

BELLINGHAM HOUSING AUTHORITY
Proposed Annual Plan for Fiscal Year 2027
For State-Aided Public Housing

The Annual Plan is a document compiled by housing authority staff in advance of each new fiscal year. The plan serves as both a tool for the Local Housing Authority (LHA) to reflect upon the prior fiscal year, and as an opportunity to develop a clear and transparent plan that builds on successes, identifies needs, and corrects any issues that have arisen in prior years. Additionally, the Annual Plan is an important tool for tenants, who may use the document to better understand the operations and needs of their housing authority, advocate for changes to policies and procedures, access data about the housing authority, and participate in their housing authority's governance.

In addition to the physical document, the Annual Plan is also a process of public engagement. Throughout the Annual Plan process, the LHA executive director or their designee will be expected to review the Plan with any Local Tenant Organizations (LTO's) and Resident Advisory Board (RAB) before the LHA presents the plan to the LHA Board of Commissioners; make a draft available for review to all residents and the general public; post on the website and make a copy available to each LTO at least 30 business days before the public hearing; hold a hearing on the document; and collect, integrate, and report back on substantive comments. Additionally, the Board will read, offer recommendations, and approve the Annual Plan in advance of its submission to EOHLC.

The law that mandates the Annual Plan is [An Act Relative to Local Housing Authorities, Massachusetts General Laws, Chapter 121B Section 28A](#). The regulation that expands upon Section 28A is 760 CMR 4.16. The regulations that address Local Tenant Organization (LTO) and resident participation in the Annual Plan are 760 CMR 6.09 (3)(h) and 760 CMR 6.09(4)(a)(4).

The BELLINGHAM HOUSING AUTHORITY's Annual Plan for their 2027 fiscal year includes the following components:

1. Overview and Certification
2. Capital Improvement Plan (CIP)
3. Maintenance and Repair Plan
4. Operating Budget
5. Narrative responses to Performance Management Review (PMR) findings
6. Policies
7. Waivers
8. Glossary
9. Other Elements, which may include:
 - a. Approval documents and any Public Comments
 - b. Tenant Satisfaction Survey
 - c. Performant Management Review report
 - d. Other documents added by LHA

State-Aided Public Housing Developments

The following table identifies the state-aided public housing units with developments of more than 8 units listed separately. Units in developments of 8 or fewer units are aggregated as noted. Units that the LHA provides to assist clients of the Department of Mental Health (DMH), the Department of Developmental Services (DDS), or other agencies are also aggregated separately.

Dev No	Type	Development Name	Num Bldgs	Year Built	Dwelling Units
667-01	Elderly	DEPOT COURT	8	1969	64
667-02	Elderly	WRENTHAM MANOR	7	1975	56
	Family	Family units in smaller developments	2		3
Total			17		123

Massachusetts Rental Voucher Program (MRVP)

The Massachusetts Rental Voucher Program (MRVP) is a state-funded program that provides rental subsidies to low-income families and individuals. In most cases, a “mobile” voucher is issued to the household, which is valid for any market-rate housing unit that meets the standards of the state sanitary code and program rent limitations. In some cases, vouchers are “project-based” into a specific housing development; such vouchers remain at the development if the tenant decides to move out.

BELLINGHAM HOUSING AUTHORITY manages 45 MRVP vouchers.

Plan History

The following required actions have taken place on the dates indicated.

REQUIREMENT		DATE COMPLETED
A.	Advertise the public hearing on the LHA website.	10/22/2025
B.	Advertise the public hearing in public postings.	10/22/2025
C.	Notify all LTOs or RAB (if there is one) of the hearing and provide access to the Proposed Annual Plan.	N/A
D.	Post draft AP for tenant and public viewing.	10/22/2025
E.	Hold quarterly meeting with LTO or RAB to review the draft AP. (Must occur before the LHA Board reviews the Annual Plan.)	N/A
F.	Annual Plan Hearing. Hosted by the LHA Board, with a quorum of members present. (For Boston, the Administrator will host the hearing.)	12/9/2025
G.	Executive Director presents the Annual Plan to the Board.	12/9/2025
H.	Board votes to approve the AP. (For Boston Housing Authority, the Administrator approves and submits the AP.)	12/9/2025

Certification

CERTIFICATION OF LHA USER AUTHORIZATION FOR EOHLC CAPITAL SOFTWARE AND HOUSING APPLICATIONS

I, Edward Pelletier, Executive Director of the BELLINGHAM HOUSING AUTHORITY, certify on behalf of the Housing Authority that I have conducted an annual review of all BELLINGHAM HOUSING AUTHORITY users of EOHLC Capital Software applications and Housing Applications and that all current LHA users are authorized to use the systems and have the appropriate level of user access based on their job responsibility. I approve all system access and access levels for all BELLINGHAM HOUSING AUTHORITY users.

This certification applies to the following applications:

- Capital Planning System (CPS)
- Consolidated Information Management System (CIMS)
- Cap Hub
- EOHLC Housing Management Systems
- CHAMP

CERTIFICATION FOR SUBMISSION OF THE ANNUAL PLAN

I, Edward Pelletier, Executive Director of the BELLINGHAM HOUSING AUTHORITY, certify on behalf of the Housing Authority that: a) the above actions all took place on the dates listed above; b) all facts and information contained in this Annual Plan are true, correct and complete to the best of my knowledge and belief and c) that the Annual Plan was prepared in accordance with and meets the requirements of the regulations at 760 CMR 4.16 and 6.09.

The Board and Executive Director further certify that LHA operations and all LHA Board-adopted policies are in accordance with M.G.L. c. 121B and all Massachusetts state-aided public housing regulations, including, but not limited to 760 CMR 4.00; 5.00; 6.00; 8.00; and 11.00, as well as adhere to Department-promulgated guidance.

Date of certification: 12/17/2025

The Executive Office of Housing and Livable Communities (EOHLC) completed its review of this Annual Plan (AP) on . Review comments have been inserted into the plan.

Capital Improvement Plan

EOHLC Description of CIPs:

The Capital Improvement Plan (CIP) is a five year plan which identifies capital projects, provides a planning scope, schedule and budget for each capital project and identifies options for financing and implementing the plan. The CIP identifies anticipated spending for each Department of Housing and Community Development (EOHLC) fiscal year (July 1 to June 30) based on the project schedules.

Local Housing Authorities (LHAs) receive yearly awards from EOHLC (Formula Funding Awards) which they target to their most urgent capital needs in their CIP. They may also receive special awards from EOHLC for specific projects which meet specific criteria. Special awards may be given for certain emergency, regulation compliance, energy and water conservation, and other projects. The first three years of the CIP are based on actual awards made to the LHA, while years four and five are based on estimated planning amounts, not actual awards.

LHAs may sometimes secure other sources of funding and assistance that you will note in their CIP, such as: Community Preservation Act (CPA) funding, Community Development Block Grant (CDBG) funding, Local Affordable Housing Trust Funds (AHTF), HOME grants, income from leasing a cell tower on their property, savings from net meter credit contracts with solar developers, utility rebates and contracted work from utility providers, and Sheriff's Department work crews. However, not all of these funding sources are available every year, or in all communities.

The CIP includes the following parts:

- A table of available funding sources and amounts
 - A list of planned capital projects showing spending per fiscal year
 - A table showing special awards and other funding for targeted projects, if any, which supplements Formula Funding awarded to the LHA
- A 'narrative' with a variety of additional information.

Additional Remarks

There is program software issue in CIMS which is delaying the completion of the CIP at this time. Once it is the Annual Plan AP.

Capital Improvement Plan (CIP)

Aggregate Funding Available for Projects in the First Three Years of the CIP:

Category of Funds	Allocation	Planned Spending	Description
Balance of Formula Funding (FF)	\$305,703.71		Total of all FF awards minus prior FF spending
LHA Emergency Reserve	\$30,570.37		Amount to reserve for emergencies
Net FF Funds (First 3 Years of the CIP)	\$275,133.34	\$626,122.26	Funds to plan & amount actually planned in the first 3 years of the CIP
ADA Set-aside	\$12,181.86	\$12,000.00	Accessibility projects
DMH Set-aside	\$0.00	\$0.00	Dept. of Mental Health facility
DDS Set-aside	\$0.00	\$0.00	Dept. of Developmental Services facility
Unrestricted Formula Funding (FF)	\$262,951.48	\$614,122.26	Funds awarded by DHCD to be used on projects selected by the LHA and approved by DHCD.
Special DHCD Funding	\$932,130.91	\$908,130.91	Targeted awards from DHCD
Community Development Block Grant (CDBG) Funds	\$0.00	\$0.00	Federal funds awarded by a city or town for specific projects.
Community Preservation Act (CPA) Funds	\$0.00	\$0.00	Community Preservation Act funds awarded by a city or town for specific projects.
Operating Reserve(OR) Funds	\$0.00	\$0.00	Funds from the LHA's operating budget.
Other Funds	\$0.00	\$0.00	Funds other than those in the above categories. See explanation below.
Total funds and planned spending	\$1,207,264.24	\$1,534,253.16	Total of all anticipated funding available for planned projects and the total of planned spending.

Capital Improvement Plan (CIP)**CIP Definitions:**

ADA Set-aside is funding allocated within the Formula Funding (FF) for use on projects that improve accessibility for people with disabilities. 10% of FF awards are designated for this purpose.

Available State Bond Funding is the amount of State Bond Funding available to the LHA for the first three years of the CIP. It is calculated by totaling all of FF and Special Awards granted to the LHA through the end of the third year of the plan and subtracting the amount of these funds spent prior to July 1 of the first year of the plan.

Amount spent prior to the plan is the total amount of Formula Funding (FF) and Special Awards spent prior to July 1 of the first year of the plan.

Capital project is a project that adds significant value to an asset or replaces building systems or components. Project cost must be greater than \$1000.

CDBG stands for Community Development Block Grant, a potential source of project funds.

CPA stands for Community Preservation Act, a potential source of project funds.

CapHub Project Number is the number given to projects entered into DHCD's project management system known as CapHub.

DMH Set-aside is funding allocated within the Formula Funding (FF) for use on facilities leased to the Department of Mental Health (DMH) program vendors, if any exist at this LHA.

DDS Set-aside is funding allocated within the Formula Funding (FF) for use on facilities leased to the Department of Developmental Services (DDS) program vendors, if any exist at this LHA.

Formula Funding (FF) is an allocation of state bond funds to each LHA according to the condition (needs) of its portfolio in comparison to the entire state-aided public housing portfolio.

Operating Reserve is an account, funded from the LHA operating budget, primarily used for unexpected operating costs, including certain extraordinary maintenance or capital projects.

Other Funds could include other funding by the city or town or from other sources.

Special Awards are DHCD awards targeted to specific projects. Award programs include funds for emergencies beyond what an LHA can fund, for complying with regulatory requirements, for projects that will save water or energy use, and various other programs the department may run from time to time.

Total Cost is the sum of investigation, design, administration, permitting, and construction costs for a project

Unrestricted Formula Funding (FF) is money awarded to the LHA by DHCD under the Formula Funding program other than amounts set aside (restricted) for accessibility improvements or for facilities operated by DMH or DDS.

Capital Improvement Plan (CIP)

Regional Capital Assistance Team

Bellingham Housing Authority participates in the Regional Capital Assistance Team (RCAT) program and project implementation responsibilities are as follows:

- o For projects with construction cost under \$10,000, the LHA has the sole responsibility to initiate, implement and manage the project. RCAT offers technical assistance upon request.
- o For projects with construction cost between \$10,000 and \$100,000 the RCAT will have lead responsibility to initiate, implement and manage the project with both DHCD and LHA involvement and oversight throughout the process. For projects in this range, the LHA will work with the RCAT Project Manager who will contact the LHA to initiate projects.
- o For projects with construction cost over \$100,000, or projects below that threshold that are complex or have a subsequent phase that exceeds \$100,000 construction cost, DHCD will take the lead and draft a WO or RFS to hire a designer to prepare plans and specs. RCAT will not be involved in the implementation of projects in this range and the LHA will continue to work directly with the DHCD Project Manager and DHCD design staff.

Capital Improvement Plan (CIP)

Formula Funding and Special DHCD Award Planned Spending - Other funding not included

Cap Hub Project Number	Project Name	Development(s)	Total Cost	Amount Spent Prior to Plan	Remaining Planned for 2025	fy2026 Planned	fy2027	fy2028	fy2029	fy2030

Capital Improvement Plan (CIP) Narrative

Including Requests to DHCD & Supporting Statements

1. Request for increased spending flexibility.

DHCD designates a spending target (cap share) and an allowable spending range for each year of the CIP. A Housing Authority may request to shift the cap shares of the first three years in order to increase scheduling flexibility. A CIP utilizing this flexibility is called an Alternate CIP. The total spending over three years and over five years must continue to meet the limits set by DHCD. DHCD will approve an Alternate CIP only with acceptable justification and only if funding is available.

