereby approves and does not object to the proposed Capital Improvement Plan and Annual Plan for the FHA.

The FHA LTO met with FHA Staff to review this plan September 30, 2024, and tenants were able openly discuss the plan and ask questions of staff.

On October 15, 2025, the FHA Board held the annual plan CIP meeting, and it was approved.

Sincerely.

Holly Progin

FHA LTO President

c/o Fitchburg Housing Authority

50 Day Street,

Fitchburg, MA 01420

Fitchburg Housing Authority Annual Plan Hearing

We had our Annual Plan Hearing on October 15th , 2025. There were no public comments at that time

Douglas Bushman Executive Director

Resident Surveys - Background

Since 2016 DHCD has been working with the Center for Survey Research (CSR) at the University of Massachusetts Boston to survey residents in the state public housing units it oversees. The surveys are confidential, mailed directly to residents, and returned to CSR by mail (or, starting in 2019, completed on-line). CSR surveys residents of elderly/disabled units (also known as Chapter 667) and family units (also known as Chapter 200 and Chapter 705).

During each round all units are mailed surveys, with one exception: in the case of the twelve housing authorities with more than 225 c.200 family units, a randomly selected group of 225 units was surveyed at each housing authority. This group was determined to be large enough to generate statistically useful results. In both rounds, responses from c.200 and c.705 residents are always combined.

Round One Surveys (2016 – 2018)

In Round One of the surveys, CSR surveyed residents of elderly/disabled units (c.667) in three groups in the Fall of 2016, 2017 and 2018. CSR surveyed residents of family units (c.705 and c.200) in the Spring of 2016. (Note: there are many more c.667 units, so they were broken down into three groups).

Round Two Surveys (2019 – 2022)

Round Two of the surveys began in 2019. CSR surveyed about one-third of the elderly/disabled units in Fall 2019, Fall 2021, and Fall 2022. CSR surveyed all family units in Fall 2020.

Round Three Surveys (2023 – 2027)

Round Three of the surveys began in 2023. CSR surveyed about one-third of the elderly/disabled units and one-third of family units in Fall 2023.

Criteria 1: 100% of units inspected during FYE under review

Rating: Corrective Action

- Recommendations: 1. Ensure that Units are Inspected per EOHLC guidance
 - 2. Ensure Inspection Reports are created for each Unit Inspection
 - 3. Ensure that all work orders are completed in the appropriate timeframe or appropriately added to the DM/CIP
 - 4. Ensure that all work orders for all Health and Safety deficiencies are completed in the appropriate timeframe

Criteria 2: Unit inspection Reports create, track, and report Work Orders for inspection repairs, and Work Orders are completed within 30 days or added to DM/CIP

Rating: Corrective Action

- Recommendations: 1. Ensure that Units are Inspected per EOHLC guidance
 - 2. Ensure Inspection Reports are created for each Unit Inspection
 - 3. Ensure that all work orders are completed in the appropriate timeframe or appropriately added to the DM/CIP
 - 4. Ensure that all work orders for all Health and Safety deficiencies are completed in the appropriate timeframe

Criteria 3: Unit Inspection Reports accurately reflect necessary repairs

Rating: Corrective Action

Recommendations: 1. No Recommendations

Criteria 4: Work Orders created for every vacancy and completed within 30 days (or waiver requested)

Rating: No Findings

Recommendations: 1. No Recommendations

Criteria 5: Vacancy Turnover Work Orders accurately reflect necessary repairs

Rating: No Findings

Recommendations: 1. No Recommendations

Rating: No Findings

Recommendations: 1. No Recommendations

Criteria 7: All emergency work orders are created, tracked, reported and completed within 48 hours

Rating: No Findings

Recommendations: 1. No Recommendations

Criteria 8: All requested work orders are created, tracked, reported and completed within 14 days or added to DM/CIP

Rating: No Findings

Recommendations: 1. No Recommendations

Health & Safety Deficiencies

Inspection reports were provided to the LHA at the time of the EOHLC site visit. Health and safety deficiencies were identified during the PMR Inspection. These items must be completed or initiated within 48 hours. Following completion of these health and safety deficiencies, the Executive Director must login to the FMS software application and certify, by electronic signature, that all health and safety deficiencies have been completed. Please contact your assigned FMS for further assistance.