Bellingham Housing Authority has submitted an Alternate CIP with the following justification:

- Projected spending on projects currently in bidding or construction exceeds Cap Share in one or more years of the CIP.
- The TDC for a proposed project exceeds the Cap Share for a single year and it doesn't make sense to spread it

1. Projected spending on projects currently in bidding or construction exceeds Cap Share in one or more years of the CIP.

2. The TDC for a proposed project exceeds the Cap Share for a single year and it doesn't make sense to spread it over multiple years.

2. Request for additional funding.

A Housing Authority may request additional funding from DHCD for projects that qualify as emergencies, required legal compliance upgrades, or sustainability improvements.

Bellingham Housing Authority has not requested additional funding.

3. Overall goals of the Housing Authority's CIP

To bring the standard of living up to moderns' times to improve the quality of living for the elderly and disabled. As well to ensure the safety of all tenants and staff while on the properties

4. Changes from the Housing Authority's previous CIP

Every new CIP differs from the previous CIP because projects have been completed and a new year has been added with new projects. These changes and other significant changes to the content of the CIP are highlighted below:

LHA is making the exterior door replacement a high priority project in the FY 26 CIP.

5. Requirements of previous CIP approval

There were no special conditions attached to the approval of our previous CIP.

6. Quarterly capital reports

Our most recent quarterly capital report (form 80 and 90) was submitted on 11/26/2025.

7. Capital Planning System (CPS) updates

Our CPS facility data has been updated with current condition information, including changes resulting from projects completed in the past year, as of 09/30/2025.

8. Project priorities

All the projects in our CIP are high priority (Priority 1 and 2 projects).

9. High priority deficiencies

We have not been able to include all of our high priority (CPS priority 1 and 2) projects in our CIP:

The capshare for the years 1 to 5 is insufficient to budget for all other priority projects.

10. Accessibility

We are not aware of any accessibility deficiencies in our portfolio.

11. Special needs development

Bellingham Housing Authority does not have a special needs (167 or 689 programs) development.

12. Energy and water consumption

Our 12 most recent monthly energy reports are for months 8/2024 to 7/2025.

The following table lists the DHCD thresholds for Per Unit Monthly (PUM) expense for electricity, natural gas, oil, and water use and the developments at the Housing Authority that have expenses in excess of the thresholds, if any.

**Annual Plan
Capital Improvement Plan**

	Electric PUM > Threshold	Gas PUM > Threshold	Oil PUM > Threshold	Water PUM > Threshold
Threshold PUM:	\$100	\$80	\$50	\$60
	667-02			705--B
	667-01			705--A

LHA buys electricity from a solar field - Puresky Energy, and has heat pumps in all the developments. Hopefull, the energy purchased from the solar field will reduce cost on consumption.

13. Energy or water saving initiatives

Bellingham Housing Authority is currently pursuing energy or water-saving audits or grants as no LHA buys electricity from a solar field - Puresky Energy, and has heat pumps in all the developme

14. Vacancy rate

Our unadjusted vacancy rate reported to DHCD is as follows. (The unadjusted vacancy rate captured in these figures is the percentage of ALL housing units that are vacant, including both offline units being used for other purposes and units with DHCD vacancy waivers.)

1% c. 667 (DHCD Goal 2%)

0% c. 200 (DHCD Goal 2%)

0% c. 705 (DHCD Goal 2%)

Maintenance and Repair Plan

Maintenance Objective

The goal of good property maintenance at a public housing authority is to serve the residents by assuring that the homes in which they live are decent, safe, and sanitary.

About This Maintenance and Repair Plan

This Maintenance & Repair Plan consists of several subsections describing maintenance systems followed by charts showing typical preventive maintenance, routine maintenance, and unit inspection tasks and schedules. These subsections are:

- a. **Classification and Prioritization of Maintenance Tasks** - Defines and prioritizes types of work to be accomplished by maintenance staff and vendors. Explains how the housing authority is expected to respond to work orders (tasks or requests) based on the work order classification.
- b. **Emergency Response System** - Defines what constitutes an emergency and how to notify staff of an emergency.
- c. **Normal Maintenance Response System** - How to contact the maintenance staff for a non-emergency request.
- d. **Work Order Management** - Description of the housing authority's system for managing work orders (tasks and requests).
- e. **Maintenance Plan Narrative & Policy Statement** - Self-assessment, basic information, and goals for the coming year, along with a description of the housing authority's maintenance program.
- f. **Preventive Maintenance Schedule** - A listing and schedule of tasks designed to keep systems and equipment operating properly, to extend the life these systems and equipment, and to avoid unexpected breakdowns.
- g. **Routine Maintenance Schedule** - A listing and schedule of ordinary maintenance tasks such as mopping, mowing, raking, and trash collection required to keep the facilities in good condition.
- h. **Unit Inspections** - Scheduling of annual unit inspections.

Classification and Prioritization of Maintenance Tasks

Maintenance items are tracked as “work orders” and are classified in the following categories. They are prioritized in the order listed. The following classifications and prioritization are required by the Executive Office of Housing and Livable Communities (EOHLC).

- I. **Emergencies** - Emergencies are only those conditions which are **immediately threatening** to the life or safety of our residents, staff, or structures.
 - Goal: initiated with 24 to 48 hours.
- II. **Vacancy Refurbishment - Work necessary to make empty units ready for new tenants.**
 - After emergencies, the refurbishment of vacancies for immediate re-occupancy has the highest priority for staff assignments. **Everyday a unit is vacant is a day of lost rent.**
 - **Goal: vacancy work orders are completed within 30 calendar days or if not completed within that timeframe, LHA has a waiver.**
- III. **Preventive Maintenance** - Work which must be done to **preserve and extend the useful life** of various elements of your physical property and avoid emergency situations.
 - A thorough Preventive Maintenance Program and Schedule that deals with all elements of the physical property is provided later in the document.
 - The Preventive Maintenance Program is reviewed and updated annually and as new systems and facilities are installed.
- IV. **Programmed Maintenance** - Work which is important and is completed to the greatest extent possible within time and budget constraints. Programmed maintenance is grouped and scheduled to make its completion as efficient as possible. Sources of programmed maintenance include:
 - Routine Work includes those tasks that need to be done on a regular basis to keep our physical property in good shape. (Mopping, Mowing, Raking, Trash, etc.)
 - Inspections are the other source of programmed maintenance.
 - ◇ Inspections are visual and operational examinations of parts of our property to determine their condition.
 - ◇ All dwelling units, buildings and sites must be inspected at least annually.
 - ◇ **Goal: Inspection-generated work orders are completed within 30 calendar days from the date of inspection, OR if cannot be completed within 30 calendar days, are added to the Deferred Maintenance Plan or the Capital Improvement Plan in the case of qualifying capital repairs (unless health/safety issue).**
- V. **Requested Maintenance** - Work which is requested by residents or others, does not fall into any category above, and should be accomplished as time and funds are available.
 - Requests from residents or others for maintenance work which does not fall into one of the other categories has the lowest priority for staff assignment.
 - **Goal: Requested work orders are completed in 14 calendar days from the date of tenant request or if not completed within that timeframe (and not a health or safety issue), the task is added and completed in a timely manner as a part of the Deferred Maintenance Plan and/or CIP.**

Emergency Request System

For emergency requests call the numbers listed here. Qualifying emergency work requests are listed below.

METHOD	CONTACT INFO.	TIMES
Call Answering Service		
Call LHA at Phone Number	508-883-4999	24/7 LHA Office # (office # links to Cell)
Other	508-889-8974	24/7 - Maintenance

See attached **Preventative Maintenance Plan** for more details.

List of Emergencies - Emergencies are those conditions which are immediately threatening to the life or safety of our residents, staff, or structures. The following is a list of typical conditions that warrant an emergency response. If there is an emergency condition whether or not enumerated on this list please notify the office or answering service at the numbers listed above. If you have any questions regarding this list or other matters that may constitute an emergency, please contact the BELLINGHAM HOUSING AUTHORITY main office.

QUALIFYING EMERGENCY WORK REQUESTS
Fires of any kind (Call 911)
Gas leaks/ Gas odor (Call 911)
No electric power in unit
Electrical hazards, sparking outlets
Broken water pipes, flood
No water/ unsafe water
Sewer or toilet blockage
Roof leak
Lock outs
Door or window lock failure
No heat
No hot water
Snow or ice hazard condition
Dangerous structural defects
Inoperable smoke/CO detectors, beeping or chirping

Normal Maintenance Request Process

Make normal (non-emergency) maintenance requests using the following methods:

Work Order Management

- A. EOHLC review of this housing authority's operations shows that the authority uses the following system for tracking work orders: PHA Web
- B. We do track deferred maintenance tasks in our work order system.
- C. Our work order process includes the following steps:

Step	Description	Checked steps are used by LHA
1	Maintenance Request taken/submitted per the standard procedures listed above for the Emergency Request System and the Normal Maintenance Request Process.	<input checked="" type="checkbox"/>
2	Maintenance Requests logged into the work system	<input checked="" type="checkbox"/>
3	Work Orders generated	<input checked="" type="checkbox"/>
4	Work Orders assigned	<input checked="" type="checkbox"/>
5	Work Orders tracked	<input checked="" type="checkbox"/>
6	Work Orders completed/closed out	<input checked="" type="checkbox"/>
7	Maintenance Reports or Lists generated	<input checked="" type="checkbox"/>

- D. Additional comments by the LHA regarding work order management:

We generally do not defer any maintenance items

Maintenance Plan Narrative

Following are BELLINGHAM HOUSING AUTHORITY's answers to questions posed by EOHLC.

- A. Narrative Question #1: How would you assess your Maintenance Operations based on feedback you've received from staff, tenants, EOHLC's Performance Management Review (PMR) & Agreed Upon Procedures (AUP), and any other sources?

We do we repair items that have been reported in our Maintenance system within a reasonable tome. Therefore we receive favorable feedback from our tenants.

- B. Narrative Question #2: What changes have you made to maintenance operations in the past year?

We have not made any updates in the last year as maintenance runs pretty smoothly.

- C. Narrative Question #3: What are your maintenance goals for this coming year?

To continue to keep everything properly maintained and safe for our tenants.

- D. Maintenance Budget Summary

The budget numbers shown below are for the consolidated budget only. They do not include values from supplemental budgets, if any.

	Total Regular Maintenance Budget	Extraordinary Maintenance Budget
Last Fiscal Year Budget	\$299,861.00	\$79,000.00
Last Fiscal Year Actual Spending	\$245,064.00	\$131,298.00
Current Fiscal Year Budget	\$329,392.00	\$75,000.00

- E. Unit Turnover Summary

# Turnovers Last Fiscal Year	12
Average time from date vacated to make unit "Maintenance Ready"	25 days
Average time from date vacated to lease up of unit	29 days

- F. Anything else to say regarding the Maintenance Plan Narrative?

Attachments

These items have been prepared by the BELLINGHAM HOUSING AUTHORITY and appear on the following pages:

Preventive Maintenance Schedule - a table of preventive maintenance items showing specific tasks, who is responsible (staff or vendor), and the month(s) they are scheduled

Deferred Maintenance Schedule - a table of maintenance items which have been deferred due to lack of resources.

MAINTENANCE DEPARTMENT EMERGENCIES

The following are Maintenance Emergencies that are called out over the cell phone:

- Fires of any kind (Call 911)
- Electric power failures
- Electrical hazards, sparking outlets
- Broken water pipes, flood
- No water / unsafe water
- Sewer or toilet blockage
- Roof leak
- Lock outs, door or window lock failure
- No heat / heating system does not work
- No hot water
- Snow or ice storm
- Dangerous structural defects
- Inoperable smoke / CO detectors, beeping or chirping
- Inoperable emergency lighting or exit signs
- Inoperative refrigerator or stove
- Blocked egress / exits
- Blocked electrical panel
- Exposed wires, unsecured or missing covers, open breaker port, missing knockouts
- Call for Aid not working or cord missing, blocked, tied up or does not reach to floor
- Clogged sink, toilet, or drain, sewer odor
- GFCI Outlet is inoperable
- Evidence of leak/mold/mildew
- Window will not stay up, window will not lock, broken window pane
- Flammables improperly stored
- Excessive garbage in area not designated for storage
- Infestation of rodents or insects
- Sharp edges that could post a cutting hazard
- Tripping hazards
- Leaking pipes
- Drip legs (hot water heaters) do not extend within 12" of floor
- Door hardware is inoperable
- Self-closing door does not latch
- No running water in unit or building
- Fire extinguisher expired

ATTACHMENT 3

January Preventative Maintenance Tasks

1. Monitor and issue on-going snow removal work orders
2. Check lights weekly
 - Outdoor lighting
 - Parking lot lighting
 - Emergency lighting
 - Hallway lighting
3. Vehicle Inspections weekly. See attached Vehicle Inspection Checklist
4. Check smoke detectors— done during unit inspections
5. Unit Inspections (one building per month)
6. Check dumpsters and recycling bins weekly. Clean around dumpsters as needed
7. Clean community centers, common areas and laundry rooms daily
8. Clean dryer vents

February Preventative Maintenance Tasks

1. Monitor and issue on-going snow removal work orders
2. Check lights weekly
 - Outdoor lighting
 - Parking lot lighting
 - Emergency lighting
 - Hallway lighting
3. Vehicle Inspections weekly. See attached Vehicle Inspection Checklist
4. Check smoke detectors and carbon monoxide detectors – done during unit inspections
5. Unit Inspections (one building per month)
6. Check dumpsters and recycling bins weekly. Clean around dumpsters as needed
7. Clean community centers, common areas and laundry rooms daily
8. Clean dryer vents

9. Lease enforcement: Clear common hallways and stairs free from all obstructions. (PHN 2012-12). According to the State Sanitary code 105 CMR 410.451 – No person shall obstruct any exit or passageway. The owner is responsible for maintaining free from obstruction every exit used or intended for use by occupants of more than one dwelling unit or rooming unit. The occupant shall be responsible for maintaining free from obstruction all means of exit leading from his/her unit and not common to the exit of any other unit.

March Preventative Maintenance Tasks

1. Monitor and issue on-going snow removal work orders
2. Second Sunday, reset light timers and clocks 1 hour ahead for daylight savings time
3. Clean storage rooms and maintenance areas.
4. Touch up all common area paint.
5. Check lights weekly:
 - Outdoor lighting
 - Parking lot lighting
 - Emergency lighting
 - Hallway lighting
6. Vehicle Inspections weekly. See attached Vehicle Inspection Checklist
7. Check smoke detectors and carbon monoxide detectors – (during unit inspections)
8. Unit Inspections – (one building per month)
9. Check dumpsters and recycling bins weekly. Clean around dumpsters as needed
10. Clean community centers, common areas and laundry rooms daily
11. Service Lawn Equipment
12. Lease enforcement: Furniture, trash, and debris free from exteriors.

April Preventative Maintenance Tasks

1. Inspect roofs and siding
2. Clean gutters and downspouts. Repair as needed.
3. Check lights weekly:
 - Outdoor lighting
 - Parking lot lighting

- Emergency lighting
 - Hallway lighting
4. Vehicle Inspections weekly. See attached Vehicle Inspection Checklist
 5. Check smoke detectors and carbon monoxide detectors – (during unit inspections)
 6. Unit Inspections – (one building per month)
 7. Check dumpsters and recycling bins weekly. Clean around dumpsters as needed
 8. Clean community centers, common areas and laundry rooms daily
 9. Strip, wax and buff VCT flooring.
 10. Inspect walkways, porches, decks and railings. Repair as needed.
 11. Clean parking lots, driveways, walkways and storm drains
 12. Inspect trees. Trim as needed
 13. Check flags
 14. Landscaping
 15. Lease Enforcement: Check for proper AC installation

May Preventative Maintenance Tasks

1. Put a/c units in community rooms and offices
2. Service a/c units at Admin. Office and Maintenance Facility
3. Weed treatment at all sites
4. Landscaping
5. Mulch and plant flowers in planting beds at all sites

Note: In accordance with 527 CMR 17 (effective 9/2012), application of mulch must be within 18 inches from combustible exteriors such as wood or vinyl.

6. Trim bushes and shrubs as needed
7. Check lights weekly:
 - Outdoor lighting
 - Parking lot lighting
 - Emergency lighting

- Hallway lighting
8. Vehicle Inspections weekly. See attached Vehicle Inspection Checklist
 9. Check smoke detectors and carbon monoxide detectors – (during unit inspections)
 10. Unit Inspections – (one building per month)
 11. Check flags and replace as needed. Do before Memorial Day
 12. Check dumpsters and recycling bins weekly. Clean around dumpsters as needed
 13. Clean community centers, common areas and laundry rooms daily
 14. Clean dryer vents
 15. Lease enforcement: Cooking grills must be 10 feet from building. No fire pits.

June Preventative Maintenance Tasks

1. Landscaping
2. Water flowers daily. Weed flowers beds as needed
3. Check lights weekly:
 - Outdoor lighting
 - Parking lot lighting
 - Emergency lighting
 - Hallway lighting
4. Vehicle Inspections weekly. See attached Vehicle Inspection Checklist
5. Unit Inspections – (one building per month)
6. Check dumpsters and recycling bins weekly. Clean around dumpsters as needed
7. Clean community centers, common areas and laundry rooms weekly
8. Check timers for outdoor lighting
9. Clean storm drains
10. Lease enforcement: Cooking grills must be 10 feet from building. No fire pits.

July Preventative Maintenance Tasks

1. Landscaping
2. Water flowers daily. Weed flowers beds as needed
3. Check lights weekly:
 - Outdoor lighting
 - Parking lot lighting
 - Emergency lighting
 - Hallway lighting
4. Vehicle Inspections weekly. See attached Vehicle Inspection Checklist
5. Check smoke detectors and carbon monoxide detectors – (during unit inspections)
6. Unit Inspections – (one building per month)
7. Check dumpsters and recycling bins weekly. Clean around dumpsters as needed
8. Clean community centers, common areas and laundry rooms daily
9. Check storm drains
10. Lease enforcement: Pools, trampolines and swing-sets (according to policy, PHN 2003-04).
Furniture, trash and debris free from exterior.

August Preventative Maintenance Tasks

1. Landscaping.
2. Water flowers daily. Weed flowers beds as needed
3. Strip, wax and buff VCT flooring
4. Clean dryer vents
5. Check lights weekly:
 - Outdoor lighting
 - Parking lot lighting
 - Emergency lighting
 - Hallway lighting
6. Vehicle Inspections weekly. See attached Vehicle Inspection Checklist

7. Check smoke detectors and carbon monoxide detectors – (during unit inspections)
8. Unit Inspections – (one building per month)
9. Check dumpsters and recycling bins weekly. Clean around dumpsters as needed
10. Clean community centers, common areas and laundry rooms daily
11. Check/clean storm drains & catch basins
12. Lease enforcement: Clear common hallways and stairs free from all obstructions. (PHN 2012-12).
According to the State Sanitary code 105 CMR 410.451 – No person shall obstruct any exit or passageway. The owner is responsible for maintaining free from obstruction every exit used or intended for use by occupants of more than one dwelling unit or rooming unit. The occupant shall be responsible for maintaining free from obstruction all means of exit leading from his/her unit and not common to the exit of any other unit.

September Preventative Maintenance Tasks

1. Landscaping
2. Water flowers daily. Weed flower beds as needed
3. Check lights weekly:
 - Outdoor lighting
 - Parking lot lighting
 - Emergency lighting
 - Hallway lighting
4. Vehicle Inspections weekly. See attached Vehicle Inspection Checklist
5. Check smoke detectors and carbon monoxide detectors – (during unit inspections)
6. Unit Inspections – (one building per month)
7. Check dumpsters and recycling bins weekly. Clean around dumpsters as needed
8. Clean community centers, common areas and laundry rooms daily
9. Check/clean storm drains & catch basins
10. Clean heater vents in common areas

October Preventative Maintenance Tasks

1. Landscaping.
2. Fall clean up.
3. Remove a/c units from community rooms and offices
4. Check lights weekly:
 - Outdoor lighting
 - Parking lot lighting
 - Emergency lighting
 - Hallway lighting
5. Vehicle Inspections weekly. See attached Vehicle Inspection Checklist
6. Check smoke detectors and carbon monoxide detectors – (during unit inspections)
7. Unit Inspections – (one building per month)
8. Check dumpsters and recycling bins weekly. Clean around dumpsters as needed
9. Clean community centers, common areas and laundry rooms daily
10. Inspect walkways, porches, decks and railings. Repair as needed.
11. Service snow blowers and sander
12. Purchase ice melt
13. Clean and store lawn equipment
14. Clean boiler at 705-2
15. Clean gutters
16. Fertilize lawns.
17. Prune and trim all shrubs and bushes. (maintain 2ft clearance from all structures)
18. Lease enforcement: removal of all AC's according to policy; Decoration cords running through doors and windows

November Preventative Maintenance Tasks

1. Fall clean up.
2. Reset light timers and clocks 1 hour back for daylight savings time
3. Monitor and issue on-going snow removal work orders
4. Check lights weekly:
 - Outdoor lighting
 - Parking lot lighting
 - Emergency lighting
 - Hallway lighting
5. Check smoke detectors and carbon monoxide detectors – (during unit inspections)
6. Unit Inspections – (one building per month)
7. Check dumpsters and recycling bins weekly. Clean around dumpsters as needed
8. Clean community centers, common areas and laundry rooms daily
9. Check flags and replace as needed. Do before Veterans Day
10. Check/clean storm drains & catch basins
11. Clean dryer vents
12. Lease enforcement: blocked egresses

December Preventative Maintenance Tasks

1. Monitor and issue on-going snow removal work orders
2. Fire extinguisher annual inspection
3. Check lights weekly:
 - Outdoor lighting
 - Parking lot lighting
 - Emergency lighting
 - Hallway lighting
4. Vehicle Inspections weekly. See attached Vehicle Inspection Checklist
5. Check smoke detectors and carbon monoxide detectors – (during unit inspections)

6. Unit Inspections – (one building per month)
7. Check dumpsters and recycling bins weekly. Clean around dumpsters as needed
8. Clean community centers, common areas and laundry rooms daily
9. Check time clocks for outdoor lighting
10. Check/clean storm drains & catch basins
11. Lease enforcement: Decoration cords running through doors and windows

ATTACHMENT 4

Vehicle Preventative Maintenance

January
1. Check all fluid levels: crank case, transmission, etc
2. Check antifreeze, radiator rust inhibitor, and thermostat
3. Check windshield washer fluid
Check belts and hoses
4. Check plugs, wiring, battery, clean and grease terminals
5. Clean out air cleaner
6. Check wheel alignment and tire balance (signs of uneven wear)
7. Check heater and defroster
8. Check wiper blades for wear
9. Check underbody for corrosion and hose off
10. Change engine oil

February
1. Check all fluid levels: crank case, transmission, etc
2. Check antifreeze, radiator rust inhibitor, and thermostat
3. Check windshield washer fluid
Check belts and hoses
4. Check plugs, wiring, battery, clean and grease terminals
5. Clean out air cleaner
6. Check wheel alignment and tire balance (signs of uneven wear)
7. Check heater and defroster
8. Check wiper blades for wear
9. Check underbody for corrosion and hose off

March
1. Check all fluid levels: crank case, transmission, etc
2. Check antifreeze, radiator rust inhibitor, and thermostat
3. Check windshield washer fluid
Check belts and hoses
4. Check plugs, wiring, battery, clean and grease terminals
5. Clean out air cleaner
6. Check wheel alignment and tire balance (signs of uneven wear)
7. Check heater and defroster
8. Check wiper blades for wear
9. Check underbody for corrosion and hose off

April
1. Check all fluid levels: crank case, transmission, etc
2. Check antifreeze, radiator rust inhibitor, and thermostat
3. Check windshield washer fluid
4. Check belts and hoses
5. Check plugs, wiring, battery, clean and grease terminals
6. Clean out air cleaner
7. Check wheel alignment and tire balance (signs of uneven wear)
8. Check heater and defroster
9. Check wiper blades for wear
10. Change engine oil

May
1. Check all fluid levels: crank case, transmission, etc
2. Check antifreeze, radiator rust inhibitor, and thermostat
3. Check windshield washer fluid
4. Check belts and hoses
5. Check plugs, wiring, battery, clean and grease terminals
6. Clean out air cleaner
7. Check wheel alignment and tire balance (signs of uneven wear)
8. Check heater and defroster
9. Check wiper blades for wear

June
1. Check all fluid levels: crank case, transmission, etc
2. Check antifreeze, radiator rust inhibitor, and thermostat
3. Check windshield washer fluid
4. Check belts and hoses
5. Check plugs, wiring, battery, clean and grease terminals
6. Clean out air cleaner
7. Check wheel alignment and tire balance (signs of uneven wear)
8. Check heater and defroster
9. Check wiper blades for wear
10. Change engine oil

July
1. Check all fluid levels: crank case, transmission, etc
2. Check antifreeze, radiator rust inhibitor, and thermostat
3. Check windshield washer fluid
4. Check belts and hoses
5. Check plugs, wiring, battery, clean and grease terminals
6. Clean out air cleaner
7. Check wheel alignment and tire balance (signs of uneven wear)
8. Check heater and defroster
9. Check wiper blades for wear

August
1. Check all fluid levels: crank case, transmission, etc
2. Check antifreeze, radiator rust inhibitor, and thermostat
3. Check windshield washer fluid
4. Check belts and hoses
5. Check plugs, wiring, battery, clean and grease terminals
6. Clean out air cleaner
7. Check wheel alignment and tire balance (signs of uneven wear)
8. Check heater and defroster
9. Check wiper blades for wear

September
1. Check all fluid levels: crank case, transmission, etc
2. Check antifreeze, radiator rust inhibitor, and thermostat
3. Check windshield washer fluid
4. Check belts and hoses
5. Check plugs, wiring, battery, clean and grease terminals
6. Clean out air cleaner
7. Check wheel alignment and tire balance (signs of uneven wear)
8. Check heater and defroster
9. Check wiper blades for wear

October
1. Check all fluid levels: crank case, transmission, etc
2. Check antifreeze, radiator rust inhibitor, and thermostat
3. Check windshield washer fluid
4. Check belts and hoses
5. Check plugs, wiring, battery, clean and grease terminals
6. Clean out air cleaner
7. Check wheel alignment and tire balance (signs of uneven wear)
8. Check heater and defroster
9. Check wiper blades for wear
10. Change engine oil

November
1. Check all fluid levels: crank case, transmission, etc
2. Check antifreeze, radiator rust inhibitor, and thermostat
3. Check windshield washer fluid
4. Check belts and hoses
5. Check plugs, wiring, battery, clean and grease terminals
6. Clean out air cleaner
7. Check wheel alignment and tire balance (signs of uneven wear)
8. Check heater and defroster
9. Check wiper blades for wear
10. Check underbody for corrosion and hose off

December
1. Check all fluid levels: crank case, transmission, etc
2. Check antifreeze, radiator rust inhibitor, and thermostat
3. Check windshield washer fluid
4. Check belts and hoses
5. Check plugs, wiring, battery, clean and grease terminals
6. Clean out air cleaner
7. Check wheel alignment and tire balance (signs of uneven wear)
8. Check heater and defroster
9. Check wiper blades for wear
10. Check underbody for corrosion and hose off

Preventing Mulch Fires

Mulch is a combustible material that can be easily ignited by improperly discarded smoking materials. Hundreds of small and large fires are started this way every year. The risk is that what starts as a small outdoor mulch fire can quickly spread to buildings. A mulch fire can be well underway before someone notices or is alerted by smoke alarms or sprinkler systems activating.

Photo courtesy of photos public domain.com

Regulation on Mulch Safety

Safe use of mulch is regulated through 527 CMR 1.00, section 10.14.10.4. The regulation prohibits new application of mulch within 18" around combustible exteriors of buildings, such as wood or vinyl, but not brick or concrete. Residential buildings with six units or less are exempted from the regulation, but all homeowners may want to adopt these safety practices. The regulation applies to all other buildings including commercial properties.

Tips for Property Managers, Building Owners & Landscapers

- Provide a minimum of an 18-inch clearance between landscape mulch beds and combustible building materials, such as wood, vinyl siding and decks.
- Use non-combustible mulch such as rock or pea stone around gas meters and combustible portions of the structure.
- Provide proper receptacles for smoking materials at all entrances to public buildings and in designated smoking areas. Place them at least 18" away from the building, do not mulch in these areas and remember to regularly empty smoking receptacles.
- Grounds and maintenance crews should be aware when conditions are favorable for mulch fires and increase surveillance of mulch beds.
- Keep mulch beds moist when possible.

Million Dollar Mulch Fires

- The most notable mulch fire in Massachusetts occurred in May 2015 in a large Arlington apartment complex. One man died in the fire started by smoking materials discarded in a mulch bed, which spread to a car, then to the building. Thirty-six apartments and six cars were destroyed. The building had no sprinklers and the estimated dollar loss was \$6.7 million.
- In April 2012, improperly discarded smoking materials ignited mulch outside an assisted living center in Braintree. The fire forced many older adults to evacuate in the early morning hours. Several suffered smoke inhalation injuries.
- In May 2008, a cigarette ignited a mulch fire at a Peabody apartment complex. It caused \$6.7 million in damage to the building, displaced 750 people temporarily and 36 permanently.

FireFactors

Office of the State Fire Marshal • www.mass.gov/dfs • (978) 567-3300

Report Mulch Fires

- If you see anything smoking in a landscape bed, put it out if you can and report it. If the burning material is not thoroughly wet or removed it can re-ignite.
- Report any smoke or fire by calling 9-1-1.

Be a Responsible Smoker:

Put It Out. All the Way. Every Time.

- If you smoke, remember to properly dispose of all smoking materials.
- Always use appropriate receptacles for disposing of smoking materials and matches.
- Do not discard cigarettes in mulch or potted plants.
- Use ashtrays that won't burn or catch fire and that are deep enough to contain butts. Wet butts down before throwing out.
- As more people smoke outdoors rather than inside, many building fires started by smoking begin on decks, porches, and exterior stairways.
- Be smart in your choice of containers for butts. Consider using metal cans with sand for outdoor disposal.
- Never throw lit smoking materials out of a car window. It is a fire risk and it is illegal to do so. The penalty for throwing lit materials from a car is a fine of \$100 and/or thirty days imprisonment (M.G.L. c. 148 § 54).

How Mulch Fires Start.

Care must be taken to prevent mulch fires.

- In many mulch fires, the smoldering mulch tunnels under the surface and then breaks out into open flame.
- Mulch that is piled too deeply, more than a few inches, can build up heat and spontaneously catch fire.
- Mulch fires start more readily when the weather is hot and it has been dry for an extended time.
- Factors such as below-average rainfall, dry conditions, warm temperatures, and high winds increase the risk of mulch fires.

Storage and Manufacturing of Mulch

- 527 CMR 1.00, section 10.14.10.4 has safety requirements for those who store or manufacture mulch. It limits the size of mulch piles and requires a distance of 30-feet between piles and 25-feet from the lot line.
- Large piles of mulch can spontaneously combust from all the heat they generate, so it is important to be vigilant and employ good housekeeping. The distance between mulch piles keeps a fire from spreading from one pile to another, or to a building.

FireFactors

Office of the State Fire Marshal • www.mass.gov/dfs • (978) 567-3300

527 CMR: BOARD OF FIRE PREVENTION REGULATIONS

527 CMR 17.00: FOREST PRODUCTS

Section

17.01: Purpose and Scope

17.02: Application

17.03: Incorporation of NFPA 1, Chapter 31 (2009 Edition) by Reference with Modifications

17.04: Modifications of the Provisions of NFPA-1, Chapter 31 (2009 Edition)

17.05: Fire Safety Considerations Relating to the Use of Mulch

17.01: PURPOSE AND SCOPE

The purpose and scope of 527 CMR 17.00 is to protect the public and reduce the hazards of fire and explosion by establishing minimum requirements for the safe outside storage of certain forest product materials described in 527 CMR 17.02.

17.02: APPLICATION

1. The requirements of 527 CMR 17.00 shall apply to the outside storage of the following materials:
 - a. Lumber and wood panel products at retail and wholesale lumber storage yards;
 - b. Lumber and wood panel products at other than retail and wholesale storage yards;
 - c. Ties, poles, piles, posts, and other similar forest products at pressure-treating plant yards;
 - d. Outside storage of wood chips, mulch, hogged material, and wood by-products;
 - e. Logs;
 - f. Forest products used as mulch.
2. In the event of a conflict between the provisions of 527 CMR 17.00, and any other provision of 527 CMR, the standard that requires the greater level of safety shall prevail.

17.03: INCORPORATION OF NFPA 1, CHAPTER 31 (2009 EDITION) BY REFERENCE WITH MODIFICATIONS

For the requirements of 527 CMR 17.00, the provisions of (National Fire Protection Association) NFPA -1, Chapter 31, (2009 Edition), entitled Forest Products are hereby incorporated by reference, as modified by 527 CMR 17.04.

17.04: MODIFICATIONS OF THE PROVISIONS OF NFPA-1, CHAPTER 31 (2009 EDITION)

- (a) Section 31.1 is modified to read as follows:

31.1 General. The outside storage of Forest Product materials within the purpose and scope of 527 CMR 17.01 shall be in accordance with the provisions of 527 CMR 17.00.

- (b) Section 31.1.1 is modified by adding the following:

31.1.1 TERMS AND DEFINITIONS

Unless otherwise stated in 527 CMR 17.00, terms and definitions used in 527 CMR 17.00 shall be defined in accordance with the provisions of NFPA 1, Chapter 3 (2009 Edition)

AHJ or Authority Having Jurisdiction, shall mean the head of the fire department or the state fire marshal and their designees, as prescribed by M.G.L. c. 148.

Building, shall mean a building as defined in M.G.L. c. 148, § 1.

Mulch, shall mean any type of forest material that is produced for the purpose spreading or application over the surface of the soil as a protective cover, to retain moisture, reduce erosion,

provide nutrients, and suppress weed growth, seed germination and for general landscaping purposes.

This Code, shall mean 527 CMR, unless otherwise particularly indicated.

(c) Section 31.2 is modified to read as follows:

31.2 Permits. Permits, issued by the head of the fire department shall be required for the storage of materials as provided in Table 31.2.

Table 31.2 Permit Requirements

Wood Products	Permits Required
Mulch produced or stored outside	Storage in Excess of 300 yards ³

(d) Section 31.2 is modified by adding the following:

31.2.1 Permit Requirements: Permits required by 527 CMR 17.00 shall be subject to the provisions of 527 CMR 1.04(1) through (8). A copy of a certified statement signed by the owner or facility manager indicating compliance with 527 CMR 17.00 shall be included with the permit application.

(e) Section 31.3.1.1 is modified by adding (6) as follows:

6. Forest products used as mulch.

(f) Section 31.3.2.1.4 is modified to read as follows:

31.3.2.1.4 Where the storage of materials regulated by 527 CMR 17.00 are permitted to accumulate in a quantity or location that may constitute an undue public safety hazard, adequate fencing of not less than six feet in height with an approved locked gate located as necessary to allow the entry of fire department apparatus shall be provided. The fencing shall encompass the material or property.

Modify 31.3.3.4 by adding at the end of the sentence the words: or as otherwise approved by the AHJ.

Modify 31.3.3.4.1.1 by adding at the end of the sentence the words: or as otherwise approved by the AHJ.

Modify 31.3.3.4.2.1 by adding at the end of the sentence the words: or as otherwise approved by the AHJ.

(g) Section 31.3.6.4 is modified by adding the following:

31.3.6.4.4 Property- line clearance of not less than 25ft at the base of the pile shall be provided.

17.05: FIRE SAFETY CONSIDERATIONS RELATING TO THE USE OF MULCH

On or after September 1, 2012, mulch shall not be newly applied within 18" of any combustible portion of any building [See Figure 17.05]. Exception:

1. Any building, regardless of the existence of fire separations, containing six (6) dwelling units or less.

31.4.2

Figure 17.05

Deferred Maintenance Plan

[illegible]

Annual Operating Budget

The tables on the following pages show the approved budget and actual income and spending per budget account (row) for the fiscal year ending 3/31/2026. It also shows the approved budget for the current year (2027) if there is one, and the percent change from last year's spending to this year's approved budget. The final column shows the current approved amount for each account divided by the number of housing units and by 12 months to show the amount per unit per month (PUM). The chart does not show a draft budget for the coming fiscal year as that will typically be developed in the final month of the fiscal year.

The budget format and accounts are mandated by the Executive Office of Housing and Livable Communities (EOHLC). For a better understanding of the accounts and discussion of special situations see the notes following the budget tables and the "Definitions of Accounts" at the end of this section.

The LHA maintains a consolidated budget (400-1) for all state-aided 667 (Elderly), 200 (family), and 705 (scattered site family) developments owned by the LHA. It does not maintain separate budgets for each development.

Operating Reserve

The LHA's operating reserve is the amount of funds that an LHA sets aside to sustain itself during lean years, or to remedy urgent health and safety concern or address deferred maintenance items. In addition, while EOHLC approves a fixed non-utility operating budget level for every LHA (called the Allowable Non-Utility Expense Level, or ANUEL), LHAs can propose a budget that exceeds that level, with the additional cost to be funded from the Operating Reserve, as long as the reserve will still remain above the minimum threshold set by EOHLC.

EOHLC defines a full (100%) Operating Reserve (OR) amount to be equal to one-half of the previous year's operating expenses and requires LHAs to maintain a minimum OR of 35% of this amount to cover any unplanned but urgent needs that may arise during the year and that can't be funded by the operating budget. If the reserve is between 20% and 35% of the full level, the LHA must obtain prior written approval from EOHLC to spend reserve funds, unless the expense is to resolve a health and safety issue. If the reserve is below the 20% level, the LHA can only spend OR funds on health and safety issues. In both cases, the LHA should address the health and safety issue immediately but must retroactively inform EOHLC and obtain its approval.

The BELLINGHAM HOUSING AUTHORITY operating reserve at the end of fiscal year 2026 was \$0.00, which is 0.00% of the full reserve amount defined above.

Consolidated Budget (400-1) for all state-aided 667 (Elderly), 200 (family), and 705 (scattered site family) developments owned by BELLINGHAM HOUSING AUTHORITY

Explanation of Budget Accounts

The following explains how each of the line items is to be prepared.

3110: Shelter Rent: The shelter rent projection should be based on the current rent roll plus anticipated changes expected from annual rent re-determinations or as a result of regulatory amendments.

3111: Shelter Rent – Tenants - Fraud/Retroactive: This account should be used for the reporting of total rent receipts from residents due to unreported income. These are often called fraud or retroactive balances. In cases where deficit LHAs discover, pursue cases, and have entered into a written fraud/retroactive re-payment agreement **with a present or former tenant who did not report income**, the LHA will be allowed to retain two-thirds of the funds recovered. One third of the total dollar amount recovered should be included in the LHA's quarterly or year-end Operating Statement as Shelter Rent, account #3111, and two-thirds of this total dollar amount should be included in Other Revenue-Retained, account #3691.

3115: Shelter Rent - Section 8: This account applies only to those developments receiving support through the federal government's Housing and Urban Development (HUD) Section 8 New Construction and/or Substantial Rehab Programs.

3190: Non-Dwelling Rental: This account should be credited with the rents, other than tenants rents reported in line 3110 and 3115, including charges for utilities and equipment, billed to lessees of non-dwelling facilities as well as apartments rented for non-dwelling purposes, such as social service programs.

3400: Administrative Fee- MRVP/AHVP: This account should be credited with Administrative Fees to be received for the MRVP/AHVP Program. The MRVP/AHVP administrative fee is \$50.00 per unit per month, as of July 1, 2020.

3610: Interest on Investments – Unrestricted: This account should be credited with interest earned on unrestricted administrative fund investments.

3611: Interest on Investments – Restricted: This account should be credited with interest earned on restricted administrative fund investments. For example, an LHA may receive a grant whose use is restricted to a specific purpose, and the interest income earned on that grant may also be restricted to the same purpose.

3690: Other Operating Revenues: This account should be credited with income from the operation of the project that cannot be otherwise classified. Income credits to this account include, but are not limited to, penalties for delinquent payments, rental of equipment, charges for use of community space, charges to other projects or programs for the use of central office management and maintenance space, commissions and profits from vending machines, including washing machines, and certain charges to residents for additional services, materials, and/or repairs of damage caused by neglect or abuse in accordance with the Department's regulations on lease provisions..

3691: Other Revenue – Retained: This account should be credited with certain miscellaneous revenue to be retained by the LHA, and which is not used to reduce the amount of operating subsidy the LHA is due. The most common examples for this account is receipts for the rental of roof antennas to cell phone providers and net meter credits earned on electricity bills from Net Meter Power Purchase Agreements (PPA's). Generally, surplus LHAs may retain 100% of these savings and deficit LHAs may retain 25% of the savings, with the 75% balance used to offset its need for operating subsidy. However, for the period 7/1/16 through 6/30/20, all deficit LHAs may keep 100% of the net meter credit savings, while they can keep 50% effective 7/1/2020.

3692: Other Revenue - Operating Reserves: This account should be credited with funds that LHAs plan to utilize from their operating reserve accounts in excess of the Allowable Non-Utility Expense Level (ANUEL). To be approvable, LHA must maintain the EOHLC prescribed operating reserve minimum level after deducting the amount budgeted. The only exception to this is when the expenses are for health and safety issues.

3693: Other Revenue – Net Meter: This account should normally be credited with 75% of the total net meter credit savings realized by a deficit LHA, while surplus LHAs with net meter credit savings would enter \$0 here. Savings are calculated as the value of the net meter credits appearing on the LHA's electric bills (or, in some cases, paid in cash to the LHA by their utility company), minus the cost of the payments made to the solar power developer under their Power Purchase Agreement (PPA). Deficit LHAs normally may retain 25% of the savings. That amount should be included as Other Revenue – Retained on line #3691. However, please note that for the period 7/1/16 through 6/30/20 all LHAs may retain 100% of their total net meter credit savings, and should report those savings as Other Revenue – Retained on line #3691. LHAs can keep 50% of savings effective 7/1/2020.

3801: Operating Subsidy – EOHLC (400-1): This account represents all state-funded operating subsidy to be received and or to be earned for the fiscal year. At the end of each fiscal year, this account will be adjusted in the operating statement to equal the actual subsidy earned by the LHA.

3802: Operating Subsidy – MRVP/AHVP Landlords:

The credit balance in this account represents the anticipated total receipts from EOHLC during the fiscal year for housing assistance payments to landlords. At the end of each fiscal year this account will be adjusted to equal the actual subsidy earned.

3920: Gain/Loss from Sale or Disposition of Property (Capitalized or Non-Capitalized): The debit or credit balance of this account represents the following items: a) Cash proceeds from the sale of property that was either: 1) non-capitalized; or 2) capitalized and has been fully depreciated, and b) Realized gain or loss from the sale or disposition of capitalized property that has not been fully depreciated.

4110: Administrative Salaries: This account should be charged with the gross salaries of LHA personnel engaged in administrative duties and in the supervision, planning, and direction of maintenance activities and operating services during the operations period. It should include the salaries of the executive director, assistant executive director, accountants, accounting clerks, clerks, secretaries, project managers, management aides, purchasing agents, engineers, draftsmen, maintenance superintendents, and all other employees assigned to administrative duties.

4120: Compensated Absences: The debit balance in this account represents the actual cost incurred during the fiscal year for vacation, paid holidays, vested sick leave and earned compensatory time. This account includes both the direct compensated absences cost and associated employer payroll expenses (employment taxes, pension cost, etc.).

4130: Legal Expense: This account should be charged with retainers and fees paid to attorneys for legal services relating to the operation of the projects.

4140: Compensation to Authority Members: A local authority may compensate its members for performance of their duties and such other services as they may render to the authority in connection with its Chapter 200 development(s). Compensation for any other program is not authorized. Because of this, LHAs must base such compensation only on the actual rent receipts for these developments plus a prorated share of other operating receipts of funds on a per unit basis. The precise amount that members may be compensated is defined by statute to a maximum of \$40 per member per day, and \$50 for the chairperson per day. The total of all compensation to all board members is not to exceed two percent (2%) of actual gross income of Chapter 200 developments in any given year, consistent with the approved budget amount. In no case shall the payment of compensation exceed \$12,500 annually for the chairperson, or \$10,000 for any member other than the chairperson. Please note the statute requires the member to perform housing authority business in order to receive compensation.

4150: Travel and Related Expense: Legitimate travel expenses incurred by board members and staff in the discharge of their duties for any **state-aided program** are reimbursable from this account, as consistent with Department policy.

4170: Contractual Accounting Services: Fees for accounting services that are provided routinely and are contracted for on an annual basis. Only accounting services performed on a contractual basis (fee accountant) should be included in this item. Full or part-time LHA accounting staff that provides routine accounting services should be included in Account 4110, Administrative Salaries.

4171: Audit Costs: This account includes the state program's prorated share of audit fees paid to an Independent Public Accountant (IPA). The procurement of an IPA is necessary to satisfy the Federal Government's audit requirements. Costs for these services should be shared with all state and federal programs of LHA. **Audit costs are to be absorbed within the ANUEL.** The new Agreed Upon procedures (AUP) audit costs for state-assisted public housing programs should also be included in this account.

4180: Penalties and Interest: Any expenses incurred from penalties, fees, and interest paid on delinquent accounts shall be included in this line item.

4190: Administrative Other: This account is provided for recording the cost of administrative items for which no specific amount is prescribed in this 4100 group of accounts. It includes, but is not limited to, the cost of such items as: reports and accounting forms; stationery and other office supplies; postage; telephone services; messenger service; rental of office space; advertising for bids; publications; membership dues; collection agency & court costs, training costs; management fees, and fiscal agent fees.

4191: Tenant Organization: LTO Funding by the LHA. Upon request the LHA shall fund all LTOs in a city or town at the annual rate of \$25.00 per state-aided public housing unit occupied or available for occupancy by residents represented by such LTO(s) or an annual total of \$500.00 prorated among all such LTO(s), whichever is more. For more information on the creation and funding of LTOs see 760 CMR 6.09.

Authorities which operate computer learning centers, which are funded by the state consolidated budget or by other sources (which are typically recorded in line #3691 as "Other Revenue Retained", should budget the cost of the centers on this line.

4310: Water: This account should be charged with the cost of water and sewer charges purchased for all purposes.

4320: Electricity: This account should be charged with the total cost of electricity purchased for all purposes. Many LHAs have entered into Net Meter Credit Power Purchase Agreements (PPA's). In these deals, an LHA executes a contract with a solar power developer who constructs and owns an off- site solar electricity- generating site. In exchange for contracting to purchase a percentage of the solar power produced, the LHA receives a credit on its utility electric bill for each KWH purchased or in some cases receives a direct cash payment from their utility company. Please ensure that the amount charged to this account is the total cost of electricity BEFORE any reductions due to the receipt of net meter credits.

4330: Gas: This account should be charged with the cost of gas (natural, artificial, or liquefied) purchased for all purposes.

4340: Fuel: This account should be charged with the cost of coal, fuel oil, steam purchased, and any other fuels (except electricity and gas) used in connection with Local Housing Authority operation of plants for the heating of space or water supplied to tenants as a part of rent.

4360: Net Meter Utility Debit/Energy Conservation: This account is to be charged with costs incurred for energy conservation measures.

4390: Other Utilities: This account should be charged with the cost of utilities which are not provided for in accounts 4310 through 4360. In addition, for all quarterly or year-end operating statements 9/30/20 or later, and all budgets 6/30/21 or later, please use this line to record the total net meter credits earned as reported in Line 4392, MINUS the Solar Operator Costs reported in Line 4391, with the result expressed as a positive number. For example, if you reported -\$20,000 in Net Meter Utility Credits in Line 4392 and \$15,000 in Solar Operator Costs in Line 4391, you would subtract the \$15,000 reported on Line 4391 from the -\$20,000 reported on Line 4392, and post the remainder of \$5,000 on Line 4360, as a positive number. This number essentially represents the "net" savings the LHA earned from its net meter credit contract.

4391: Solar Operator Costs: Many LHAs have entered into Net Meter Credit Power Purchase Agreements (PPA's). In these deals, an LHA executes a contract with a solar power developer who constructs and owns an off-site solar electricity-generating site. The LHA makes regular (usually monthly) payments to the developer for its contracted share of the solar electricity produced by the site. Those payments should be entered in this account.

4392: Net Meter Utility Credit (Negative Amount): As noted in account #4391 above, many LHAs have executed Net Meter Credit Power Purchase Agreements (PPA's). In exchange for contracting to purchase a percentage of the solar power produced, the LHA receives a credit on its utility electric bill for each KWH purchased from the developer, which reduces the balance on its electric bill, or, in some cases, the credits are paid in cash to the LHA by the utility company. The total gross amount of the net meter credits that appear on the LHA's utility bills should be carried in this account and entered as a negative number. In cases where credits are paid in cash to the Host LHA, the net balance after paying out the amounts due the participating housing authorities, should also be carried in this account and entered as a negative number.

4410: Maintenance Labor: This account should be charged with the gross salaries and wages, or applicable portions thereof, for LHA personnel engaged in the routine maintenance of the project.

4420: Materials & Supplies: This account should be charged with the cost of materials, supplies, and expendable equipment used in connection with the routine maintenance of the project. This includes the operation and maintenance of automotive and other movable equipment, and the cost of materials, supplies, and expendable equipment used in connection with operating services such as janitorial services, elevator services, extermination of rodents and household pests, and rubbish and garbage collection.

4430: Contract Costs: This account should be charged with contract costs (i.e. the cost of services for labor, materials, and supplies furnished by a firm or by persons other than Local Authority employees) incurred in connection with the routine maintenance of the project, including the maintenance of automotive and other movable equipment. This account should also be charged with contract costs incurred in connection with such operating services as janitorial services, fire alarm and elevator service, extermination of rodents and household pests, rubbish and garbage collection, snow removal, landscape services, oil burner maintenance, etc.

4510: Insurance: Includes the total amount of premiums charged all forms of insurance. Fire and extended coverage, crime, and general liability are handled by EOHLA on a statewide basis. All other necessary insurance policies include: Workers' Compensation, boiler, vehicle liability and owner, etc.

4520: Payments in Lieu of Taxes:

This account should be charged with all payments in lieu of taxes accruing to a municipality or other local taxing body.

4540: Employee Benefits: This account should be charged with local housing authority contributions to employee benefit plans such as pension, retirement, and health and welfare plans. It should also be charged with administrative expenses paid to the State or other public agencies in connection with a retirement plan, if such payment is required by State Law, and with Trustee's fees paid in connection with a private retirement plan, if such payment is required under the retirement plan contract.

Employee benefits are based upon a given percentage of the total payroll; therefore, the total amount approved in this account will be based on the approved budgeted salaries representing the state's fair share.

4541: Employee Benefits - GASB 45: This line covers "Other Post-Employment Benefits" (OPEB). Of the total benefits offered by employers to attract and retain qualified employees, some benefits, including salaries and active-employee healthcare are taken while the employees are in active service, whereas other benefits, including post-employment healthcare and other OPEB are taken after the employees' services have ended. Nevertheless, both types of benefits constitute compensation for employee services. In accordance with required accounting practices, this amount is not projected in the budget (and is therefore blank) but the estimated future costs of this item is carried in the operating statement.

4542: Pension Expense – GASB 68: The primary objective of GASB 68 Statement is to improve accounting and financial reporting for pension costs. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. As with account 4541 above, in accordance with required accounting practices, this amount is not projected in the budget (and is therefore blank) but the estimated future costs of this item is carried in the operating statement.

4570: Collection Loss: The balance in this account represents the estimated expense to cover unexpected losses for tenant rents. Note: Do not include losses from fraud/retroactive balances here. Report them in Account 4571 – Collection Loss – Fraud/Retroactive.

4571: Collection Loss – Fraud/Retroactive: The balance in this account represents the estimated expense to cover unexpected losses for tenant rents due to unreported income, i.e. fraud/retroactive balances.

4580: Interest Expense: The debit balance in this account represents the interest expense paid and accrued on loans and notes payable. This debt can be from operating borrowings or capital borrowings.

4590: Other General Expense: This account represents the cost of all items of general expenses for which no specific account is prescribed in the general group of accounts.

4610: Extraordinary Maintenance – Non-Capitalized: This account should be debited with all *costs* (labor, materials and supplies, expendable equipment (such as many tools or routine repair parts), and contract work) of repairs, replacements (but not replacements of non-expendable equipment), and rehabilitation of such a substantial nature that the work is clearly not a part of the routine maintenance and operating program. The items charged to this account should not increase the useful life or value of the asset being repaired. These items are not capitalized and are not added as an increase to fixed assets at the time of completion. Nor are these items depreciated. An example of this would be scheduled repainting of apartments.

4611: Equipment Purchases – Non-Capitalized: This account should be debited with the costs of equipment that does not meet the LHA's criteria for capitalization. Because these items are being expended when paid, they should not be categorized as a fixed asset and therefore will not be depreciated. These items include stoves, refrigerators, small tools, most computers and software, etc.

The budget is a planning tool and as our portfolio ages it is essential that LHAs evaluate their properties annually and plan for extraordinary maintenance. To that end EOHLC very strongly recommends that for all 400-1 operating budgets, depending on the age of the portfolio and condition, LHAs spend between \$100 and \$500 a year per unit in Extraordinary Maintenance, Equipment Purchases, Replacement of Equipment, and Betterments & Additions to ensure that the aging public housing stock is preserved.

4715: Housing Assistance Payments: This account should be debited with all housing assistance payments paid to landlords for the MRVP program on a monthly basis.

4801: Depreciation Expense: This account should be debited with annual fixed asset depreciation expenses as determined by the LHA's capitalization policy.

7520: Replacement of Equipment – Capitalized: This account should be debited with the acquisition cost (only the net cash amount) of non-expendable equipment purchased as a replacement of equipment of substantially the same kind. These items, such as vehicles, computers, or furniture, meet the LHA's criteria for capitalization and will also be added to fixed assets and therefore depreciated over the useful life.

7540: Betterments & Additions – Capitalized: This account should be debited with the acquisition cost (only the net cash amount) of non-expendable equipment and major non-routine repairs that are classified as a betterment or addition. These items meet the LHA's criteria for capitalization and will also be added to fixed assets and therefore depreciated over the useful life of the asset. Examples are: major roof replacement, structural repairs such as siding, or major paving work.

In accordance with GAAP accounting, inventory purchases (Replacement of Equipment and Betterments & Additions) are distinguished between capitalized and non-capitalized items. Any inventory or equipment purchase greater than \$5,000 is required by EOHLC to be capitalized, inventoried and depreciated. Any inventory or equipment purchase costing \$1,000 to \$4,999 should be inventoried by LHA staff for control purposes only but is not subject to capitalization or depreciation, it is, however, required to be expensed when the items are paid for. An LHA's inventory listing should include both capitalized and non-capitalized items of \$1,000 and more, as well as all refrigerators and stoves of any value. All items that appear on the inventory listing should be tagged with a unique identification number, and all refrigerators and stoves (regardless of value) should be tagged. LHAs may adopt a capitalization policy that capitalizes inventory purchases at a lesser amount than the \$5,000 requirement (i.e. \$1,000 - \$4,999); however, no capitalization policy can have an amount higher than \$5,000. Any inventory or equipment purchases costing \$0 to \$999 are to be expensed when paid for.

Narrative Responses to the Performance Management Review (PMR) Findings

The Performance Management Review conducted by the Department of Housing and Community Development (EOHLC) for the LHA fiscal year resulted in the following ratings. Criteria which received a 'Corrective Action' rating show both a reason for the rating and a response by the LHA. The reason indicates the LHA's understanding of why they received the rating, while the responses describe their goals and the means by which they will meet or improve upon the performance-based assessment standards established by EOHLC in the PMR. When the PMR rating is 'Operational Guidance', the LHA may have responded, but was not required to.

Category: Management

Criterion: Occupancy Rate - the percentage of units that are occupied on monthly report.

Rating: No Findings

Criterion: Tenant Accounts Receivable (TAR) - the percentage of uncollected rent and related charges owed by tenants to the local housing authority (LHA), out of the total amount of rent and related costs charged to tenants.

Rating: No Findings

Criterion: Certifications and Reporting Submissions - timely submission of statements and certifications

Rating: Operational Guidance

Criterion: Completion of mandatory online board member training

Rating: No Findings

Criterion: Annual Plan Submitted - Annual Plan (AP) submitted on time

Rating: No Findings

Criterion: Staff completed relevant certifications or trainings

Rating: No Findings

Category: Financial

Criterion: Adjusted Net Income - a measure of overspending or underspending.

Rating: Corrective Action

Reason: We submitted CFA's late.

Response: We will try to return all Contracts for Financial Assistance (CFAs) via DocuSign within 12 weeks of date of issuance

Criterion: Current Operating Reserve as a percentage of total maximum reserve level.

Rating: No Findings

Category: Capital Spending

Criterion: Timely spending of capital funds awarded under the Formula Funding program

Rating: Corrective Action

Reason: We submitted CFA's late.

Response: We will try to return all Contracts for Financial Assistance (CFAs) via DocuSign within 12 weeks of date of issuance

Category: CHAMP

Criterion: Paper applications are available, received and entered into CHAMP

Rating: No Findings

Criterion: Vacancies are recorded correctly and occupied using CHAMP

Rating: No Findings

Criterion: Fair Housing Policies Uploaded

Rating: No Findings

Category: Facility Management - Inspection Standards and Practices

Criterion: 100% of units inspected during FYE under review

Rating: No Findings

Criterion: Unit inspection reports create, track, and report work orders for inspection repairs, and inspection WOs completed within 30 days or add to DM / CIP

Rating: No Findings

Criterion: Unit inspection reports accurately reflect necessary repairs

Rating: No Findings

Category: Facility Management - Vacancy Turnover Standards and Practices

Criterion: Work orders created for every vacancy and completed within 30 days (or waiver requested)

Rating: Corrective Action

Reason: We missed 1 or 2 work orders that needed to be submitted within the time frame allowed

Response: We will do our best to make sure we get them in on time

Criterion: Vacancy turnover work orders accurately reflect necessary repairs

Rating: Corrective Action

Reason: We did not enter all the items that needed to be repaired (in PHAWeb) although we did complete the work

Response: We will do our best to make sure we record all repairs

Category: Facility Management - Preventive Maintenance Standards and Practices

Criterion: LHA Preventive Maintenance Plan accurately reflects all necessary work to maximize life of LHA components

Rating: No Findings

Category: Facility Management - Work Order Types and Systems

Criterion: All emergency work orders are created, tracked, reported and completed within 48 hours

Rating: No Findings

Criterion: All requested work orders are created, tracked, reported and completed within 14 days or added to DM/CIP

Rating: No Findings

Additional comments regarding the PMR:

Explanation of PMR Criteria Ratings

CRITERION	DESCRIPTION
Management	
Occupancy Rate	<p>The rating is calculated using the following formula: (Total Number of Occupied units on Monthly Report divided by (Total Number of Units Minus Units that Received a Waiver Minus Number of Units Vacant less than 30 days on Monthly Report))</p> <ul style="list-style-type: none"> • “No Findings” : Occupancy Rate is at or above 98% • Operational Guidance: Occupancy rate is at 95% up to 97.9% • Corrective Action: Adjusted occupancy rate is less than 95%
Tenant Accounts Receivable (TAR)	<p>This criterion calculates the percentage of uncollected rent and related charges owed by starting with the amount reported by the LHA, as uncollected balances for the TAR (Account 1122 from the Balance Sheet) minus Normal Repayment Agreements* divided by Shelter (Tenant) Rent (account 3110 from the Operating Statement)</p> <ul style="list-style-type: none"> • “No Findings” : At or below 2% • “Operational Guidance”: More than 2% , but less than 5% • “Corrective Action”: 5% or more
Certifications and Reporting Submissions	<p>Housing authorities are required to submit 4 quarterly vacancy certifications by end of the month following quarter end; 4 quarterly operating statements and 4 Tenant Accounts Receivable (TAR) reports within 60 days of quarter end.</p> <ul style="list-style-type: none"> • “No Findings”: At least 11 of the required 12 reports were submitted and at least 9 were submitted on time. • “Operational Guidance”: Less than 11 of the required 12 reports were submitted and/or less than 9 were submitted on time.
Board Member Training	<p>Percentage of board members that have completed the mandatory online board member training.</p> <ul style="list-style-type: none"> • “No Findings” : 80% or more completed training • “Operational Guidance” : 60-79.9% completed training • “Corrective Action” : <60 % completed training
Staff Certifications and Training	<p>Each LHA must have at least one staff member complete a relevant certification or training During the fiscal year. The number of required trainings varies by LHA size.</p> <ul style="list-style-type: none"> • No Findings: LHAs completed the required number of trainings • Corrective Action: LHAs have not completed any trainings
Annual Plan (AP) Submitted	<p>Housing authorities are required to submit an annual plan every year.</p> <ul style="list-style-type: none"> • “No Findings” =Submitted on time • “Operational Guidance” =Up to 45 days late • “Corrective Action” =More than 45 days late

CRITERION	DESCRIPTION
CHAMP	
Paper applications	<p>Paper applications are available, received and entered into CHAMP</p> <ul style="list-style-type: none"> • No Findings: Paper applications are available; And paper applications are date and time stamped correctly; And 90% of new paper applications are entered into CHAMP within 15 calendar days of date/time stamp; And 2% or less of new paper applications are entered more than 30 days after date/time stamp • Operational Guidance: Paper applications are available; And paper applications are date and time stamped and entered correctly; And 75% - 89% of new paper applications are entered into CHAMP within 15 calendar days; And 3% - 5% of new paper applications are entered more than 30 days after date/time stamp • Corrective Action: Paper applications are not available; Or the LHA has failed to date and time stamp paper applications and/or failed to enter them correctly; Or Less than 75% of new paper applications are entered into CHAMP within 15 calendar days of date/time stamp; Or more than 5% of new paper applications are entered more than 30 days after date/time stamp
Vacancies occupied using CHAMP	<p>Vacancies are recorded correctly and occupied using CHAMP</p> <ul style="list-style-type: none"> • No Findings: All vacancies during the fiscal year are recorded in EOHLC's Housing Applications Vacancy System within 30 days; And the housed Applicant ID and Pull List ID match between EOHLC's Housing Applications Vacancy System and CHAMP for unit occupied during the fiscal year, excluding administrative transfers; And 25% or less of occupied units have data entry errors • Operational Guidance: All vacancies during the fiscal year are recorded in EOHLC's Housing Applications Vacancy System, all vacancies are not recorded within 30 days; Or the Housed Applicant ID and Pull List ID match between EOHLC's Housing Applications Vacancy System and CHAMP for units occupied during the fiscal year, excluding administrative transfers; And greater than 25% of occupied units have data entry errors • Corrective Action: All vacancies during the fiscal year are not recorded in EOHLC's Housing Applications Vacancy System; Or the Housed Applicant ID and Pull List ID do not match (or data is missing) between EOHLC's Housing Applications Vacancy System and CHAMP for units occupied during the fiscal year, excluding administrative transfers

CRITERION	DESCRIPTION
Financial	
Adjusted Net Income	<p>The Adjusted Net Income criterion calculation starts with an LHA's Net Income and subtracts Depreciation, GASB 45 (Retirement Costs), GASB 68 (Retirement Costs), Extraordinary Maintenance (maintenance expense outside of routine/ordinary expenses), and Equipment Purchases – Non Capitalized. This Adjusted Net Income amount is then divided by the Total Expenses of the LHA. If this Adjusted Net Income amount is positive, it means underspending and if it is negative it means overspending.</p> <p>Underspending Rating:</p> <ul style="list-style-type: none"> • “No Findings” : 0 to 9.9% • “Operational Guidance”: 10 to 14.9% • “Corrective Action”: 15% or higher <p>Overspending Rating:</p> <ul style="list-style-type: none"> • “No Findings” : 0 to -4.9% • “Operational Guidance”: -5% to -9.9% • “Corrective Action”: -10% or below
Operating Reserves	<p>Current Operating Reserve as a percentage of total maximum reserve level. Appropriate reserve level is buffer against any unforeseen events or expenditures.</p> <ul style="list-style-type: none"> • “No Findings” :35%+ of maximum operating reserve • “Operational Guidance”: 20% to 34.9% of maximum operating reserve • “Corrective Action”: <20% of maximum operating reserve
Capital Planning	
Capital Spending	<p>Under the Formula Funding Program (FF), authorities receive undesignated funds to spend on projects in their Capital Improvement Plan. They are rated on the percentage of available funds they have spent over a three-year period</p> <ul style="list-style-type: none"> • “No Findings” = at least 80% • “Operational Guidance” = At least 50% • “Corrective Action” = Less than 50%
Health & Safety	
Health & safety violations	EOHLC has observed conditions at the LHA's developments and reported health and safety violations. The LHA has certified the number of corrected violations in each category.

CRITERION	DESCRIPTION
Facility Management – Inspection Standards and Practices	
100% Unit Inspections	<p>All units inspected at LHA during FY under review</p> <ul style="list-style-type: none"> • No Findings: 100% of units inspected • Corrective Action: Less than 100% of units inspected
LHA Inspections Reports/Work Orders	<p>Unit inspection reports create, track, and report work orders for inspection repairs, and inspection WOs completed within 30 days or add to DM/CIP</p> <ul style="list-style-type: none"> • No Findings: All inspection work orders/lease violations are created, tracked, and reported; And non-health and safety work orders for inspection repairs/lease violations are completed within 30 days or added to DM/CIP; And health and safety work orders for inspection repairs/lease violations are addressed within 48 hours • Operational Guidance: All health and safety inspection work orders/lease violations are created, tracked, reported and completed within 48 hours; And LHA fail to create, track, or report no more than 1 or 2 (based on LHA size) non-EHS (exigent health and safety) deficiencies; Or LHA failed to complete any non-EHS work orders/lease violations appropriately • Corrective Action: Any EHS work orders/lease violations not created, tracked, reported, or completed; Or 1 of the following: LHA failed to create, track or report a) More than 1 non-EHS deficiency (small LHA); b) More than 2 non-EHS deficiencies (Medium/Large)
Accuracy of LHA Inspections	<p>Unit inspection reports accurately reflect necessary repairs</p> <ul style="list-style-type: none"> • No Findings: c.667 unit has less than 2 EHS deficiencies and c.200/705 unit has less than 3 EHS deficiencies • Operational Guidance: c.667 unit has 2 EHS deficiencies or c.200/705 has 3 EHS deficiencies • Corrective Action: c.667 has equal to or greater than 3 EHS deficiencies or c.200/705 unit has equal to or greater than 4 EHS deficiencies
Facility Management – Preventative Maintenance Standards and Practices	
LHA Preventative Maintenance Schedule Accuracy and Implementation of Preventative Schedules	<p>LHA preventative maintenance schedule accurately reflects all necessary work to maximize the life of LHA components</p> <ul style="list-style-type: none"> • No Findings: c.667 unit less than 2 EHS deficiencies and c.200/705 less than 3 EHS deficiencies • Operational Guidance: c.667 2 EHS deficiencies or c.200/705 3 EHS deficiencies • Corrective Action: c.667 equal to or greater than 3 EHS deficiencies or c.200/705 equal to or greater than 4 EHS deficiencies

CRITERION	DESCRIPTION
Facility Management – Vacancy Turnover Standards and Practices	
Vacancy Turnover Work Orders	<p>Work orders created for every vacancy and completed within 30 days (or waiver requested)</p> <ul style="list-style-type: none"> No Findings: Vacancy work orders are created, tracked and reported for every unit and reflect all work in unit; And Vacancy work orders are Maintenance Ready in <=30 days for c.667 units or <=45 days for c.200/705 units or have approved waiver Operational Guidance: Vacancy work orders are created, tracked and reported for every unit; And work orders do not reflect all work completed in unit; Or vacancy work orders are Maintenance Ready in 31-45 days for c.667 and 46-60 days for c.200/705 and no approved waiver Corrective Action: Vacancy work orders are not created, tracked and reported for every unit; Or vacancy work orders are Maintenance Ready in >45 days for c.667 and >60 days for c.200/705 and have no approved waiver
Accuracy and Standard of Vacancy Turnovers	<p>Vacancy turnover work orders accurately reflect necessary repairs</p> <ul style="list-style-type: none"> No Findings: c.667 unit less than 2 EHS deficiencies and c.200/705 less than 3 EHS deficiencies Operational Guidance: c.667 2 EHS deficiencies or c.200/705 3 EHS deficiencies Corrective Action: c.667 equal to or greater than 3 EHS deficiencies or c.200/705 equal to or greater than 4 EHS deficiencies
Work Order Types and Systems	
Emergency Work Orders	<p>All emergency work orders are created, tracked, reported and completed within 48 hours</p> <ul style="list-style-type: none"> No Findings: All emergency work orders under review are created, tracked, reported and completed within 48 hours Operational Guidance: All emergency work orders completed within 48 hours; Less than 100% but greater than or equal to 80% of work orders under review are correctly created, tracked and reported administratively Corrective Action: Not all emergency work orders are completed within 48 hours; Or less than 80% of work orders under review are correctly created, tracked and reported administratively
CRITERION	DESCRIPTION
Requested Work Orders	<p>All requested work orders are created, tracked, reported and completed within 14 days or added to DM/CIP</p> <ul style="list-style-type: none"> No Findings: All requested work orders under review are created, tracked, and reported; All work is complete within 14 days or added to DM/CIP Operational Guidance: All requested work orders completed within 14 days or added to DM/CIP; And less than 100% of work orders under review are correctly created, tracked and reported Corrective Action: Not all requested work orders are completed within 14 days or added to DM/CIP

Policies

The following policies are currently in force at the BELLINGHAM HOUSING AUTHORITY:

Policy	Last Ratified by Board Vote	Notes
*Capitalization Policy	7/12/2005	
*Fair Housing Marketing Plan	2/21/2000	
*Grievance Policy	1/1/2013	dated referenced in policy to 2013

* Starred policies are required by EOHLC. Policies without a “Latest Revision” date are not yet in force. The list of policies has been provided by the LHA and has not been verified by EOHLC.

Waivers

BELLINGHAM HOUSING AUTHORITY has received the following waivers from EOHLC's regulations. This list does not include vacancy waivers, pet waivers, or any waivers that would release personally identifiable tenant or applicant data.

Description	Reason	Date Approved by EOHLC	Date Expired
-------------	--------	---------------------------	--------------

*The list of waivers has been provided by the LHA and has not been verified by EOHLC.

Glossary

ADA: Americans with Disabilities Act. Often used as shorthand for accessibility related issues or improvements.

AHVP: Alternative Housing Voucher Program

Alternative Housing Voucher Program provides rental vouchers to disabled applicants who are not elderly and who have been determined eligible for Chapter 667 (elderly and disabled) housing.

Allowable Non-Utility Expense Level (ANUEL) is the amount of non-utility expense allowed for each local housing authority based upon the type(s) of housing programs administered.

ANUEL: Allowable Non-Utility Expense Level

AP: Annual Plan

Annual Plan: A document prepared by each Local Housing Authority, incorporating the Capital Improvement Plan (CIP), Maintenance and Repair Plan, Budget, responses to the Performance Management Review, and other elements.

Cap Share is the amount of Formula Funding spending approved by EOHLC for each year.

Capital Funds: Funds provided by EOHLC to an LHA for the modernization and preservation of state-aided public housing, including Formula Funds and Special Capital Funds.

Capital Needs Assessment, similar to the CIP, often used for developments in the Section 8 New Construction/Substantial Rehabilitation program. Such developments are generally not eligible for state capital funds and therefore do not participate in the CIP process. However, to track their ongoing capital needs and plan for construction projects to address those needs, they often conduct a CNA to determine when building systems will wear out and need to be replaced, and what replacement will cost, so they can plan to ensure that the necessary funding will be available

Capital Projects are projects that add significant value to an asset or replace building systems or components. Project cost must be greater than \$1000.

CIMS a web-based software system used for creating CIP's and Annual Plans. For the CIP, the CIMS program allows the LHA to prioritize, select and schedule projects, assign funding sources and direct project spending to specific fiscal years to create a CIP that is consistent with the LHA's FF award amount and FF cap shares, plus any additional funding resources the LHA has identified. The LHA submits its CIP and EOHLC conducts its review of the LHA's CIP in CIMS. For the Annual Plan CIMS imports data from other EOHLC systems and combines that with data entered by the LHA.

CIP: A Capital Improvement Plan (CIP) is a five (5) year plan which identifies capital projects, provides a planning scope, schedule and budget for each capital project and identifies options for financing and implementing the plan. The contents of a CIP are limited to available resources. An approved CIP is required in order to receive Formula Funds.

CNA: Capital Needs Assessment

CPS EOHLC's transparent Web-based capital planning system that catalogues the condition of every building and site in the statewide public housing portfolio, providing LHAs with detailed technical information to make strategic long-term capital investments. It includes a Facility Condition Index (FCI) for every development that compares the value of expired components of a development relative to its replacement cost.

Deferred Maintenance is maintenance, upgrades, or repairs that are deferred to a future budget cycle or postponed for some other reason. Sometimes it is referred to as extraordinary maintenance.

Deficit housing authority: a housing authority whose income (mainly from rent) does not cover all its normal operating costs in its approved operating budget, and which therefore operates at a deficit and requires operating subsidy from EOHLC.

EOHLC: Massachusetts Executive Office of Housing and Livable Communities

Extraordinary Maintenance: see the description for budget line 4610 in the Explanation of Budget Accounts in the Budget Section of this Annual Plan.

FF: **Formula Funding**

Formula Funding is state bond funding allocated to each LHA according to the condition (needs) of its portfolio in comparison to the entire state-aided public housing portfolio.

FYE: **Fiscal Year End**

HHA Administrative Fee is the fee paid to an HHA from the RCAT Program budget.

HHA: Host Housing Authority for the RCAT program.

Host Housing Authority (HHA). An LHA selected by the Department to employ and oversee an RCAT.

HUD: **U.S. Department of Housing and Urban Development**

LHA: **Local Housing Authority**

LTO: Local Tenants Organization

Management and Occupancy Report: This is an annual HUD review process that is used to evaluate the performance of developments in various HUD housing programs, including the Section 8 New Construction/Substantial Rehabilitation program, which some LHAs operate. It is similar to the state PMR process in that it evaluates LHA performance on variety of financial, housing quality, and other standards

Massachusetts Rental Voucher Program (MRVP) is a state-funded program that provides rental subsidies to low-income families and individuals.

MOR: Management and Occupancy Report

MRVP: Massachusetts Rental Voucher Program's annual review of each housing authority's performance. It pulls together data on the authority's occupancy rates, tenant accounts receivables, accounts payable, budget variance, operating reserve, capital improvement plan submission, capital spending, annual inspections and work order and maintenance systems to identify and address areas of strength and areas for development. Its goal is to allow EOHLC and the LHA to take a deep dive into the data, lift up best practices, and work together towards improving operations voucher Program.

PMR: Performance Management Review

RCAT: Regional Capital Assistance Team

Regional Capital Assistance Team: One of three organizations employed at HHAs designated by the Department to carry out the RCAT Program.

Sec.8 NC/SR (or S8NCSR): Section 8 New Construction and Substantial Rehabilitation

Section 8 New Construction and Substantial Rehabilitation (Sec.8 NC/SR): This term refers to a federal HUD housing program operated at a small number of state public housing developments whose construction was funded by state grants, but whose ongoing operating costs are supported by project-based subsidies from HUD's federal Section 8 program, rather than from state public housing operating funds.

Special Awards: In addition to allocations to each LHA, EOHLC has created limited set aside funds to provide for extreme emergency or code compliance needs which are beyond the capacity of an LHA's current FF balance.

Surplus housing authority: a housing authority whose income (mainly from rent) covers all its normal operating costs in its approved operating budget, and which therefore operates at a surplus and does not require operating subsidy from EOHLC.

Executive Director

Resident Surveys – Background

Since 2016 DHCD has been working with the Center for Survey Research (CSR) at the University of Massachusetts Boston to survey residents in the state public housing units it oversees. The surveys are confidential, mailed directly to residents, and returned to CSR by mail (or, starting in 2019, completed on-line). CSR surveys residents of elderly/disabled units (also known as Chapter 667) and family units (also known as Chapter 200 and Chapter 705).

During each round all units are mailed surveys, with one exception: in the case of the twelve housing authorities with more than 225 c.200 family units, a randomly selected group of 225 units was surveyed at each housing authority. This group was determined to be large enough to generate statistically useful results. In both rounds, responses from c.200 and c.705 residents are always combined.

Round One Surveys (2016 – 2018)

In Round One of the surveys, CSR surveyed residents of elderly/disabled units (c.667) in three groups in the Fall of 2016, 2017 and 2018. CSR surveyed residents of family units (c.705 and c.200) in the Spring of 2016. (Note: there are many more c.667 units, so they were broken down into three groups).

Round Two Surveys (2019 – 2022)

Round Two of the surveys began in 2019. CSR surveyed about one-third of the elderly/disabled units in Fall 2019, Fall 2021, and Fall 2022. CSR surveyed all family units in Fall 2020.

Round Three Surveys (2023 – 2027)

Round Three of the surveys began in 2023. CSR surveyed about one-third of the elderly/disabled units and one-third of family units in Fall 2023.

EXECUTIVE OFFICE OF HOUSING AND LIVABLE COMMUNITIES (EOHLC)

PMR Physical Condition Report

For any questions on your FMS PMR Ratings, please contact your FMS.

LHA Name	BELLINGHAM HOUSING AUTHORITY
FYE	Mar 2025
HMS Name	Kaliah Graham
FMS Name	Wilzor Exantus

Criteria 1: 100% of units inspected during FYE under review

Rating: No Findings

Recommendations: 1. For unit inspection, if there's a deficiency in the unit, we need the actual work order that states each deficiency, not the unit work order history report. Omitting this will result in failure to pass future PMRs.
2. For unit inspection, if there's a deficiency in the unit, we need the actual work order that states each deficiency, not the unit work order history report. Omitting this will result in failure to pass future PMRs.

Criteria 2: Unit inspection Reports create, track, and report Work Orders for inspection repairs, and Work Orders are completed within 30 days or added to DM/CIP

Rating: No Findings

Recommendations: 1. For unit inspection, if there's a deficiency in the unit, we need the actual work order that states each deficiency, not the unit work order history report. Omitting this will result in failure to pass future PMRs.
2. For unit inspection, if there's a deficiency in the unit, we need the actual work order that states each deficiency, not the unit work order history report. Omitting this will result in failure to pass future PMRs.

Criteria 3: Unit Inspection Reports accurately reflect necessary repairs

Rating: No Findings

Recommendations: 1. No Recommendations

Criteria 4: Work Orders created for every vacancy and completed within 30 days (or waiver requested)

Rating: Corrective Action

Recommendations: 1. For unit vacancy, every task performed during the time the unit is vacant needs to be recorded in the vacant work order. we will not accept the maintenance unit preparation checklist. Omitting this will result in failure to pass future PMRs.
2. For unit vacancy, every task performed during the time the unit is vacant needs to be recorded in the vacant work order. We will not accept the maintenance unit preparation checklist. Omitting this will result in failure to pass future PMRs.
3. Ensure that all work required for a Vacancy Turn Over is recorded in a Vacancy Turn Over Work Order

4. Ensure that all Vacancy Turn Over Work Orders are created and tracked per EOHLC guidance
5. Vacancy turnovers should be completed within 30 calendar days or less. If cannot complete work within 30 days, LHA should contact Housing Management Specialist for a waiver. Use Online Vacancy System to Apply for Waivers (see PHN 2013 - 07) for Waiver Types (if waiver-eligible) See Handout G
6. BHA should establish a system of move out inspections for all unit that become vacant. Producing W/O from move out inspection report, and list on W/O time spent working on turnover, date turnover was started and date finished, list of work done, and material used. Turnovers should be completed within 30 days or less. If cannot complete work within 30 days, BHA should contact Housing Management Specialist to see if eligible for a waiver.

Criteria 5: Vacancy Turnover Work Orders accurately reflect necessary repairs

Rating: Corrective Action

Recommendations: 1. No Recommendations

Criteria 6: LHA Preventive Maintenance Plan accurately reflects all necessary work to maximize life of LHA components

Rating: No Findings

Recommendations: 1. No Recommendations

Criteria 7: All emergency work orders are created, tracked, reported and completed within 48 hours

Rating: No Findings

Recommendations: 1. No Recommendations

Criteria 8: All requested work orders are created, tracked, reported and completed within 14 days or added to DM/CIP

Rating: No Findings

Recommendations:

1. Ensure that all Tenant Requested Work Orders are created, tracked, and reported per EOHLC guidance
2. Ensure that all Tenant Requested Work Orders are completed within 14 days or are added to the DM/CIP
3. Refer to Property Maintenance Guide - Chapters 1 to 3 on Work Order Systems See Handout B

53. The BHA has a work order system but is not utilizing the system according to EOHLC PMR guidelines. When creating work orders, the LHA should record what TYPE of work order is

being created according to EOHLC guidelines. The TYPE's of work orders are - Emergency, Vacancy, Preventive Maintenance, Inspection, Routine, and Requested. The BHA is using PHA-Web, Routine requested by Tenant is acceptable for Requested and Routine requested by Maintenance is acceptable for Routine.

- 54. Ensure that all Tenant Requested Work Orders are created, tracked, and reported per EOHLC guidance
- 55. Ensure that all Tenant Requested Work Orders are completed within 14 days or are added to the DM/CIP
- 56. Refer to Property Maintenance Guide - Chapters 1 to 3 on Work Order Systems See Handout B
- 57. Refer to Property Maintenance Guide - Chapters 1 to 3 on Work Order Systems See Handout B
- 58. Refer to PHN 2016-16 and 2016-36 and 2018-8 on Maintenance Aspects of Performance Management Review See Handout C+D
- 59. The BHA has a work order system but is not utilizing the system according to EOHLC PMR guidelines. When creating work orders, the LHA should record what TYPE of work order is being created according to EOHLC guidelines. The TYPE's of work orders are - Emergency, Vacancy, Preventive Maintenance, Inspection, Routine, and Requested. The BHA is using PHA-Web, Routine requested by Tenant is acceptable for Requested and Routine requested by Maintenance is acceptable for Routine.

- 60. Ensure that all Tenant Requested Work Orders are created, tracked, and reported per EOHLC guidance
- 61. Ensure that all Tenant Requested Work Orders are completed within 14 days or are added to the DM/CIP
- 62. Refer to Property Maintenance Guide - Chapters 1 to 3 on Work Order Systems See Handout B
- 63. Refer to Property Maintenance Guide - Chapters 1 to 3 on Work Order Systems See Handout B
- 64. Refer to PHN 2016-16 and 2016-36 and 2018-8 on Maintenance Aspects of Performance Management Review See Handout C+D
- 65. The BHA has a work order system but is not utilizing the system according to EOHLC PMR guidelines. When creating work orders, the LHA should record what TYPE of work order is being created according to EOHLC guidelines. The TYPE's of work orders are - Emergency, Vacancy, Preventive Maintenance, Inspection, Routine, and Requested. The BHA is using PHA-Web, Routine requested by Tenant is acceptable for Requested and Routine requested by Maintenance is acceptable for Routine.

- 66. Ensure that all Tenant Requested Work Orders are created, tracked, and reported per EOHLC guidance
- 67. Ensure that all Tenant Requested Work Orders are completed within 14 days or are added to the DM/CIP
- 68. Refer to Property Maintenance Guide - Chapters 1 to 3 on Work Order Systems See Handout B
- 69. Refer to Property Maintenance Guide - Chapters 1 to 3 on Work Order Systems See Handout B
- 70. Refer to PHN 2016-16 and 2016-36 and 2018-8 on Maintenance Aspects of Performance

Management Review See Handout C+D

71. The BHA has a work order system but is not utilizing the system according to EOHLC PMR guidelines. When creating work orders, the LHA should record what TYPE of work order is being created according to EOHLC guidelines. The TYPE's of work orders are - Emergency, Vacancy, Preventive Maintenance, Inspection, Routine, and Requested.
The BHA is using PHA-Web, Routine requested by Tenant is acceptable for Requested and Routine requested by Maintenance is acceptable for Routine.

72. Ensure that all Tenant Requested Work Orders are created, tracked, and reported per EOHLC guidance

73. Ensure that all Tenant Requested Work Orders are completed within 14 days or are added to the DM/CIP

74. Refer to Property Maintenance Guide - Chapters 1 to 3 on Work Order Systems See Handout B

75. Refer to Property Maintenance Guide - Chapters 1 to 3 on Work Order Systems See Handout B

76. Refer to PHN 2016-16 and 2016-36 and 2018-8 on Maintenance Aspects of Performance Management Review See Handout C+D

77. The BHA has a work order system but is not utilizing the system according to EOHLC PMR guidelines. When creating work orders, the LHA should record what TYPE of work order is being created according to EOHLC guidelines. The TYPE's of work orders are - Emergency, Vacancy, Preventive Maintenance, Inspection, Routine, and Requested.
The BHA is using PHA-Web, Routine requested by Tenant is acceptable for Requested and Routine requested by Maintenance is acceptable for Routine.

78. Ensure that all Tenant Requested Work Orders are created, tracked, and reported per EOHLC guidance

79. Ensure that all Tenant Requested Work Orders are completed within 14 days or are added to the DM/CIP

80. Refer to Property Maintenance Guide - Chapters 1 to 3 on Work Order Systems See Handout B

81. Refer to Property Maintenance Guide - Chapters 1 to 3 on Work Order Systems See Handout B

82. Refer to PHN 2016-16 and 2016-36 and 2018-8 on Maintenance Aspects of Performance Management Review See Handout C+D

83. The BHA has a work order system but is not utilizing the system according to EOHLC PMR guidelines. When creating work orders, the LHA should record what TYPE of work order is being created according to EOHLC guidelines. The TYPE's of work orders are - Emergency, Vacancy, Preventive Maintenance, Inspection, Routine, and Requested.
The BHA is using PHA-Web, Routine requested by Tenant is acceptable for Requested and Routine requested by Maintenance is acceptable for Routine.

84. Ensure that all Tenant Requested Work Orders are created, tracked, and reported per EOHLC guidance

85. Ensure that all Tenant Requested Work Orders are completed within 14 days or are added to the DM/CIP

86. Refer to Property Maintenance Guide - Chapters 1 to 3 on Work Order Systems See Handout B

87. Refer to Property Maintenance Guide - Chapters 1 to 3 on Work Order Systems See Handout B

88. Refer to PHN 2016-16 and 2016-36 and 2018-8 on Maintenance Aspects of Performance Management Review See Handout C+D

89. The BHA has a work order system but is not utilizing the system according to EOHLC PMR guidelines. When creating work orders, the LHA should record what TYPE of work order is being created according to EOHLC guidelines. The TYPE's of work orders are - Emergency, Vacancy, Preventive Maintenance, Inspection, Routine, and Requested.

The BHA is using PHA-Web, Routine requested by Tenant is acceptable for Requested and Routine requested by Maintenance is acceptable for Routine.

Health & Safety Deficiencies

Inspection reports were provided to the LHA at the time of the EOHLC site visit. Health and safety deficiencies were identified during the PMR Inspection. These items must be completed or initiated within 48 hours. Following completion of these health and safety deficiencies, the Executive Director must login to the FMS software application and certify, by electronic signature, that all health and safety deficiencies have been completed. Please contact your assigned FMS for further assistance.
